BANK OF COMMERCE
NOTES TO INTERIM CONDENSED FINANCIAL STATEMENTS

1. Reporting Entity

Bank of Commerce (the “Bank”) is a domestic corporation registered with the Securities and Exchange Commission (SEC) on December 16, 1963. The Bank’s shares were listed with the Philippine Stock Exchange, Inc. (PSE) on March 31, 2022, as approved by the SEC on February 15, 2022. The Bangko Sentral ng Pilipinas (BSP) approved the upgrade of the Bank’s banking license from commercial bank to universal bank on December 23, 2021. On August 11, 2022, the SEC approved the application of the Bank to act as underwriter of securities engaged in dealing government securities. On October 24, 2022, the Bank received from the BSP the Certificate of Authority to Operate as a Universal Bank dated October 4, 2022. On November 2, 2022, the Bank officially started operations as a universal bank.

The Bank provides services such as deposit products, loans and trade finance, domestic and foreign fund transfers, foreign exchange, credit card and trust services. The Bank’s principal place of business is at San Miguel Properties Centre, No.7 St. Francis Street, Mandaluyong City. The Bank has a total of 140 branches nationwide as at March 31, 2023 and December 31, 2022.

San Miguel Properties, Inc. (SMPI) and San Miguel Corporation Retirement Plan (SMCRP) hold 31.91% and 30.84% ownership of the Bank’s issued common shares, respectively, as at March 31, 2023 and December 31, 2022. Each of these shareholders has significant influence over the Bank. SMC Equivest Corporation holds 100% ownership of the Bank’s issued non-voting preferred shares as at March 31, 2023 and December 31, 2022.

The Bank’s original authority for its banking license was approved under Monetary Board (MB) Resolution No. 1045 dated October 4, 1963 as The Overseas Bank of Manila. The Bank received its Foreign Currency Deposit Unit (the “FCDU”) license and launched its FCDU operations on September 23, 1983. The Bank received its Expanded FCDU license on March 10, 2010. The Bank was renamed Commercial Bank of Manila, Inc. on October 20, 1980, further renamed Boston Bank of the Philippines on July 27, 1988, and finally, Bank of Commerce on November 28, 1991.

Under Section 11, Corporate Term of the Revised Corporation Code issued on February 23, 2019, a corporation shall have perpetual existence unless its articles of incorporation provides otherwise. On January 30, 2020, the Board of Directors (BOD) approved the Amended Articles of Incorporation to reflect that the Bank’s term of existence shall be perpetual. The said amendment was approved by the SEC on June 9, 2020.

2. Basis of Preparation

Statement of Compliance

The interim condensed financial statements of the Bank have been prepared in compliance with Philippine Accounting Standards (PAS) 34, *Interim Financial Reporting*, and should be read in conjunction with the Bank’s last annual financial statements as at and for the year ended December 31, 2022 (last annual audited financial statements). They do not include all information required for a complete set of financial statements that is compliant with Philippine Financial Reporting

Standards (PFRSs). However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Bank's financial position and performance since the last annual audited financial statements.

Basis of Measurement

The interim condensed financial statements of the Bank have been prepared on a historical cost basis, except for the following items:

Items	Measurement Bases
Financial assets and liabilities at fair value through profit or loss (FVPL)	Fair value
Financial assets at fair value through other comprehensive income (FVOCI)	Fair value
Lease liability	Present value of remaining lease payments, discounted using the Bank's incremental borrowing rate
Net retirement liability	Present value of the defined benefit obligation less fair value of plan assets

Functional and Presentation Currency

The interim condensed financial statements include accounts maintained in the Regular Banking Unit (the "RBU") and the FCDU. The functional currency of the RBU and the FCDU is Philippine Peso (PHP) and United States Dollar (USD), respectively. For financial reporting purposes, FCDU accounts and foreign currency-denominated accounts in the RBU are translated to their equivalents in PHP. The financial statements individually prepared for these units are combined after eliminating inter-unit accounts.

All values are rounded to the nearest peso unless otherwise stated.

Presentation of Financial Statements

The Bank presents its interim condensed statements of financial position broadly in the order of liquidity.

3. Summary of Accounting Policies

The accounting policies adopted in the preparation of the interim condensed financial statements are consistent with those applied in the Bank's last annual audited financial statements as at and for the year ended December 31, 2022, except for the adoption of the following amended standards, which became effective beginning January 1, 2023. Unless otherwise indicated, the adoption of these amended standards did not have an impact on the interim condensed financial statements of the Bank. The Bank has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

- *Definition of Accounting Estimates (Amendments to PAS 8 Accounting Policies, Changes in Accounting Estimates and Errors)*. To clarify the distinction between changes in accounting policies and changes in accounting estimates, the amendments introduce a new definition for accounting estimates, clarifying that they are monetary amounts in the financial statements that are subject to measurement uncertainty. The amendments also clarify the relationship between accounting policies and accounting estimates by specifying that an accounting estimate is developed to achieve the objective set out by an accounting policy. Developing an accounting estimate includes both selecting a measurement

technique and choosing the inputs to be used when applying the chosen measurement technique. The effects of changes in such inputs or measurement techniques are changes in accounting estimates. The definition of accounting policies remain unchanged. The amendments also provide examples on the application of the new definition.

The amendments are effective for annual reporting periods beginning on or after January 1, 2023, with earlier application permitted, and will apply prospectively to changes in accounting estimates and changes in accounting policies occurring on or after the beginning of the first annual reporting period in which the amendments are applied.

