

NOTICE OF ANNUAL STOCKHOLDERS' MEETING

May 5, 2025

The Annual Meeting of the Stockholders of Bank of Commerce (the Bank) will be held on Tuesday, May 27, 2025 at 2:00 P.M. As permitted by its By-laws, the Bank will conduct the annual meeting via remote communication using Pro Version License Zoom Application and livestreaming as authorized by the Board of Directors on March 25, 2025.

The Agenda of the Meeting is as follows:

1. Call to Order
2. Certification of Notice and Quorum
3. Approval of the Minutes of Annual Stockholders' Meeting held on 30 April 2024
4. Presentation of the Annual Report
5. Ratification of Acts and Proceedings of the Board of Directors and Corporate Officers
6. Confirmation of Bank's Significant Transactions with its DOSRI and Related Parties
7. Approval of 2024 Performance Bonus for the Directors
8. Election of the Board of Directors
9. Appointment of External Auditor
10. Adjournment

Stockholders who would like to attend the meeting must advise the Bank on or before Wednesday, May 21, 2025, by sending the following information to stockholders@bankcom.com.ph: (1) Name; (2) E- mail address; (3) Contact number; (4) Postal address; and (5) scanned copy of any valid government-issued ID with photo of the stockholder, to obtain the link for the 2025 Annual Stockholders' Meeting.

Stockholders may visit the Bank's website at <https://www.bankcom.com.ph/disclosure> to download copies of (a) the Minutes of the Annual Stockholders' Meeting held on 30 April 2024 and (b) the proxy form/ballot.

Electronic copies of the Information Statement and Management Report shall be available on the Company's website and the PSE Edge.

Ballots and proxies may be submitted via email to stockholders@bankcom.com.ph, which submission shall be duly acknowledged and validated by the Bank's stock transfer agent, SMC Stock Transfer Service Corporation. For an individual, the submission must be accompanied by a copy of a government-issued ID with photo, as proof of identification. For a corporation, the submission must be accompanied by a certification from its Corporate Secretary stating the corporate officer's authority to represent the corporation in the meeting. In case of an event that restricts the movement of persons and makes submission of the originally signed ballots, proxies, and notarized Secretary's Certificate difficult, these documents shall be submitted to the SMC Stock Transfer Service Corporation within a reasonable time after the Annual Stockholders' Meeting.

During the meeting, the Bank shall entertain questions and comments from the stockholders after the presentation of the Annual Report. Questions and comments must be submitted either in advance by email to stockholders@bankcom.com.ph or during the meeting by posting the questions and comments in the feedback box that will be made available. Priority will be given to questions sent in advance. Questions which are not answered during the meeting shall be forwarded to the Office of the Corporate Secretary for the appropriate response.

The deadline for submission of the proxy and ballot is on May 21, 2025. Validation of proxies and ballots will be on May 22, 2025 at 10:00AM at the SMC Stock Transfer Service Corporation Office, 2nd Floor, SMC Head Office Complex, No. 40 San Miguel Ave., Mandaluyong City, Philippines. Only stockholders who have notified the Bank of their intention to participate through remote communication as above described and have been validated by the Office of the Corporate Secretary to be stockholders of record of the Bank as of May 7, 2025 will be considered in computing stockholder attendance at the meeting together with the stockholders attending through proxies.

EVITA C. CABALLA
Corporate Secretary

INFORMATION STATEMENT

A. GENERAL INFORMATION

Date, Time, and Place of Annual **Stockholders'** Meeting

The annual stockholders' meeting of Bank of Commerce (the "Bank" or "BankCom") will be held on May 27, 2025 at 2:00 p.m. via remote communication or virtually. The complete mailing address of the principal office of the Bank is San Miguel Properties Centre (SMPC), No. 7 St. Francis Street, Mandaluyong City 1550, Metro Manila, Philippines.

The Information Statement and proxy form are first to be sent to the security holders approximately on May 5, 2025. The Information Statement together with its attachments shall be available at the Bank's website, and the PSE Edge Portal. The Notice of the Meeting shall be published in the business section of two (2) newspapers of general circulation, in print and online format, for two (2) consecutive days.

YOU ARE NOT REQUESTED TO SEND US A PROXY.

The Bank will not hold a physical meeting and will instead conduct the meeting virtually, as authorized by the resolution of the Board of Directors on March 25, 2025.

Ballots and proxies may be submitted via email to stockholders@bankcom.com.ph, which submission shall be duly acknowledged and validated by the Bank's stock transfer agent, SMC Stock Transfer Service Corporation. For an individual, the submission must be accompanied by a copy of a government-issued ID with photo, as proof of identification. For a corporation, the submission must be accompanied by a certification from its Corporate Secretary stating the corporate officer's authority to represent the corporation in the meeting. In case of an event that restricts the movement of persons and makes submission of the originally signed ballots, proxies, and notarized Secretary's Certificate difficult, these documents shall be submitted to the SMC Stock Transfer Service Corporation within a reasonable time after the Annual Stockholders' Meeting.

The deadline for submission of the proxy and ballot is on May 21, 2025. Validation of proxies and ballots will be on May 22, 2025 at 10:00AM at the SMC Stock Transfer Service Corporation Office, 2nd Floor, SMC Head Office Complex, No. 40 San Miguel Ave., Mandaluyong City, Philippines. Only stockholders who have notified the Bank of their intention to participate through remote communication as above described and have been validated by the Office of the Corporate Secretary to be stockholders of record of the Bank as of May 7, 2025 will be considered in computing stockholder attendance at the meeting together with the stockholders attending through proxies.

Revocability of Proxies

A proxy may be revoked by the stockholder either in an instrument in writing duly presented and recorded with the Corporate Secretary, prior to the scheduled meeting, or by the personal presence of the stockholder at the meeting.

Dissenters' Right of Appraisal

Under Title X of the Revised Corporation Code, stockholders dissenting from and voting against the proposed corporate action specified in Section 80 of the Revised Corporation Code, may, within thirty (30) days, from the date on which the vote was taken, exercise the right of appraisal by making a written demand on the Bank for payment of the fair value of their shares as of the day prior to the date on which the vote was taken for such corporate action. These specific corporate actions are as follows: (a) amendment to the corporation's Articles of Incorporation and By-laws which has the effect of (i) changing and restricting the rights of any shareholder or class of shares, (ii) authorizing preferences in any respect superior to those of outstanding shares of any class, or (iii) extending or shortening of term of corporate existence; (b) sale, lease, mortgage or other disposition of all or substantially all of the corporation's assets; (c) merger or consolidation; and (d) investment of corporate funds in another corporation or business or for any purpose other than its primary purpose. The proposed amendment of the Articles of Incorporation and By-Laws of the Bank are not corporate matters or actions that will entitle dissenting stockholders to exercise their right of appraisal as provided by Title X of the Revised Corporation Code.

SOLICITATION INFORMATION

The Bank is not soliciting proxies. A proxy form is provided to the stockholders of the Bank and included in this Information Statement.

Interest of Certain Persons in Matters to be Acted Upon

No director, nominee for election as director, associate of the nominee or executive officer of the Bank at any time since the beginning of the last fiscal year has had any substantial interest, direct or indirect, by security holdings or otherwise, in any of the matters to be acted upon in the meeting, other than election to office. None of the incumbent directors has informed the Bank in writing of the intention to oppose any action to be taken by the Bank at the meeting.