- *Disclosure of Accounting Policies (Amendments to PAS 1 Presentation of Financial Statements and PFRS Practice Statement 2 Making Materiality Judgements)*. The amendments are intended to help companies provide useful accounting policy disclosures. The key amendments to PAS 1 include:
 - requiring companies to disclose their material accounting policies rather than their significant accounting policies;
 - clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed; and
 - clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to a company's financial statements.

The amendments to PFRS Practice Statement 2 includes guidance and additional examples on the application of materiality to accounting policy disclosures.

The amendments are effective from January 1, 2023. Earlier application is permitted.

- *Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to PAS 12 Income Taxes)*. The amendments clarify that that the initial recognition exemption does not apply to transactions that give rise to equal taxable and deductible temporary differences such as leases and decommissioning obligations. For leases and decommissioning liabilities, the associated deferred tax assets and liabilities will be recognized from the beginning of the earliest comparative period presented, with any cumulative effect recognized as an adjustment to retained earnings or other appropriate component of equity at that date. For all other transactions, the amendments apply to transactions that occur after the beginning of the earliest period presented.

The amendments are effective for annual reporting periods beginning on or after January 1, 2023. Earlier application is permitted.

4. Critical Judgments and Estimates

The preparation of financial statements in conformity with PFRSs requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses, and disclosures of contingent assets and contingent liabilities. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Significant accounting judgments and estimates of the Bank were the same as those disclosed in the last annual audited financial statements.

5. Financial Risk Management Objectives and Policies

Compared with the December 31, 2022 audited financial statements of the Bank, there have been no changes in the financial risk exposures that materially affect the interim condensed financial statements of the Bank as at March 31, 2023. The Bank has exposures to the following risks from its use of financial instruments: (a) credit; (b) interests rate risk in the banking book; (c) liquidity; and (d) market risks. Related discussions below should be read in conjunction with Note 5, Financial Risk Management Objectives and Policies of the Bank's 2022 audited financial statements.

Risk Management Structure

The BOD is ultimately responsible for identifying and controlling risks. Supporting the BOD in this function are certain Board-level committees such as Board Risk Oversight Committee (BROC), Corporate Governance Committee, Related Party Transactions Committee (RPTCom), Audit Committee and management committees and independent units such as Asset Liability Management Committee (ALCO), Credit and Collections Committee (Crecom), Internal Capital Adequacy Assessment Process (ICAAP) Steering Committee, Internal Audit Division, Legal Services Division, Compliance Division and Risk Management Division (RSK). They are responsible for managing and monitoring financial risk.

Risk Measurement and Reporting Systems

The Bank's capital adequacy is determined by measuring credit, market and operational risk exposures using standardized or basic approaches as suggested by BSP. Risk exposures are measured both individually and in aggregate amounts.

Risk measurements are done by respective risk-taking personnel and groups but are independently validated, analyzed and reported by the RSK.

Market risks are measured by mark-to-market and Value-at-Risk (VAR) analyses on the overall exposure, on a portfolio level, and on each individual financial instrument. These exposures are also subjected to stress testing using a variety of historical and hypothetical scenarios.

Quality of credit risks are measured via risk classifications of accounts using ICRRS together with BSP risk classification of borrowing accounts. The Bank's front office recommends the credit risk rating of borrowing accounts and classifications and allowance for losses including changes thereon, when necessary. All risk information is processed, analyzed and consolidated for proper reporting to the BOD through the BROC and Audit Committee, as well as the Senior Executive Team and various management committees of the Bank.

Actual and estimated risk exposures/losses at Treasury, Corporate, Consumer Business and Credit Cards, Operations and Information Technology, Trust and Branches are consolidated for regular reporting. Reports include, among others, portfolio mix, liquidity and maturity matching, interest rate matching, trading gains and losses, sensitivity and back-testing results, top borrowers, non-performing assets and loans, industry exposures, large exposures, fines and penalties, employee fraud cases, service level of major information technology systems and ATMs.

Risk Mitigation

To mitigate market risk exposures, other financial instruments are used to manage exposures resulting from changes in foreign currency and interest rate risk. The Bank also observes limits on positions, losses, and market sensitivities to contain these risk exposures.

The Bank maintains a capital adequacy ratio (CAR) of ten percent (10.0%) or better at all times, for regulatory compliance purposes.

Risk Concentration

The Bank manages loan concentration by controlling its mix of counterparties or borrowers in accordance with conditions permitted by regulators. Borrowers that are considered large in size are regularly monitored and reported to the BROC. Also, the limits for exposure on specific economic activity groups are in place allowing the Bank to maintain a strategic breakdown of credit risk of the different segments. Having these controls in place allows the Bank to proactively monitor exposure status and act upon limit breaches whenever necessary.

Credit Risk

The Bank considers credit risk as the possibility of loss arising from the counterparty's or customer's inability or unwillingness to settle his/her obligations on time or in full as expected or previously contracted.

The Bank has in place a credit policy manual that defines all practices, policies and procedures regarding loan activities from identification of target markets, credit initiation, documentation and disbursement, loan administration, remedial management, and loan unit organization and staffing. Also, it has in place credit approval authorities and respective limits duly approved by the BOD.

The Bank's primary element of credit risk management is the detailed risk assessment of every credit exposure associated with the counterparty. Risk assessment procedures consider both the creditworthiness of the counterparty and the risks related to the specific type of underlying credit exposures as mandated by the circulars issued by BSP. The risk assessment not only affects the structuring of the transaction and the outcome of the credit decision, but also influences the monitoring procedure applied to the ongoing exposures.