B. CONTROL AND COMPENSATION INFORMATION

Voting Securities and Principal Holders Thereof

As of March 31, 2025, the Bank has the following outstanding shares of stock:

| <u>Title of Each Class</u> | <u>Number of Shares of Common and Preferred Stock Outstanding as of March 31, 2025</u> |
|----------------------------|--|
| Common Shares | 1,403,013,920 |
| Preferred Shares | 416,666,670 ⁵ |
| TOTAL Outstanding Shares | 1,819,680,590 |

As of March 31, 2025, the following is the foreign ownership of the shares of stock of the Bank:

| Share Class | Foreign Shares | % of Foreign Ownership | Local Shares/ Shares held by Filipinos | % of Filipino Ownership | Total Shares Outstanding |
|-------------|----------------|------------------------|--|-------------------------|--------------------------|
| Common | 156,611,826 | 11.16% | 1,246,402,094 | 88.84% | 1,403,013,920 |
| Preferred | 0 | 0% | 416,666,670 | 100% | 416,666,670 |
| TOTAL | 156,611,826 | 8.61% | 1,663,068,764 | 91.39% | 1,819,680,590 |

Common stockholders have the right to vote on all matters requiring stockholders' approval. The holders of the Preferred Shares shall not be entitled to vote except in matters provided for in the Revised Corporation Code: amendment of Articles of Incorporation; adoption and amendment of By-laws; sale, lease exchange, mortgage, pledge, or other disposition of all or substantially all of the corporate property; incurring, creating or increasing bonded indebtedness; increase or decrease of capital stock; merger or consolidation with another corporation or other corporations; investment of corporate funds in another corporation or business; and dissolution.

A stockholder entitled to vote at the meeting has the right to vote in person or by proxy. Only stockholders of record at the close of business on May 7, 2025 will be entitled to vote at the meeting. With respect to the election of directors, in accordance with Section 23, Title III of the Revised Corporation Code of the Philippines, a stockholder may vote the number of common shares held in his name in the Bank's **stock books as of May 7, 2025**, and may vote such number of common shares for as many persons as there are directors to be elected or he may cumulate said common shares and give one candidate as many votes as the number of directors to be elected, multiplied by the number of his common shares shall equal, or he may distribute them on the same principle among as many candidates as he shall see fit; provided, that the total number of votes cast by him shall not exceed the number of common shares owned by him as shown in the books of the Bank multiplied by the total number of directors to be elected.

The total number of votes that may be cast by a stockholder of the Bank is computed as follows: number of common shares held on record as of record date multiplied by 15 directors.

⁵ The Bank's outstanding preferred shares are not listed nor registered in the Exchange.

The deadline for submission of proxies is on May 21, 2025. Validation of proxies will be on May 22, 2025 at 10:00 a.m. at the SMC Stock Transfer Service Corporation Office, 2nd Floor, SMC Head Office Complex, No. 40 San Miguel Avenue, Mandaluyong City, Philippines.

Leonardo J. Matignas, Jr., CPA, CFE, CIA, CRMA, MM, FCPA Australia
Independent Director
Filipino, 63 years old

Mr. Leonardo J. Matignas, Jr. is a former Partner of SGV & Co. (a member practice of Ernst & Young) and its former Chief Risk Officer. He retired on June 30, 2022. He was also Ernst & Young's ASEAN Risk Management Leader until his retirement last June. He is a multi-awarded and internationally recognized authority on Enterprise Risk Management (ERM). Aside from being a Philippine CPA, he also holds a Fellow CPA Australia (FCPA) title which is the highest rank in CPA Australia and is recognized globally. He is also a Certified Internal

Auditor (CIA), Certified Fraud Examiner (CFE), and has Certification in Risk Management Assurance (CRMA)--all of which are global certifications.

Over the course of his 40-year career, he had started service lines that paved the way for CPAs to venture into other avenues such as forensic accounting, risk-based auditing, and in risk management, either as a risk owner or risk champion. He was also very **instrumental in SGV's accreditation by the Securities and Exchange Commission** as an institutional training provider for Corporate Governance, for which he was the lead lecturer.

Leo holds a Bachelor of Science degree in Commerce, Magna Cum Laude, from San Sebastian College and completed his Masters in Management Degree- International from the University of Phoenix. He is a Certified Public Accountant and has also completed Management Development Program at the Asian Institute of Management. In 2021, he completed an executive program, "Journey to the Boardroom" conducted by the Harvard Business Publishing Corporate Learning in collaboration with Ernst & Young.

Last May 31, 2024, Leo was conferred with *Honoris Causa Doctorate Award (Ph.D.) in Accountancy* by the *Doctoral Monitoring Board of The Thames International University-France*, based on his experience, achievements, contribution towards nation and society. The University in association with the Global Human Rights Council for Peace & Sustainable Development-USA also honored him with *Indo Global Excellence Award*.

His recognitions and awards include the following:

- One of the Top 100 notable CPAs in the 100 years in the history of the Philippine Accountancy Profession conferred by the Professional Regulation of the Board of Accountancy in celebration of its centennial anniversary. The award was given last March 17, 2023 at the Manila Hotel.

All the nominees for election to the Board of Directors satisfy the mandatory requirements specified under the provisions of Section 1, Article III of the Bank's By-laws.

Significant Employees

The Bank has no employee who is not an executive officer but who is expected to make a significant contribution to the business.

Family Relationships

Mr. Roberto C. Benares, Director and former President of the Bank, is related within the third civil degree of affinity to Mr. Jose T. Pardo, Advisor to the Board of Directors. **Mr. Benares is married to Mr. Pardo's niece.**

Other than as disclosed above, there are no other family relationships among the directors or senior executives, either by consanguinity or affinity.

Involvement in Legal Proceedings

To the best of its knowledge, the Bank is not aware of any of the following events having occurred during the past five (5) years up to the date of this Preliminary Information Statement that are material to an evaluation of the ability or integrity of any Director, nominee for election as Director or Senior Executive of the Bank:

- a. any bankruptcy petition filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time;
- b. any conviction by final judgment, including the nature of the offence, in a criminal proceeding, domestic or foreign, or being subject to a pending criminal proceeding, domestic or foreign, excluding traffic violations and other minor offenses;
- c. being subject to any order, judgment or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, domestic or foreign, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities, commodities or banking activities;
- d. being found by a domestic or foreign court of competent jurisdiction (in a civil action), the Securities and Exchange Commission or comparable foreign body, or a domestic or foreign exchange or other organized trading market or self-regulatory organization, to have violated a securities or commodities law or regulation, and the judgment has not been reversed, suspended or vacated.

Certain Relationships and Related Transactions

The Bank has various transactions with its related parties and with certain directors, officers, stockholders, and related interests (DOSRI). | Net Income (in Php Millions) | 3,025 | 2,802 | 1,800 |
| % Growth | 7.95% | 55.67% | 49.18% |

In 2022, BankCom capped this banner year with a net income of ₱1.80 billion, wherein it successfully raised ₱3.37 billion of common stock capital through an IPO, was listed in the Philippine Stock Exchange, raised its maiden issuance of ₱7.50 billion bonds, and was officially conferred a universal banking license. The net income was 1.5x the previous year's profit of ₱1.21 billion. Total assets amounted to ₱217.52 billion, 8.92% higher versus end-2021.

In 2023, the net income increased 55.67% to ₱2.80 billion, backed by growth in its core lending business and service charges, fees, and commission. Return on equity stood at 9.52%, marking an improvement from the 7.01% in the previous year, and more than double the Bank's IPO prospectus ROE of 4.22%. Total assets reached ₱230.67 billion, reflecting an 8.92% growth year-on-year.

In 2024, BankCom's net profit soared to ₱3.03 billion, up 7.95% from last year, due to the expansion in corporate loans and program lending mainly to SMC ecosystem clients, as well as higher earning assets. Total assets stood at ₱265.44 billion, 14.58% higher than end-2023's ₱231.67 billion.

As of 31 December 2024, the Bank's Tier 1 and total capital adequacy ratio of 16.81% and 17.58%, remained well above the minimum regulatory requirement of 7.5% and 10.0%, respectively.