Liquidity Risk and Funding Management

Liquidity risk is the risk to the Bank's earnings and capital arising from its inability to meet funding requirements in a timely manner. To measure and monitor this risk, the Bank generates a report on future cash flows and liquidity on a daily basis. To ensure sufficient liquidity, the Bank has a set of internal limits incorporated in its annual budget that allocates a portion of its liabilities into cash, investment securities and other liquid assets. Concentration on a single funding source is also regularly monitored to control the Bank's reliance on a specific product or counterparty.

The Bank has available credit lines from various counterparties that it can utilize to meet sudden liquidity demands. It also maintains a portfolio of high quality liquid assets (HQLA) that can be converted to cash in a short period of time and with minimal loss incurred. This ensures compliance with Liquidity Coverage Ratio (LCR) as required by Basel III regulations. LCR checks if there is sufficient HQLA to offset short-term net outflows or short-term obligations under stressed conditions. The Bank also expands its sources of stable funds in order to support asset growth and meet the Net Stable Funding Ratio (NSFR) regulatory limit. NSFR ensures that the Bank is not overly reliant on short-term funding in funding its long-term assets. The Bank's liquidity position is assessed and managed under a variety of scenarios, giving due consideration to stress factors relating both to the market in general and to events specific to the Bank. A contingency funding plan, which covers quantitative and procedural measures, is in place and may be applied under different stress scenarios.

The Bank also manages its liquidity position through the monitoring of a Maximum Cumulative Outflow against a Board-approved limit. This process measures and estimates projected funding requirements that the Bank will need at specific time horizons.

Interest Rate Risk in the Banking Book

The loans provided by the Bank to its borrowers are mostly funded by the deposits of its branch and corporate customers. The difference in the interest revenues from loans and the interest expense in servicing deposits provide the bulk of the Bank's Net Interest Income (NII). Aside from loans, interest revenue is also generated from holdings in debt securities, repurchase agreements (repo), and other interest-bearing assets. Occasionally, the Bank taps interbank loans and other sources of funding to supplement deposits, which are subject to additional interest expense.

The Bank utilizes Funds Transfer Pricing (FTP) as a mechanism to charge the asset businesses for funding (e.g., term loans, housing loans) and to compensate fund raisers (e.g., branch deposits). FTP helps units evaluate profitability and calculate returns upon deal origination. Furthermore, the FTP framework insulates them from interest rate risk. The Central Funding Unit (CFU), under the Treasury Management Group, manages the Bank's overall IRRBB. CFU is the first line of defense for both IRRBB and Liquidity Risk. While the Bank does not have intentions to hedge IRRBB via interest rate swaps in the short-term, it actively manages IRRBB by growing its sources of stable funds to match long-term assets.

The FTP policy is properly documented and is transparent to all parties. The FTP interest rates are anchored by widely-used and market-driven benchmark rates such as BVAL and BSP interest rate corridor rates for Peso; US Libor and USD-denominated bonds issued by the Philippines for USD. Trends, forecasts, and adjustments to the FTP are discussed and approved in the regular ALCO meeting.

The NII, and ultimately earnings and capital, is vulnerable to adverse fluctuations interest rates. The Bank also measures the sensitivity of its assets and liabilities to interest rate fluctuations by way of asset-liability gap analysis on a monthly basis.

This analysis focuses on the repricing profile of its rate sensitive assets and liabilities, and the impact of interest rate movements on the Bank's accrual earnings. The interest rate repricing gap report assigns all assets and liabilities into various time buckets according to the remaining days to maturity for fixed-rate items, remaining days to next re-pricing for floating-rate items, or based on behavioral assumptions, if more applicable.

The difference between the total of the repricing (interest rate-sensitive) assets and repricing (interest rate-sensitive) liabilities gives an indication of the Bank's repricing risk exposure. A positive gap means more assets mature or have to be repriced than liabilities. In this case, the Bank is said to be "asset sensitive" in that time bucket and it benefits from an increase of interest rates as the assets will be repriced faster than liabilities.

A bank with a negative gap is considered "liability sensitive" since it has more liabilities to be repriced during such period than assets. It is negatively affected by a hike in interest rates. An example would be a bank that uses short-term deposits to fund long-term loans at fixed rates. It may encounter a decline in its net interest income if the interest rates increase since the cost of funds (the deposit rates) will increase while the earnings from loans remain fixed.

RSK monitors the mismatches in the repricing of its assets and liabilities through the interest rate gap reports presented to ALCO and BROCC on a monthly basis. To ensure that the Bank's net interest income is preserved, the Bank has set a limit for the maximum repricing gap, either positive or negative, for tenors up to 1 year. These limits are reviewed annually and form part of the Bank's risk appetite statements.

The Bank makes use of an internally developed Earnings-at-Risk (EAR) model for measuring IRRBB. EAR simulates the contraction of the projected NII over the next 12 months using historical changes in interest rate benchmarks such as BVAL for PHP and US Libor for USD. The balance sheet size and shape are assumed to remain static for the next 12 months. Non-maturity deposits (NMD) or current- savings accounts (CASA) are split into two classifications, core deposits and volatile deposits.