For the year ended 31 December 2024, the Bank's return on average assets and cost-to-income ratios were 1.22% and 62.04%, respectively.

The Bank's net loans increased by 24.59% to ₱136.51 billion in 2024, from ₱109.57 billion, driven by expansion across all segments of lending. Net NPL ratio was at 0.49%, reflecting the Banks prudent approach.

For the year ending December 31, 2024, Bank of Commerce posted a net income of ₱3.02 billion, reflecting a 7.95% increase from the ₱2.80 billion in the same period in 2023. The expansion outpaced the previous year's, highlighting steady growth in the bank's core business, primarily the widened range of corporate loans, program lending mainly to SMC ecosystem clients, as well as higher earning assets.

This achievement shows BankCom's strong commitment to performance, excellence, and continuously improving customer service. It reflects the dedication of its Board and management to becoming the top conglomerate bank in the country.

Additionally, effective cost management and disciplined risk control contributed to the positive financial performance.

Interest income on loans and receivables, representing 87.66% of the total revenue, grew by 14.36% to **₱9.43** billion, boosted by the extended high interest rate regime and increase in loan volume, mainly corporate loans.

Interest income on investment securities at fair value through other comprehensive income (FVOCI) and at amortized cost grew by 19.54% to **₱2.69** billion from **₱2.25** billion in the previous year. Interest income on Financial Assets at fair value through profit or loss (FVTPL) posted **₱126.91** million, more than 5x than last year's **₱21.56** million, in light of the significant gains coming from the Bank's various investments and treasury notes. This reflects the proper execution of Bank's strategy to capture market opportunities.

Interest income from Bangko Sentral ng Pilipinas and other banks also increased by 1.75% to **₱379.44** million from **₱372.91** million last year due to higher yields. However, interest on interbank loans receivable and SPURA declined by 38.10% to **₱542.05** million from **₱875.71** million in the previous year.

Total interest expense increased to **₱4.05** billion, up 16.93% from **₱3.47** billion last year due to the increase in deposit volume and an extended high-interest rate environment. This increase composed of the following: 16.64% increase in interest expense on deposit liabilities to **₱3.47** billion due to higher cost of funds; 19.35% increase in interest expense on lease liabilities amounting to **₱39.17** million from **₱32.82** million; and an increase in the interest expense on bonds payable by 29.04% to **₱532.93** million from **₱412.99** million. However, Interest expense on bills payable was down by 69.18% to **₱15.13** million from **₱49.10** million.

As the Bank's interest income outpaced the growth of interest expense, it posted a net interest income of **₱9.11** billion, 9.82% higher than **₱8.30** billion in the previous year, translating to a net interest margin (NIM) of 4.17%.

Total other income amounted to **₱1.65** billion, slightly declined by 1.99% than the previous year's **₱1.68** billion, attributable to the fluctuations in trading and investment securities gains but was partially offset by the increase in service charges, fees and commissions.

Trading and securities gain amounted to (**₱1.04**) million, a reversal of last year's **₱10.60** million gains. Foreign exchange gains posted **₱127.62** million, 9.57% down from the **₱141.12** million last year. The downtrend in trading and securities and foreign exchange gains resulted from volatile market conditions.

On the other hand, service charges, fees and commissions rose by 21.25% to **₱1.07** billion from **₱886.38** million. This notable increase was propelled by the influx of underwriting fees amounting to **₱292.68** million, almost 2x the fees generated last year. Furthermore, the Bank also saw an increase in trust, cards, and trade finance fees.

Gains on foreclosure, and sale of property and equipment and foreclosed assets registered a decline of 31.06% to **₱341.53** million due to lower foreclosure related revenues. Moreover, miscellaneous income also dropped by 29.39% to **₱102.58** million from **₱145.28** million in comparable period last year due to the decrease in recoveries on charged-off assets and lower dividend income.

Total expenses, including provisions for credit and impairment losses, was up by 9.21% to **₱6.81** billion. The growth in operating expenses was mainly due to the Bank's continued investment in human capital, information technology infrastructure and higher volume of transactions.

Compensation and fringe benefits increased by 16.76% to **₱2.64** billion, driven by strategic hirings and an improved retention program which led to an increase in compensation cost while at the same time reducing attrition levels.

Taxes and licenses moderately increased by 2.97% to **₱1.09** billion driven by larger business volume. Rent and utilities decreased by 3.86% to **₱622.70** million from **₱647.70** million on account of the bank's cost saving initiatives on power, light, and water, as well as repairs and maintenance.

Depreciation and amortization grew by 27.34% to **₱623.17** million, primarily due to higher depreciation expenses from computer equipment and foreclosed properties held by the bank. Amortization of software costs also rose by 24.57% to **₱95.60** million, reflecting the bank's ongoing investment in technology.

Insurance went up by 11.27% to ₱383.99 million, attributed to higher PDIC insurance on deposits. Expenditure on service fees and commissions also rose by 18.47% to ₱495.12 million from ₱417.92 million. Subscription fees substantially went down by 43.56% to ₱106.36 million from ₱188.45 million on account of divesting various IT related subscription services.

Management and professional fees dropped by 30.50% to ₱97.91 million. Miscellaneous expense slightly dropped by 4.18% to ₱498.09 million from ₱519.79 million. On the other hand, entertainment and recreation increased to ₱19.37 million, 59.51% higher than last year's ₱12.14 million.

The Bank maintained a prudent approach in strengthening its balance sheet by setting aside ₱139.41 million as additional provision for credit and impairment losses, in-line with its existing risk appetite. This allocation represents a 76.82% increase from the previous year.

The Bank's share in the net loss of associate was recorded at ₱0.61 million for the period, compared to ₱0.78 million in 2023.

Income Tax expense amounted to ₱917.77 million, down by 1.73% from the ₱933.89 million in the same period in 2023.

Statement of Comprehensive Income for the Year Ended December 31, 2024 vs December 31, 2023

The Bank posted a total comprehensive income of ₱3.03 billion for 2024, 7.55% higher than ₱2.82 billion posted in the same period a year ago. This was primarily driven by the higher net income in 2024 which is partially offset by the net change in net unrealized losses of debt securities at FVOCI at ₱57.70 million. Remeasurement losses on defined benefit plan increased to ₱34.05 million based on actuarial adjustments.

The Bank's total assets totaled at ₱265.44 billion as of 31 December 2024, up by 14.58% from the ₱231.67 billion as of 31 December 2023 mainly driven by the growth in all lending segments and financial assets at fair value. This translated to a return on assets (ROA) of 1.22%.

Asset movements are as follows:

Cash and other cash items increased by 21.24% amounting to **₱4.24** billion. Due from BSP surged by 97.40% to **₱47.91** billion from **₱24.27** billion last year due to an increase in overnight deposit facility (ODF) placements. Due from other banks also significantly grew more than 3x to **₱3.82** billion from **₱1.06** billion due to significant placements with foreign banks.

Interbank loans receivables, however, declined by **₱16.52** billion to **₱3.59** billion from the **₱20.11** billion to support loan growth.

Financial assets at fair value through profit or loss (FVPL) and financial assets at fair value through other comprehensive income (FVOCI), significantly increased to **₱2.88** billion and **₱19.08** billion, respectively, from **₱398.79** million and **₱11.04** billion, attributable to additional purchases. However, investment securities at amortized cost declined to **₱36.61** billion or 30.23% from **₱52.47** billion due to redeployment of matured government securities to loans.

Loans and other receivables, comprising more than 51% of the total assets, posted **₱136.51** billion, 24.59% higher than the **₱109.57** billion last year driven by the expansive growth in the lending business. The robust loan growth resulted in a loan-to-deposit ratio of 64%.

Property & Equipment expanded to **₱2** billion, up 11.66% from **₱1.79** billion due to additional purchase of office equipment, computer, and furniture and fixtures. Investment properties also went up by 8.61% to **₱3.99** billion from **₱3.68** billion due to the increase in real and other properties acquired (ROPA) and accumulated gains. Meanwhile, Investment in Associate decreased by 3.10% to **₱34.43** million.

Deferred tax assets, dropped by 5.96% to **₱447.02** million from **₱475.33** million. On the other hand, other assets substantially increased by 32.41% to **₱4.33** billion from **₱3.27** billion due to an increase in booking of prepaid expenses and miscellaneous assets.

Total liabilities increased to **₱232.21** billion as of 31 December 2024, 15.63% up from the **₱200.82** billion as of 31 December 2023 primarily due to rebound in deposit.

Deposit liabilities, accounting for more than 90% of the Bank's total liabilities, increased by 14.04% or **₱26.10** billion, to **₱212.01** billion from **₱185.91** billion as of 31 December 2023. This is a milestone for breaching the **₱200** billion mark. The increase can be attributed to the success of the bank's promotional strategies and the launch of various targeted marketing initiatives. In 2025 the Bank plans to continue this with its "Accelerate Your Savings" promo Part 2.

Broken down, total deposits comprised **₱189.06** billion current account and savings account (CASA), 15.12% higher than last year's **₱164.24** billion; **₱17.92** billion time deposits, 7.68% up from **₱16.64** billion in 2023; and **₱5.03** billion long-term negotiable certificates of deposit.

Financial liabilities at FVPL surged by more than 7x to **₱45.21** million owing to foreign exchange derivatives revaluations.

Bonds payable was down by 12.62% to **₱6.53** billion due to the maturity of the **₱7.50** billion 2-year bonds last July 29, 2024. However, this was partially offset by the **₱6.57** billion bond offering last May 9, 2024.

Manager's checks decreased by 23.42% to **₱1.41** billion due to decrease in stale checks. Accrued interest, taxes & other expenses also declined by 20.83% to **₱1.10** billion. Meanwhile, other liabilities significantly increased by 164.96% to **₱11.11** billion from **₱4.19** billion due to the increase in lease liability and accounts payable for the period.

The Bank's total capital funds remained strong at **₱33.23** billion as of 31 December 2024, 7.71% more than the **₱30.85** billion a year ago, despite the payment of dividends on July 15, 2024. The Bank paid **₱0.2512** per common share amounting to **₱352.44** million. The increase in capital was driven by the remarkable performance of the bank and ploughed back earnings.

Key performance indicators of the bank are as follows:

| | 2024 | 2023 |
|--------------------------|-------|-------|
| Return on Average Assets | 1.22% | 1.25% |
| Return on Average Equity | 9.44% | 9.52% |

For the year ending December 31, 2023, Bank of Commerce posted a net income of **₱2.80 billion**, 55.67% higher than the **₱1.80 billion** in the same period in 2022. The growth was backed by growth in core lending business, service charges, fees, and commissions, and gains on foreclosure and sale of property and equipment and foreclosed assets.

Net interest income increased by 24.16% to **₱8.30 billion**, from **₱6.68 billion** in the previous year. Interest income on loans and receivables amounted to **₱8.24 billion**, **₱2.78 billion** higher than the **₱5.47 billion** the prior year. Interest income on loans benefitted from the high interest rate environment and volume growth. Interest income on investment securities and financial assets grew by 34.56% to **₱2.27 billion** owing increase in securities. Interest income on interbank loans receivable and securities purchased under resale agreements rose to **₱875.71 million**, almost 2x the **₱539.16 million**. Interest income on due from BSP and other banks also grew by 35.67% to **₱372.91 million** from the **₱274.86 million**.

Interest expense totaled **₱3.47 billion**, 2.7x the **₱1.28 billion** in the same period last year on account of higher cost of funds as interest expense on deposit liabilities increased by **₱1.94 billion** to **₱2.97 billion**. Interest on bonds payable increased more than 2x to **₱412.99 million** due to the maiden issuance of **₱7.5 billion** 2-year bonds. Meanwhile interest expense on bills payable and lease liabilities also grew by 4.37% and 16.46%, respectively, to **₱49.10 million** and **₱32.82 million** from obtaining deposit substitutes.

Net interest income rose by 24.16% to **₱8.30 billion**, up from end-2022's **₱6.68 billion** as interest income outpaced the growth in interest expenses. This translated to a net interest margin ratio of 4.28%, higher than the previous year's 3.73%.

Total other income rose to **₱1.68 billion**, 17.04% or **₱244.41 million** greater than **₱1.43 billion** last year. Service charges, fees and commissions grew by **₱28.75 million** to **₱886.38 million**, owing to the investment banking, credit card and trust. Trading and investment securities gains posted **₱10.60 million**, recovering **₱39.82 million** from the loss sustained last year. Foreign exchange gains, slowed down by 6.12% to **₱141.12 million**, from the prior year's **₱150.32 million**. Gains on foreclosure, and sale of property and equipment and foreclosed assets increased to **₱495.40 million**, 45.51% up from **₱340.45 million** on the back of 4.3x rise in foreclosure related revenues. Miscellaneous income picked up by 26.13% to **₱145.28 million** due to higher recovery on charged-off assets.

Total expenses, excluding provision for credit and impairment losses, was up by 12.32% to **₱6.16 billion**. Compensation and fringe benefits increased to **₱2.26 billion**, 18.56% higher than **₱1.90 billion** mainly due to the 111 (from 1,865 in 2022) additional manpower. Taxes and licenses increased by 12.23% to **₱1.06 billion** mainly due to growth in revenues. Rent and utilities increased by **₱16.15 million** to **₱647.70 million** owing to the rise in security, repairs and maintenance, power, light and water expenses. Depreciation and amortization grew by 13.37% to **₱489.38 million** due to higher depreciation expense on foreclosed assets and computer equipment. Service fees and commissions increased by 42.48% to **₱417.92 million** due to higher commissions and other transaction fees. Subscriptions also grew 1.5x to **₱188.45 million** driven by higher IT related subscriptions. Management and professional fees went up by 29.76% to **₱140.88**, while Amortization of Software costs increased modestly by 5.03% to **₱76.74 million**.

On the other hand, insurance registered a 0.94% drop to **₱345.08 million** on the back of lower PDIC insurance on peso deposits. Entertainment and recreation expenses likewise declined by 84.07% to **₱12.14 million** as the Bank focused on business related entertainment and recreation expense savings to offset increased spending on ATMs/Computer equipment, IT software, and employee compensation. Miscellaneous expenses declined by 4.90% to **₱519.79 million** from **₱546.58 million** on account of lower legal expenses.

Provisions for credit and impairment losses amounted to **₱78.85 million**, substantially lower than last year's **₱166.21 million**, reflecting strength in asset quality due to the Bank's focused risk appetite.

The Bank's share in the net loss of associate is at **₱0.78 million** in 2023, almost 6x the **₱0.13 million** last year.

Income Tax Expense posted **₱933.89 million**, 40.15% up from the **₱666.36 million** in 2022.

Statement of Comprehensive Income for the Year Ended December 31, 2023 vs December 31, 2022

The Bank posted a Total Comprehensive Income of ₱2.82 billion, 2x the ₱1.41 billion recorded in 2022. The increase resulted from higher profit in 2023 and net change in net unrealized losses of debt securities at FVOCI amounting to ₱308.41million owing to the high interest rate environment.

The Bank's total assets at end-2023 grew by 6.51% or ₱14.15 billion to ₱231.67 billion, primarily driven by the expansion in loans and other receivables, investment securities as well as interbank loans receivables.

Loans and receivables-net, accounting for almost 50% of total assets, rose by ₱4.47 billion to ₱109.57 billion mainly driven by the increase in corporate loans. The Bank's loan-to-deposit ratio was recorded at 69.67%.