The volatile or non-core portion of the NMD/CASA is spread over short-term buckets based on behavioral average life. Core deposits are slotted in the 3 - 5 years bucket. Interest rate option risk embedded in loans and time deposits that alter the timing of balance sheet items are incorporated in the model. The model captures the possibility of borrowers prepaying their loans and time deposit customers pre-terminating their investments. The interest rate scenario simulated by the model impacts the exercise of the interest rate option. More prepayment is expected if interest rates decline while more pre-termination is expected as interest rates increase.

Market Risk

Market risk arises from the potential decline in earnings and capital due to adverse changes in market conditions and the underlying risk factors, which in turn affect the value and future cash flows of financial instruments, products, and transactions. The Bank is primarily exposed to two sources of market risk, namely: 1) market price risk in the trading book; and 2) foreign exchange risk from open foreign currency exposures. The Bank also has equity-related holdings which is a source of equity price risk, although deemed as minimal compared to the first two.

Market Price Risk in the Trading Book

The market price of financial instruments and transactions in the trading book may change unfavorably as a result of movements in interest rates, foreign exchange rates, credit spreads, and other risk factors. The Bank employs an internally developed VAR model, along with other sensitivity metrics, to measure and monitor the probable deterioration in the market value of its trading portfolio. The Bank's RSKsimulates the trading book's VAR on a daily basis and the results are compared against Board-approved limits. In addition to the limit on VAR, the trading portfolio is also subject to limits on aggregate exposures, sensitivity metrics, monthly and yearly losses.

Value-at-Risk Methodology

VAR serves as the Bank's key metric in the measurement of risk arising from market price changes of financial assets and foreign currency exposures. Given data for the market risk factors over a 1-year period (260 business days), VAR is the maximum probable loss that may be incurred from positions exposed to market risk. The maximum probable loss is calculated from simulations of daily profit and losses assuming that historical movements in market risk factors will recur, subject to a 99% confidence level and a 1-day holding period.

The Bank's VAR methodology is based on the widely used historical simulation method but with a modification on the usual assumption of equal probabilities in the simulation data points. Profit and loss simulations derived from older data are given less importance by assigning them with progressively lower probabilities of occurrence when used in the calculation of the maximum probable loss.

Currency Risk

The Bank's policy is to maintain foreign currency exposure within acceptable limits and within existing regulatory guidelines. The Bank believes that its profile of foreign currency exposure based on its assets and liabilities is within conservative limits for a financial institution engaged in a type of business similar to that of the Bank.

Foreign currency deposits are generally used to fund the foreign currency-denominated loan and investment portfolios in the FCDU. Banks are required by BSP to match the foreign currency liabilities held in the FCDU with foreign currency assets. In addition, BSP requires a 30.0% liquidity reserve on all foreign currency liabilities held in the FCDU.

Similar to market price risk in the trading book, the Bank employs limits and a VAR model to manage the risk that possible interest or currency movements pose. Such limits are prudently set and the position status is monitored on a daily basis.

Equity Price Risk

Given the nature and amount of the Bank's equity investments portfolio for the three months ended March 31, 2023 and year ended December 31, 2022, management believes the Bank's exposure to equity price risk is considered minimal.

6. Categories and Fair Value Measurement

The methods and assumptions used by the Bank in estimating the fair values of financial and non-financial assets and liabilities are as follows:

Cash and Other Cash Items, Due from BSP and Other Banks and Interbank Loans Receivable and Securities Purchased under Resale Agreements (SPURA) - Fair values approximate carrying amounts given the short-term nature of the instruments.

Debt Securities (Financial Assets at FVPL, Financial Assets at FVOCI, and Investment Securities at Amortized Cost) - Fair values are generally based on quoted market prices. If not readily available, fair values are estimated using either values obtained from independent parties offering pricing services or adjusted quoted market prices of comparable investments or using discounted cash flow methodology.

Equity Securities (Financial Assets at FVOCI) - Fair values are determined based on market prices quoted in an established exchange, or on published quotes by accredited brokers.

Derivative Instruments (Financial Assets and Financial Liabilities at FVPL) - Fair values are determined based on published quotes or price valuations provided by counterparties or calculations using market-accepted valuation techniques.

Loans and Receivables - The estimated fair values of long-term receivables from customers and sales contract receivables are equal to the estimated future cash flows expected to be received which are discounted using current market rates (i.e., BVAL and US Treasury Yield Curve Rates). Fair value of short-term receivable from customers, sales contract receivables, accounts receivables, accrued interest receivables, and returned checks and other cash items (RCOCI) approximates carrying amounts given the short-term nature of the accounts.

Investment Properties - Fair value is determined based on valuations performed by external and in-house appraisers using the market data approach. Valuations are derived on the basis of recent sales of similar properties in the same area as the investment properties and taking into account the economic conditions prevailing at the time the valuations were made and comparability of similar properties sold with the property being valued. Significant unobservable inputs in determining the fair values include the following:

Location	Location of comparative properties whether on a main road or secondary road. Road width could also be a consideration if data is available. As a rule, properties along a main road are superior to properties along a secondary road.
Size	Size of lot in terms of area. Evaluate if the lot size of property or comparable confirms to the average cut of the lots in the area and estimate the impact of lot size differences on land value.
Time Element	An adjustment for market conditions is made if general property values have appreciated or depreciated since the transaction dates due to inflation or deflation or a change in investor's perceptions of the market over time, in which case, the current date is superior to historic data.

Discount Generally, asking prices in ads posted for sale are negotiable. Discount is the amount the seller or developer is willing to deduct from the posted selling price if the transaction will be in cash or equivalent.