Investment securities also grew by 9.45% to ₱63.91 billion, from ₱58.39 billion on the back of growths in financial assets at fair value through other comprehensive income and investment securities at amortized cost.

Interbank loans receivable amounted to ₱20.11 billion, 9.43% higher than ₱18.38 billion at end-2022. Cash and other cash items increased by 27.99% to ₱3.50 billion. Due from Bangko Sentral ng Pilipinas (BSP) and other banks reached ₱25.33 billion, up by 2.46% from last year's ₱24.72 billion.

Property and equipment and investment properties grew by ₱365.78 million and ₱276.14 million, respectively, to ₱1.79 billion and ₱3.68 billion. The increases were due to new ATMs and additional office equipment, such as, but not limited to, computers. Moreover, other assets posted ₱3.27 billion, 20.18% more than the ₱2.72 billion last year, on account on higher prepaid tax.

On the other hand, investment in associate and deferred tax assets registered 10.09% and 22.34% declines to ₱35.53 million and ₱475.33 million, respectively.

Deposit liabilities, comprising 80.25% of the total assets, increased by 5.47% to ₱185.91 billion supported by the 7.03%, expansion in deposits coming from demand and savings accounts; but was softened by the 6.49% decrease in time deposits. Bonds payable remained at ₱7.48 billion. Accrued interest, taxes and other expenses and manager's checks both increased by ₱221.42 million and ₱1.19 billion, respectively, to ₱1.39 billion and ₱1.85 billion. Other liabilities, meanwhile, rose by ₱242.85 million to ₱4.19 billion at end-2023.

The Bank's capital base was at ₱30.85 billion as of December 31, 2023, 10.06% higher than the ₱28.03 billion in the previous year, boosted by the better than expected net income as of end-2023.

For the year ending December 31, 2022, Bank of Commerce posted a net income of ₱1.80 billion, 49.18% increase from the ₱1.21 billion for the same period last year. The growth was primarily driven by higher net interest income, service charges, fees, and commissions, foreign exchange and gains on foreclosure and sale of property and equipment and foreclosed assets.

Total interest income amounted to ₱7.97 billion, 30.69% up from ₱6.10 billion last year. Interest income on loans and receivables increased by 27.56% or ₱1.18 billion to ₱5.47 billion amid the rising yields and average volume of loans. Interest income on investment securities and interest on financial assets went up by 33.21% or ₱420.4

million to **₱1.69 billion** resulting from the additional purchase of securities. Interest income on interbank loans receivable and securities purchased under resale agreements increased to **₱539.16 million**, 70.47% up from the **₱316.28 million**. Interest income on due from BSP and other banks likewise grew by 20.32% to **₱274.86 million** from the **₱228.43 million**.

Total interest expense increased to **₱1.28 billion**, 84.13% up from the **₱696.99 million** in the same period last year mainly due to higher interest expense on deposit liabilities, up by 60.30% to **₱1.03 billion** owing to higher interest rates. Interest on bonds payable amounted to **₱173.78 million** resulting from the maiden issuance of **₱7.5 billion** 2-year bonds. Meanwhile interest expense on bills payable and others also rose by 181.83% to **₱47.04 million** on account of interest expense related to ROPA. On the other hand, interest expense on lease liabilities declined by 19.57% to **₱28.18 million**.

Net interest income for 2022 increased to **₱6.68 billion**, up 23.79% from last year's **₱5.40 billion** as the core business performance outpaced the growth in interest expense.

Total other income reached **₱1.43 billion**, 73.58% more than the previous year. The growth is primarily driven by the 61.47% surge in service charges, fees and commissions to **₱857.63 million** due to higher commission from investment banking fees, income from trade and digital transactions. Foreign exchange gains posted **₱150.32 million**, 3.11x upgrade from last year's **₱48.37 million**. This growth was driven primarily by an increased volume of customer foreign exchange transactions as the Bank promoted this service with existing depositors. Gains on foreclosure, and sale of property and equipment and foreclosed assets grew by 23.81% to **₱340.45 million** arising from higher sales of foreclosed assets. Miscellaneous income increased 2.28x to **₱115.18 million** on account of higher recovery on charged-off assets. Meanwhile, trading and investment securities registered a loss of **₱29.22 million**, an improvement from 2021's loss of **₱78.71 million**.

Total expenses, excluding provision for credit and impairment losses went up by 9.07% to **₱5.48 billion**. Compensation and fringe benefits increased 4.6% to **₱1.90 billion** as the Bank worked to keep its salaries competitive even as the total workforce remained relatively flat at 1,865 (vs 1,873 in 2021). Taxes and licenses went up by 18.07% to **₱947.18 million** from increased business volume and higher documentary stamp taxes. Rent and utilities increased by 18.65% to **₱631.55 million** arising from higher security, power, light and water expenses. Meanwhile, depreciation and amortization declined by 6.67% to **₱431.66 million** due to lower depreciation expense on foreclosed assets. Insurance, on the other hand, grew by 4.04% to **₱348.36 million** from higher PDIC insurance on higher deposit volume. Service fees and commissions and subscription fees also increased by 27.7% and 13.83%, respectively, to **₱293.33 million** and **₱122.54 million** due to higher IT fees, commissions and subscriptions. Entertainment and recreation expenses declined by 21.73% to **₱76.23 million**. Management and professional fees and amortization of software costs went up by 27.7% and 36.33%, respectively, to **₱108.57 million** and **₱73.07 million**. Miscellaneous expenses amounted to **₱546.58 million**, 8.92% up from **₱501.81 million** due to higher forms and supplies, fuel and lubricants, marketing and other expenses.

The Bank booked provision for credit and impairment losses of **₱166.21 million** for the year 2022 to provide adequate reserves for its significant loan portfolio growth.

The Bank's share in the net loss of associate is at **₱0.13 million** in 2022, 87.18% lower than the prior year's **₱1.04 million**.

Income Tax Expense amounted to **₱666.36 million**, 6.84% more than the **₱623.69 million** the previous year.

Statement of Comprehensive Income for the Year Ended December 31, 2022 vs December 31, 2021

The Bank posted a total comprehensive income of **₱1.41 billion** for 2022, 17.85% higher than **₱1.2 billion** recorded in the same period last year. This was primarily driven by the higher net income in 2022, partly offset by the net change in net unrealized losses of debt securities at FVOCI at **₱578.94 million** due to the interest rate environment. Remeasurement losses on defined benefit plan decreased to **₱184.82 million** based on actuarial adjustments.

The Bank's total assets at end-2022 amounted to ₱217.52 billion, 8.92% higher than last year's ₱199.71 billion mainly from the increase in loans and other receivables, investment securities and was partially offset by the lower interbank loans receivables.

Loans and receivables, net of allowance for credit losses and unearned interest income, representing 48.31% of total assets, increased by 41.3% to ₱105.09 billion from ₱74.37 billion in the same period last year, driven by accelerated growth in corporate loans. The Bank's loan-to-deposit ratio was recorded at 70%.

Investment securities at amortized cost, likewise, increased by 21.67% to ₱52.21 billion. Financial assets at fair value increased by 2.25% to ₱6.19 billion due to higher financial assets at FVOCI which grew by ₱749.93 million, tempered by lower financial assets at FVTPL which decreased by ₱613.61million.

Cash and other cash items and due from BSP accounts both went down by 0.46% and 47.81%, respectively, to ₱2.74 billion and ₱23.68 billion. Interbank loans receivable dropped by 3.94% to ₱18.38 billion in 2022. On the other hand, due from other banks marginally increased by 0.46% to ₱1.04 billion.

Investment in associate amounted to ₱39.52 million, ₱0.14 million down from ₱39.66 million in the prior year. Property and equipment declined by 3.19% to ₱1.43 billion from ₱1.47 billion in 2021. Investment Properties and deferred tax assets also decreased to ₱3.40 billion and ₱612.09 million, respectively, from ₱3.45 billion and ₱743.51 million. Other assets, however, went up by 13.96% to ₱2.72 billion from ₱2.39 billion in 2021.