Deposit Liabilities - Fair values of long-term time deposits are estimated using the discounted cash flow methodology, where future cash flows are discounted using the current market rate (i.e., BVAL and US Treasury Yield Curve Rates) and with maturities consistent with those remaining for the liability being valued. Carrying amounts of short-term time deposits approximate fair value. For demand and savings deposits, carrying amounts approximate fair values considering that these are currently due and demandable.

Bonds and Bills Payable - For long-term bonds and bills payable, fair values are estimated using the discounted cash flow methodology, where future cash flows are discounted using the current market rate and with maturities consistent with those remaining for the liability being valued. Carrying amounts of short-term bonds and bills payable approximate fair value.

Manager's Checks, Accrued Interest and Other Expenses and Other Liabilities (excluding non-financial liabilities) - Carrying amounts approximate fair values due to the short-term nature of the accounts. Due to preferred shareholders is determined to be long term in nature due to a pending dispute which affects maturity. Fair value cannot be estimated reliably due to lack of supportable data available.

The following table provides the fair value hierarchy of the Bank's assets and liabilities measured at fair value and those for which fair values should be disclosed (amounts in thousands):

	March 31, 2023 (Unaudited)				Total Fair Value
	Carrying Value	Level 1	Level 2	Level 3	
Assets Measured at Fair Value					
<i>Financial Assets</i>					
Financial assets at FVPL:

Long-term negotiable certificates	5,029,420	-	4,787,902	-	4,787,902
Bonds payable	7,442,251	-	7,386,764	-	7,386,764
	P30,264,969	P -	P29,910,495	P -	P29,910,495

In 2022, due to changes in market conditions for certain government securities measured at FVOCI, quoted prices in active markets were not available for these securities. However, there was sufficient information available to measure the fair values of these securities based on observable market inputs. Therefore, these securities at FVOCI, with carrying amounts of P306.1 million in 2022, were transferred from Level 1 to Level 2 of the fair value hierarchy. There have been no transfers from Level 1 to Level 2 of the fair value hierarchy for government securities measured at FVPL in 2022. There have been no transfers from Level 1 to Level 2 of the fair value hierarchy in 2023.

In 2023, securities at FVPL and at FVOCI, with carrying amount of P0.2 million and P983.2 million, respectively, were transferred from Level 2 to Level 1 of the fair value hierarchy since quoted prices in active markets were already available. There have been no transfers from Level 2 to Level 1 of the fair value hierarchy in 2022.

In 2023 and 2022, there have been no transfers into and out of Level 3 of the fair value hierarchy.

The carrying values of financial assets and liabilities not included in the fair value hierarchy table shown above approximate their respective fair values as at March 31, 2023 and December 31, 2022.

7. Segment Reporting

The Bank's operating businesses are recognized and managed separately according to the nature of services provided and the different markets served, with each segment representing a strategic business unit. Operating segments are reported in accordance with internal reporting to Senior Management who is responsible for allocating resources to the segments and assessing their performance. Segment

performance is evaluated based on net income before provision/reversal of credit and impairment losses, share in net loss of an associate and income tax expense. The Bank's business segments follow:

Treasury Management Group - principally provides money market, trading and treasury services, as well as management of the Bank's funding operations by use of treasury bills, government securities and placements and acceptances with other banks.

Corporate Banking Group - principally handles loans and other credit facilities for corporate institutional, and middle market clients.

Branch Banking Group - principally supervises customers' deposits and offers standard customer transactional services through the branch network.

Consumer Group - principally manages home, automobile, and salary loans for individual customers.

Others - includes but not limited to Investment Banking, Credit Cards, Transaction Banking, Trust, and Acquired Assets. Other operations of the Bank also include operations and financial control groups.

Segment assets and liabilities comprise operating assets and liabilities, including borrowings. Revenues and expenses that are directly attributable to a particular business segment and the relevant portions of the Bank's revenues and expenses that can be allocated to that business segment are accordingly reflected as revenues and expenses of that business segment. Transactions between the business segments are carried out at arm's length. The Bank uses an Internal Funds Transfer Pricing rate to allocate the cost of funds or to recognize internal revenue for deposit takers. The Bank has no significant customers which contributes 10.00% or more of the Bank's revenue net of interest expense. Internal charges and transfer pricing adjustments have been reflected in the performance of each business.

The segment information of the Bank for the three months ended March 31, 2023 and 2022 for statement of income items, and as at March 31, 2023 and December 31, 2022 for statement of financial position items follow (amounts in millions):

Non-Interest income consists of trading and investment securities gains (losses), service charges, fees and commissions, foreign exchange gains, gain on foreclosure, and sale of property and equipment and foreclosed assets and miscellaneous income.

Other expenses consist of compensation and fringe benefits, taxes and licenses, rent and utilities, depreciation and amortization, insurance, service fees and commissions, subscription fees, entertainment and recreation, management and professional fees, amortization of software costs, share in net loss of associate and miscellaneous expense.

8. Interbank Loans Receivable and Securities Purchased under Resale Agreements

This account consists of:

	March 31, 2023 (Unaudited)	December 31, 2022 (Audited)
SPURA	P8,886,204,610	P14,538,857,444
Interbank loans receivable	4,219,781,329	3,842,368,409
	13,105,985,939	18,381,225,853
Less allowance for credit losses	1,769,308	2,481,466
	P13,104,216,631	P18,378,744,387

SPURA represents overnight lending placements with the BSP where the underlying securities cannot be sold or re-pledged to parties other than the BSP.

Interbank loans receivable consists of short-term loans granted to other banks.

9. Financial Assets and Liabilities at Fair Value through Profit or Loss

Financial assets at FVPL consist of:

	March 31, 2023 (Unaudited)	December 31, 2022 (Audited)
Government securities held-for-trading	P384,561,163	P7,258,797
Private debt securities	299,951,519	344,809,237
Derivative assets	29,820,310	28,933,434
	P714,332,992	P381,001,468

As at March 31, 2023 and December 31, 2022, financial assets and liabilities at FVPL are adjusted for unrealized gain of P12.8 million and P3.0 million, respectively.

As at March 31, 2023 and December 31, 2022, there are no outstanding embedded derivatives.

Derivative Financial Instruments

This includes warrants amounting to \$50 thousand acquired by the Bank in June 2008. The warrants give the Bank the option or right to exchange its holding of certain Republic of the Philippines Global Bonds into peso-denominated government securities upon occurrence of a predetermined credit event. The warrants will mature in November 2032.

Forward swaps refer to spot purchase or sale of one currency against another with an offsetting agreement to sell or purchase the same currency at an agreed forward rate in the future. As at March 31, 2023, these pertain to seven contracts with notional amount of \$5.0 million each. The Bank has one contract with notional amount of \$1.0 million and three contracts with notional amount of \$0.5 million each as at December 31, 2022.

The table below shows the fair values of derivative financial instruments entered into by the Bank, recorded as derivative assets or derivative liabilities, together with the notional amount and leverage exposure. The leverage exposure is the amount of a derivative's underlying asset, reference rate or index and is the basis upon which changes in the value of derivatives are measured. The leverage exposure indicates the volume of transactions outstanding as at March 31, 2023 and December 31, 2022 and is not indicative of either market risk or credit risk.

	March 31, 2023 (Unaudited)			December 31, 2022 (Audited)		
	Derivative Assets	Notional Amount	Leverage Exposure	Derivative Assets	Notional Amount	Leverage Exposure
Freestanding derivatives:						
Warrants	P27,180,000	\$50,000	\$ -	P27,877,500	\$50,000	\$ -
Forwards	2,640,310	25,000,000	-	1,055,934	1,000,000	-

Sales contract receivables	376,697,714	382,621,585
Unquoted debt securities	291,578,210	291,578,213
RCOCI	1,169,913	249,146
	109,906,594,166	108,551,824,123
Less allowance for credit losses	3,424,606,759	3,460,595,359
	P106,481,987,407	P105,091,228,764

Bills purchased, import bills and trust receipts include bills purchased with contra account in "Bills purchased - contra" under "Other Liabilities" amounting to P843.9 million and P1.3 billion as at March 31, 2023 and December 31, 2022, respectively.

As at March 31, 2023 and December 31, 2022, the non-performing loans of the Bank amounted to P2.4 billion and P2.5 billion, respectively. Gross and net NPL ratios of the Bank are 2.1% and 0.6%, respectively, as at March 31, 2023 and December 31, 2022.

13. Bonds Payable

On July 29, 2022, the Bank issued P7.5 billion fixed rate bonds due on July 29, 2024. The bonds were priced at par with a coupon rate of 5.0263% payable on a quarterly basis commencing on October 29, 2022. The bonds were listed in Philippine Dealing and Exchange Corporation (PDEX). Transaction costs on the issuance of bonds amounted to P72.4 million.

Interest expense on bonds payable amounted to P103.1 million for the three months ended March 31, 2023. As at March 31, 2023 and December 31, 2022, unamortized bond transaction costs amounted to P48.9 million and P57.7 million, respectively.

14. Capital

As at March 31, 2023 and December 31, 2022, the Bank's capital stock consists of the following:

	Shares		Amount	
	March 31, 2023 (Unaudited)	December 31, 2022 (Audited)	March 31, 2023 (Unaudited)	December 31, 2022 (Audited)

Preferred stock			1,233,771,939	1,233,771,939
			P7,229,275,360	P7,229,275,360

Subject to the approval of the relevant government regulatory agencies, the Stockholders and BOD approved on April 25, 2023 and February 28, 2023, respectively, the amendment of the Articles of Incorporation to increase the Bank's authorized capital stock from P21,575,114,700 (divided into 1,702,511,470 common shares and 455,000,000 preferred shares) to P28,198,773,840 (divided into 2,364,877,384 common shares and 455,000,000 preferred shares).

On the same date, the Stockholders and BOD also approved the amendment to the By-laws to (a) change the schedule of the annual stockholders' meeting from April to May, and (b) comply with Section 132 of the MORB, Section 29 and 34 of the Revised Corporation Code and Section 3 of the SEC Memorandum Circular No. 20 series of 2020.

15. Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control. Related parties may be individual or corporate entities. The Bank's related parties include:

- key management personnel, close family members of key management personnel and entities which are controlled, significantly influenced by or for which significant voting power is held by key management personnel or their close family members;
- associates and companies linked directly or indirectly to the Bank through one or more intermediaries or are members of the same group, is controlled by, is under the same significant influence, or is under common control with the Bank; and
- post-employment benefit plans for the benefit of the Bank's employees.

The Bank has various transactions with its related parties and with certain directors, officers, stockholders, and related interests (DOSRI). These transactions usually arise from normal banking activities such as lending, borrowing, deposit arrangements and trading of securities, among others. Under existing policies of the Bank, transactions with related parties are made substantially on the same terms as

with other individuals and businesses of comparable risks.