Deposit liabilities, which accounted for 81.04% of the total assets, expanded by 2.65% to ₱176.27 billion in 2022 boosted mainly by higher time deposits. Bonds payable amounted to ₱7.44 billion as a result of the Bank's bond issuance on July 2022. Accrued interest, taxes and other expenses and other liabilities also rose from ₱1.02 billion and ₱2.66 billion, respectively, higher by 14.11% and 48.35%. Manager's check, however, dropped by 30.48% to ₱661.45 million from ₱951.46 million in the prior year.

The Bank's capital base stood at ₱28.03 billion as of December 31, 2022, 19.98% higher than the ₱23.36 billion last year, spurred by the proceeds from the Initial Public Offering in the first quarter of 2022.

Key Variable and Other Qualitative and Quantitative Factors

Plans for 2025

The Philippine banking sector is seen to sustain its growth momentum and record solid performance in line with improved economic conditions. On a macroeconomic level, the economy is estimated to continue its growth trajectory. The country's gross domestic product (GDP) has been widened to a target range of 6.0% to 8.0% for 2025. While the average forecast by select agencies for the country's growth is 6.2% as shown in the table below. The growth forecast is expected to be supported by an anticipated recovery in domestic activity, improved service exports, and public investments.

| | 2025 GDP Forecast |
|------------|----------------------|
| Fitch | 6.3% |
| AMRO | 6.3% |
| World Bank | 6.0% |
| Average | 6.2% |

In terms of foreign currency, the peso is expected to weaken further in 2025, with the Development Budget Coordination Committee (DBCC) predicting the exchange rate to hover around Php56 to Php58 per dollar this year and from Php55 to Php58 per dollar in 2026. However, the Bangko Sentral ng Pilipinas (BSP) projects that the exchange rate to settle above the DBCC's assumptions. This outlook could be influenced by a slower pace of monetary policy easing by the US Federal Reserve, the recent exchange rate movements, and anticipated Trump administration tariff policies.

Inflation is expected to remain within the BSP 2.0%-4.0% target in 2025, with a note that it could overshoot in the second half amid base effects. Meanwhile, analysts average inflation estimates were unchanged at 3.2% for this year and 3.3% for 2026. The potential upside risks include the effects of geopolitical tensions and adverse weather conditions on commodity prices, particularly oil. Other factors cited are base effects, uncertainties in the international trade, potential upward adjustments to utility rates and transport charges, and proposed minimum wage increases.

Lower interest rates are expected to stimulate consumption and investment, but the BSP must balance growth support with inflation control to avoid eroding purchasing power. Lower interest rates could also potentially squeeze Bank net interest margins, impacting profitability. To negate this, Banks could look into innovation and diversification of income sources as well as enhancing digital banking services.

Despite some challenging macroeconomic outlook, the overall banking sector remains optimistic.

Bank of Commerce (BankCom) will look to leveraging on the areas of opportunities in the economic forecasts through expansion its core business (lending activities), investing in growth sectors, enhancing its investment portfolios, targeting new customers, launching competitive financial products, and leveraging its digital banking platforms. With these strategies, the bank is positive it will be able to attract more deposits, meet the growing demand for credit, improve its income with the end goal of becoming the best conglomerate bank in the country.

Capital Position

The Bank's capital base, comprised of capital stock, paid-in surplus and surplus reserves, is actively being managed to cover risks inherent in the Bank's operations.

On August 5, 2021, SMC Equivest Corporation infused additional capital amounting P5.5 billion in the form of paid-up preferred stock. On March 31, 2022, the Bank listed its common shares with the PSE and raised P3.4 billion in additional capital as part of the requirements for the upgrade. Together with the Retained Earnings increase from its 2024 and 2023 profits, these activities continue to keep the Bank's capital levels well above regulatory minimums.

Liquidity

Liquidity risk is the risk to the Bank's earnings and capital arising from its inability to meet funding requirements in a timely manner. To measure and monitor this risk, the Bank generates a report on future cash flows and liquidity on a daily basis. To ensure sufficient liquidity, the Bank has a set of internal limits incorporated in its annual budget that allocates a portion of its liabilities into cash, investment securities and other liquid assets. Concentration on a single funding source is also regularly monitored to control the Bank's reliance on a specific product or counterparty.

The Bank has available credit lines from various counterparties that it can utilize to meet sudden liquidity demands. It also maintains a portfolio of high quality liquid assets (HOLA) that can be converted to cash in a short period of time and with minimal loss incurred. This ensures compliance with Liquidity Coverage Ratio (LCR) as required by Basel III regulations. LCR checks if there is sufficient HOLA to offset short-term net outflows or short-term obligations under stressed conditions. The Bank also expands its sources of stable funds in order to support asset growth and meet the Net Stable Funding Ratio (NSFR) regulatory limit. NSFR ensures that the Bank is not overly reliant on short-term funding in funding its long-term assets. The Bank's liquidity position is assessed and managed under a variety of scenarios, giving due consideration to stress factors relating both to the market in general and to events specific to the Bank. A contingency funding plan, which covers quantitative and procedural measures, is in place and may be applied under different stress scenarios.

The Bank also manages its liquidity position through the monitoring of a Maximum Cumulative Outflow against a Board-approved limit. This process measures and estimates projected funding requirements that the Bank will need at specific time horizons.

There has been no material change to the Bank's exposure to liquidity and funding management risk or the manner in which it manages and measures the risk since prior financial year.

Events That Will Trigger Material Direct or Contingent Financial Obligation

In the normal course of the Bank's operations, there are various outstanding commitments and contingent liabilities which are not reflected in the accompanying financial statements. No material losses are anticipated as a result of these transactions. The Bank is currently involved in various legal proceedings. The probable costs for the resolution of these proceedings have been estimated by management, in consultation with the legal counsels handling the Bank's legal defense in these matters and is based upon an analysis of potential results. Management currently does not believe that these proceedings will have a material adverse effect on the Bank's financial position.

Material Off-Balance Sheet Transactions, Arrangements or Obligations

In the normal course of operations, the Bank makes various commitments, such as guarantees, commitments to extend credit, etc., which are not reflected in the accompanying financial statements. The Bank does not anticipate any material losses as a result of these transactions.

The following is a summary of the Bank's commitments and contingencies at their peso equivalent contractual amounts arising from off-books accounts as at December 31, 2024 and 2023:

| | 2024 | 2023 |
|--|-------------------------|-------------------------|

Retirement obligations pertain to the estimated impact of the amendments to the Bank's retirement plan on past service cost, subject to certain conditions.

The Bank has several loan-related suits, claims and regulatory examinations that remain unsettled or ongoing. It is not practicable to estimate the potential financial impact of these contingencies. However, in the opinion of management, in consultation with its legal counsels, the suits and claims, if decided adversely, will not involve sums having a material effect on the Bank's financial statements.

Other Commitments

The assets pledged by the Bank are strictly for the purpose of providing collateral for the counterparty. To the extent that the counterparty is permitted to sell and/or re-pledge the assets, they are classified in the statements of financial position as pledged collateral. The pledged assets will be returned to the Bank when the underlying transaction is terminated but, in the event of the Bank's default, the counterparty is entitled to apply the collateral in order to settle the liability.

No asset is being pledged by the Bank to secure outstanding liabilities as at December 31, 2024 and 2023.

Trust Assets

Securities and other properties (other than deposits) held by the Bank in fiduciary or agency capacities for its customers are not included in the accompanying statements of financial position since these are not assets of the Bank. Total assets held by the Bank's Trust Services Group amounted to P72.7 billion (unaudited) and P72.1 billion (audited) as at December 31, 2024 and 2023, respectively.