As at March 31, 2023 and December 31, 2022, DOSRI loans of the Bank amounted to P0.2 million and P0.3 million, respectively.

16. Commitments and Contingencies

In the normal course of operations, the Bank makes various commitments, such as guarantees, commitments to extend credit, etc., which are not reflected in the accompanying financial statements. The Bank does not anticipate any material losses as a result of these transactions.

The following is a summary of the Bank's commitments and contingencies at their peso equivalent contractual amounts arising from off-books accounts as at March 31, 2023 and December 31, 2022:

	March 31, 2023 (Unaudited)	December 31, 2022 (Audited)
Contingent assets:		
Future/spot exchange bought	P2,792,317,134	P1,146,547,214
Fixed income securities purchased	50,852,137	5,074,247
Outward bills for collection	-	255,590
	P2,843,169,271	P1,151,877,051
Commitments and contingent liabilities:		
Trust department accounts	P64,904,613,968	70,335,329,532
Unused commercial letters of credit	6,843,136,121	15,638,084,869
Committed credit line	6,720,632,440	7,470,632,437
Outstanding guarantees	3,906,987,522	3,438,552,342
Future/spot exchange sold	3,879,587,000	1,954,996,944
Credit card lines	3,678,640,332	3,601,177,914
Late deposits/payments received	70,357,409	137,803,664
Fixed income securities sold	104,048	5,074,247
Items held for safekeeping/securities held as collateral	46,735	44,835
	P90,004,105,575	P102,581,696,784

The Bank has several loan-related suits, claims and regulatory examinations that remain unsettled or ongoing. It is not practicable to estimate the potential financial impact of these contingencies. However, in the opinion of management, in consultation with its legal counsels, the suits and claims, if decided adversely, will not involve sums having a material effect on the Bank's financial statements.

Other Commitments

No asset is being pledged by the Bank to secure outstanding liabilities as at March 31, 2023 and December 31, 2022.

17. Financial Performance Indicators

Basic earnings per share amounts were computed as follows:

	Three Months Ended March 31 (Unaudited)	
	2023	2022
a. Net income	P712,897,284	P360,593,571
b. Dividends on preferred shares*	41,250,000	34,375,000
c. Net income to equity holders of the Bank	671,647,284	326,218,571
d. Weighted average number of outstanding common shares	1,403,013,920	1,125,528,929
e. Basic earnings per share (c/d)	P0.48	P0.29

* potential dividends on preferred shares as these were not assumed to be converted.

Diluted earnings per share attributable to equity holders of the Bank were computed as follows:

	Three Months Ended March 31 (Unaudited)	
	2023	2022
a. Net income to equity holders of the Bank	P712,897,284	P360,593,571
b. Weighted average number of outstanding common shares and dilutive preferred shares		
Outstanding common shares	1,403,013,920	1,125,528,929
Potential common shares from assumed conversion of preferred shares	416,666,670	416,666,670
c. Total weighted average common shares	1,819,680,590	1,542,195,599
d. Diluted earnings per share (a/c)	P0.39	P0.23

The following basic ratios measure the financial performance of the Bank:

	Three Months Ended March 31 (Unaudited)	
	2023	2022
Return on average equity	10.03%	5.76%
Return on average assets	1.35%	0.71%
Net interest margin on average earning assets	4.22%	3.32%

18. Events after the Reporting Date

On April 25, 2023, the Stockholders approved the amendment of the Articles of Incorporation to increase the Bank's authorized capital stock from P21,575,114,700 (divided into 1,702,511,470 common shares and 455,000,000 preferred shares) to P28,198,773,840 (divided into 2,364,877,384 common shares and 455,000,000 preferred shares).

On the same date, the Stockholders also approved the amendment to the By-laws to (a) change the schedule of the annual stockholders' meeting from April to May, and (b) comply with Section 132 of the MORB, Section 29 and 34 of the Revised Corporation Code and Section 3 of the SEC Memorandum Circular No. 20 series of 2020.

19. Other Matters

Other than the disclosures enumerated above, the Bank has no significant matters to report on the following during the quarter ended March 31, 2023:

- Unusual items because of their nature, size or incidents affecting assets, liabilities, equity, net income or cash flows;
- Any known trends, demands, commitments, events or uncertainties that will have a material impact on liquidity and on sales/revenues from continuing operations;
- Explanatory comments about seasonality or cyclicity of interim operations;
- Issuances, repurchases, and repayments of debt securities; and
- Any material commitments for capital expenditures.

MANAGEMENT DISCUSSION AND ANALYSIS

Statement of Condition as of 31 March 2023 vs. 31 December 2022

BankCom's Total Assets stood at ₱206.42 billion as of 31 March 2023, 5.10% or ₱11.10 billion lower compared to ₱217.52 billion reported as of 31 December 2022. Significant asset movements were recorded in the following accounts:

Cash and Other Cash Items declined by 13.56% to ₱2.36 billion. Due from BSP decreased by 12.21% to ₱20.79 billion from ₱23.68 billion on account of lower term deposit facility (TDF) placements. Due from Other Banks amounting to ₱963.52 million, likewise declined by 7.73% from ₱1.04 billion due to lower placements with both local and foreign banks.

Financial assets (Financial Assets at Fair Value through Profit or Loss, Financial Assets at Fair Value through Other Comprehensive Income, and Investments Securities at Amortized Cost), accounting 26.38% of the total assets, decreased by 7% or ₱3.95 billion to ₱54.45 billion from ₱58.39 billion. This is mainly due to the ₱5.88 billion lower investments at amortized cost amounting to ₱46.33 billion from ₱52.21 billion.

Loans and Other Receivables however increased by ₱1.39 billion to ₱106.48 billion from ₱105.09 billion mainly driven by higher volume of corporate loans. Conversely, Interbank loans receivable declined to ₱13.10 billion, 28.7% or ₱5.27 billion down from the ₱18.38 billion.

Property and Equipment and Other Assets increased by 1.08% to ₱1.44 billion and 4.01% to ₱2.83 billion, respectively, from ₱1.43 billion and ₱2.72 billion. On the other hand, Investment Properties down by 1.42% to ₱3.35 billion from ₱3.40 billion. Investment in Associate likewise declined by 8.85% to ₱36 million.

Total liabilities declined to ₱177.56 billion as of 31 March 2023, 6.29% lower than the ₱189.49 billion as of 31 December 2022, mainly due to the decrease in deposit liabilities.

Deposit liabilities, representing almost 80% of the Bank's Total Liabilities, went down by 6.89% to ₱164.12 billion from ₱176.27 billion on account of the decline in savings and time deposit volumes by 12.61% and 10.64%, respectively, to ₱88.83 billion and ₱15.90 billion. Oppositely, demand deposit level grew by 4.95% to ₱54.36 billion.

Manager's Checks increased by more than 2x to ₱1.65 billion due to higher volume of corporate transactions. Financial Liabilities at FVPL and Accrued Interest, Taxes and Other Expenses also rose by 72.42% and 5.63%, respectively, to ₱0.49 million and ₱1.23 billion. Meanwhile Other Liabilities decreased by 21.31% to ₱3.11 billion from ₱3.95 billion.

The Bank's total capital base grew by 2.95% to ₱28.86 billion as of 31 March 2023 from ₱28.03 billion as of 31 December 2022 due to higher retained earnings for the current period.

Statement of Income for the period ended 31 March 2023 vs 31 March 2022

For the quarter ended 31 March 2023, BankCom recorded a Net Income of ₱712.90 million, almost 2x the ₱360.6 million in the comparable period last year, breaching full-year pre-pandemic performances. This remarkable throughput is mainly driven by higher interest income, fees and commissions and foreign exchange gains.

Interest income on loans and receivables, representing 82.85% of the total revenue, surged by 71.13% to ₱1.88 billion mainly attributable to augmented volume of corporate loans. Interest income on

investment securities at fair value through other comprehensive income (FVOCI) and at amortized cost also grew by 36.40% to ₱516.11 million from ₱378.37 million last year.

Interest income on Financial Assets at fair value through profit or loss (FVTPL) and interest on interbank loans receivable and SPURA rose 1.53x and 2.83x, respectively, to ₱4.0 million and ₱218.27 million.

Total interest expense increased to ₱738.91 million from ₱194.88 million last year. This was mainly due to the issuance of Bonds in the 2nd half of 2022 amounting to ₱103.06 million as of 31 March 2023 and nil in the same period in 2022. Interest expense on deposit liabilities increased by ₱457.54 million to ₱628.82 million due to increasing interest rate environment.

On the other hand, interest expense on bills payable and interest expense on lease liabilities, dropped by 5.75% and 99.36%, respectively, to ₱6.93 million and ₱0.10 million.

The bank was still able to manage the rising interest rate environment as its Net Interest Income amounted to ₱1.93 billion, up 31.61% from ₱1.47 billion in the previous year.

Total other income surged to ₱340.98 million, 25.47% more than the previous year. The growth was primarily driven by the growth in service charges, fees and commissions reaching ₱224.59 million, up 41.17% from the ₱159.09 million bolstered by the solid growth in Trust, Credit Card, Trade Finance and Investment Banking fees.

Foreign exchange gains also rose to ₱43.96 million, 3.21% higher than the ₱42.59 million in the comparable period last year. Moreover, miscellaneous income grew by 17.03% to ₱16.57 million against the ₱14.16 million in 2022 mainly from income on recovery on charged-off asset.

Total expenses, excluding provision for credit and impairment losses increased by 9.49% to ₱1.36 billion. Compensation and fringe benefits went up by 4.45% to ₱457.9 billion. Taxes and licenses also grew by 5.44% to ₱254.03 million fueled by greater business volume. Rent and utilities also increased to ₱156.03 million, up 17.29% from ₱133.03 million on account of higher security, power, light and water cost.

Depreciation and amortization increased by 3.05% to ₱109.38 million primarily from higher depreciation expense from foreclosed assets. On the other hand, insurance declined by 1.57% to ₱85.03 million due to lower PDIC insurance on deposits.

Spending on service fees and commissions along with subscription fees rose by 36.44% and 186.57%, respectively, to ₱65.16 million and ₱58.93 million due to higher IT fees, commissions and subscriptions.

Management and professional fees also declined by 0.94% to ₱33.78 million. Meanwhile, amortization of software costs and miscellaneous expenses both increased by 9.69% and 4.40% to ₱16.45 million and ₱108.63 million, respectively.

The Bank booked a reversal of Provision for credit and impairment losses amounting to ₱39.64 million for the period ended 31 March 2023 reflecting the continuing improvement in the credit quality of the Bank's portfolio.

The Bank recorded its share in the net loss of associate at ₱0.30 million for the period ended 31 March 2023, higher than last year's ₱0.25 million.

Income Tax expense amounted to ₱235.61 million, higher than the ₱132.65 million in the same period last year mainly due to the higher income.