In compliance with the requirements of current banking regulations relative to the Bank's trust functions, government securities with face value of P770.0 million as at December 31, 2024 and 2023, which have been included under "Investment securities at amortized cost" (see Note 11), are deposited with BSP.

Material Commitments for Capital Expenditures

There are no changes from the previous disclosure (ATM replacement and Core Banking system upgrade).

Known Trends, Events or Uncertainties

While the Bank acknowledges the current high interest rate environment, it presently has more than adequate liquid assets to meet known funding requirements, and there are no other known trends, demands, commitments, events, or uncertainties that will have a material impact on the Bank's liquidity.

Significant Elements from Continuing Operations

Amendments to Standards Issued but Not Yet Adopted

A number of amendments to standards are effective for annual periods beginning after January 1, 2024. However, the Bank has not early adopted the following new or amended standards in preparing these financial statements as listed in pages 28 to 31 of the Notes to Financial Statements (see Annex B). Unless otherwise stated, none of these are expected to have significant impact on the Bank's financial statements.

Seasonal Aspects that have Material Effect on the FS

There were no seasonal aspects that had a material effect on the Bank's financial condition or results of operations.

Independent Public Accountants

The appointment, re-appointment and removal of the external auditor shall be recommended by the Audit Committee, approved by the Board of Directors and the shareholders. The Audit Committee reviews the audit scope and coverage, strategy, and results for the approval of the Board and ensures that non-audit services rendered shall not impair or derogate the independence of the external auditor or violate SEC regulations.

The SEC-accredited accounting firm of R.G. Manabat & Co. ("RGM & Co.") served as the Bank's external auditor for fiscal year 2024.

In line with best practices for corporate governance, the final nominee for external auditor of the Bank shall be duly endorsed by the Audit Committee to the Board of Directors during the latter's scheduled meeting on April 29, 2025. The same will be duly disclosed in the Bank's Definitive Information Statement on or before May 5, 2025.

Changes in and Disagreements with Accountants on Accounting and Financial

Dividends

The Board will periodically review the amount of dividends to be paid and the frequency of dividend payment in light of the Bank's earnings, financial condition, cash flows, capital requirements and other considerations while maintaining a level of capitalization that is commercially sound and sufficient to ensure that the Bank can operate on a standalone basis. The Bank will also need to verify that it has all the required approvals from regulatory bodies before issuing dividends.

Dividends shall be declared and paid out of the Bank's unrestricted retained earnings which shall be payable in cash, property, or stock to all shareholders on the basis of the outstanding capital stock held by them. Unless otherwise required by law, the Board, at its sole discretion, shall determine the amount, type and date of payment of the dividends to the shareholders, taking into account various factors, including:

- The level of the Bank's earnings, cash flow, return on equity and retained earnings;
- Its results for and its financial condition at the end of the year in respect of which the dividend is to be paid and its expected financial performance;
- The projected levels of capital expenditures and other investment programs;
- Restrictions on payments of dividends that may be imposed on it by any of its financing arrangements and current or prospective debt service requirements;
- The classes of shares held by the shareholders; and/or
- Such other factors as the Board deems appropriate.

The Bank cannot provide any assurance that it will pay any dividends in the future.

Currently, the Bank does not have a formal dividend policy approved by the Board.

On 28 May 2024, the Board of Directors of the Bank declared cash dividends paid out of the unrestricted retained earnings of the Bank as of December 31, 2023. The dividends were distributed on July 15, 2024 to all stockholders of record as of June 19, 2024 as follows:

The dividend paid to the preferred shareholder is in accordance with the Terms and Conditions of the Series “1” Preferred Shares issued in favor of SMC Equivest Corporation on 2 August 2021.

Compliance with Corporate Governance Practice

On 27 October 2020, the Board adopted the Manual on Corporate Governance (“Manual”), which institutionalizes the principles of good corporate governance in the entire organization. The Bank believes that

it is a necessary component of sound strategic business management, hence, we undertake efforts to create awareness within the organization. The Manual is reviewed and updated annually to capture current and best practices. Proposed amendments thereof are presented to and approved by the Board as reviewed and endorsed by the Corporate Governance Committee.

In adopting the Manual, the Board and its members acknowledge the responsibility in governing the conduct of the business of the Bank, the Board Committees, in focusing on specific board functions to aid in the optimal performance of its roles and responsibilities, and the officers, in ensuring adherence to corporate principles and best practices.

Board committees have been established with focused oversight on internal control, risk management, and performance monitoring. As of date, the Bank has nine board-level committees: (1) Executive Committee; (2) Trust and Investment Committee; (3) Audit Committee; (4) Board Risk Oversight Committee; (5) Corporate Governance Committee; (6) Nomination, Compensation and Remuneration Committee; (7) Related Party Transactions Committee; (8) Information Technology Steering Committee; and (9) Underwriting Committee. To ensure independent judgment on significant corporate matters, and that key issues and strategies are objectively reviewed and constructively challenged, five (5) of the nine (9) committees are headed by independent directors, namely, Audit, Board Risk Oversight, Corporate Governance, Nomination, Compensation and Remuneration; and Related Party Transaction. Board-level committee memberships were **also evaluated and calibrated to improve on the committees' focused oversight and high-level engagement** with management. The respective charters stating the committee purpose, membership, structure, operations, reporting processes and other information, are posted in the company website.

Annual performance reviews are conducted by all members of the Board, as follows:

1. Self-assessment
This is a yearly self-assessment undertaken by each member of the Board.
2. Peer Assessment
This is a yearly performance evaluation done by each member of the Board on the performance of his peers (BOD members).
3. Board Committee Assessment
This is a yearly evaluation done by the Chairman of each Board Committee on the Board Committee he presides. Each member of the Board Committee also assesses the performance of said Committee.
4. Board Assessment
This is a yearly evaluation undertaken by each member of the Board on the performance of the Board.

Results of these assessments are reported to Corporate Governance Committee and the Board and shared with Nomination Compensation Remuneration Committee (NCRC) for consideration in the re-election of each member of the Board. It also serves as basis in the training needs of each member of the Board.

With respect to Board Advisors, annual evaluation is also done by the members of the Board on the performance of the Board Advisors. The same is reported to the Corporate Governance Committee and the Board and shared with the NCRC for consideration in the renewal of the Board Advisors.

Moreover, the Bank's Internal Audit Division performs periodic corporate governance audit to review and evaluate the Bank's adherence to the guiding principles of the *Bangko Sentral ng Pilipinas* (BSP), and alignment with international best practices on Corporate Governance Principles for Banks by Basel Committee on Banking Supervision (BCBS) every three (3) years. The last audit of the Corporate Governance was part of the 2022 Audit Plan. It was outsourced to Isla Lipana (PWC), the report of which was released on January 21, 2023. The next audit is scheduled in 2025.

The Bank has fully complied with the requirement on Corporate Governance consistent with the best practices. It has been responsive to newly issued circulars and memos by BSP as well as the comments and suggestions of BSP examiners with respect to governance structures, policies, procedures, and practices.

There are no known deviations or recorded deviations from the Corporate Governance framework of the Bank. The last two internal audit reports on corporate governance undertaken yielded an "Outstanding" audit rating, which means that no significant risks and concerns were noted, and controls were functioning as intended.

VOTING PROCEDURES

The ballots/proxy forms are available for download on the Bank's website at <https://www.bankcom.com.ph/about-us/disclosures>.

Ballots and proxies may be submitted via email to stockholders@bankcom.com.ph, which submission shall be duly acknowledged and validated by the Bank's stock transfer agent, SMC Stock Transfer Service Corporation. For an individual, the submission must be accompanied by a copy of a government-issued ID with photo, as proof of identification. For a corporation, the submission must be accompanied by a certification from its Corporate Secretary stating the corporate officer's authority to represent the corporation in the meeting. In case of an event that restricts the movement of persons and makes submission of the originally signed ballots, proxies, and notarized Secretary's Certificate difficult, these documents shall be submitted to the SMC Stock Transfer Service Corporation within a reasonable time after the Annual Stockholders' Meeting.

The deadline for submission of the proxy and ballot is on May 21, 2025. Validation of proxies and ballots will be on May 22, 2025 at 10:00AM at the SMC Stock Transfer Service Corporation Office, 2nd Floor, SMC Head Office Complex, No. 40 San Miguel Ave., Mandaluyong City, Philippines. Only stockholders who have notified the Bank of their intention to participate through remote communication as above described and have been validated by the Office of the Corporate Secretary to be stockholders of record of the Bank as of May 7, 2025 will be considered in computing stockholder attendance at the meeting together with the stockholders attending through proxies.

For the election of directors, the fifteen (15) nominees with the greatest number of votes will be elected as directors. Shareholders vote by ballot, forms for which are available at the Bank's website, and must be submitted to the Bank on or before Wednesday, May 21, 2025 for validation and counting by the Bank's stock transfer agent on May 22, 2025, as set forth above.

In accordance with the Revised Corporation Code, matters for approval are approved by a majority of the shareholders present or represented at the meeting.

In all proposals or matters for approval except for election of directors, each share of stock entitles its registered owner (who is entitled to vote on such particular matter) to one vote. In case of election of directors, cumulative voting as set out in Item 4 of this Information Statement shall be adopted. Counting of the votes will be done by the Corporate Secretary or Assistant Corporate Secretary with the assistance of the independent auditors and the stock transfer agent of the Bank.

UNDERTAKING

The Bank will post and make available for download the full version of this SEC Form 20-IS (Preliminary Information Statement), together with all its annexes, including the 2024 audited financial statements of the Bank on the Bank's website at <https://www.bankcom.com.ph/about-us/disclosures> upon its approval by the Securities and Exchange Commission.

Upon the written request of a stockholder, the Bank undertakes to timely furnish such stockholder with a copy of the full version of this SEC Form 20-IS (Preliminary Information Statement), as well as the Bank's Annual Report (SEC Form-17-A) free of charge. Such written request shall be directed to the Office of the Corporate Secretary, 24/F San Miguel Properties Centre, St. Francis Street, Mandaluyong City 1550 Philippines, or sent via email at stockholders@bankcom.com.ph

After reasonable inquiry and to the best of my knowledge and belief, I certify that the information set forth in this report is true, complete, and correct. This report is signed in the City of Mandaluyong on 8 April 2025.

STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

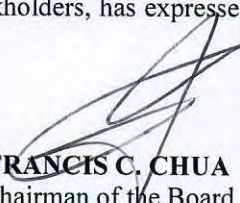

The management of **Bank of Commerce** (the "**Bank**") is responsible for the preparation and fair presentation of the financial statements including the schedules attached therein, as of December 31, 2024 and 2023 and for each of the three years in the period ended December 31, 2024, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative to do so.

The Board of Directors is responsible for overseeing the Bank's financial reporting process.

The Board of Directors reviews and approves the financial statements including the schedules attached therein, and submits the same to the stockholders.

R. G. Manabat & Co., the independent auditor appointed by the stockholders, has audited the financial statements of the Bank in accordance with Philippine Standard Auditing, and in its report to the stockholders, has expressed its opinion on the fairness of presentation upon completion of such audit.

REPORT OF INDEPENDENT AUDITORS

The Board of Directors and the Stockholders

Bank of Commerce

San Miguel Properties Centre
No. 7, St. Francis Street
Mandaluyong City

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Bank of Commerce (the “Bank”), which comprise the statements of financial position as at December 31, 2024 and 2023, and the statements of income, statements of comprehensive income, statements of changes in equity and statements of cash flows for each of the three years in the period ended December 31, 2024, and notes, comprising material accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Bank as at December 31, 2024 and 2023, and its financial performance and its cash flows for each of the three years in the period ended December 31, 2024, in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditors’ Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Bank in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Firm Regulatory Registration & Accreditation:

PRC-BOA Registration No. 0003, valid until September 20, 2026

IC Accreditation No. 0003-IC, Group A, valid for five (5) years covering the audit of 2020 to 2024

financial statements (2019 financial statements are covered by IC Circular Letter (CL) No. 2019-39, Transition clause)

BSP Accreditation No. 0003-BSP, Group A, valid for five (5) years covering the audit of 2020 to 2024

financial statements (2019 financial statements are covered by BSP Monetary Board Resolution No. 2161, Transition clause)

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. This matter was addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Allowance for Expected Credit Losses (ECL) for Loans and Receivables

The risk

We considered this as a key audit matter because of the complexity involved in the estimation process and the significant judgments that management makes in assessing the adequacy of allowance for expected credit losses. The key areas of judgment include: segmentation of the Bank's credit risk exposures; determining the method to estimate ECL; defining default; identifying exposures with significant increase in credit risk; determining assumptions to be used in the ECL model; and incorporating forward-looking information in calculating ECL.

As at December 31, 2024, loans and receivables amounted to P139.37 billion, with corresponding allowances of P2.87 billion. Provision for credit and impairment losses in 2024 amounted to P139.41 million. The disclosures in relation to the allowance for credit losses are included in Notes 12 and 17 of the financial statements.

Our response

We obtained an understanding of the Bank's ECL methodologies and models for loans and receivables, as approved by the Credit Committee and the Board of Directors, and evaluated whether those are (a) established and implemented consistently in accordance with the underlying principles of PFRS 9, *Financial Instruments*; (b) appropriate in the context of the Bank's lending activities and asset portfolio; and (c) supported with processes and controls including documentations that capture in sufficient detail the judgment and estimation applied in the development of the ECL model.

We have performed the following procedures to address the risk of material misstatement relating to the adequacy of allowance for impairment of loans and receivables:

- We evaluated the governance over the development, validation and approval of the ECL model including continuous reassessment performed by the Bank;
- We assessed the design and implementation and tested the operating effectiveness of key controls in the ECL process. This includes review of loan data input to source system, review of system configuration on aging of loans, review and approval process over the determination of loan risk rating, assessment of credit quality of loans and receivables relative to the established internal credit risk rating system, approval of restructured loans, review of underlying collateral valuation, and the calculation and recognition of the ECL allowance. Our assessment included the involvement of our internal IT specialist.
- We assessed whether the loans are classified to the appropriate stage, and challenged the criteria used to categorize the loan to respective stages;

- On a sample basis, we performed an independent credit review in order to evaluate the appropriateness and adequacy of the risk rating, application of the definition of significant increase in credit risk, staging of loans and credit review processes done by the Bank including its documentation. Accounts selected for review were based on a set of criteria designed to capture the items with high risk of material misstatement in the Bank's loan portfolios;
- We assessed the key assumptions in the ECL models such as the probability of default, loss given default and exposure at default built from historical data. Our assessment included the involvement of our internal financial risk management specialist;
- For forward-looking information used, we evaluated whether the historical and projected macro-economic factors were appropriate and sufficient. This included assessing the level of significance of the correlation of the forward-looking information to the default rates, as well as the impact of these variables in the ECL. We also reviewed management's use of expert credit judgment on the assessment of other macroeconomic factors as inputs in the ECL models;
- We assessed the completeness and accuracy of data inputs in the ECL models and in the ECL calculation by comparing them with the information obtained from source systems;
- We have assessed the accuracy and reasonableness of the outputs of the ECL models through independent recalculation; and
- We have assessed the appropriateness and adequacy of the disclosures made in the financial statements.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2024, but does not include the financial statements and our auditors' report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2024 are expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information reports, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and determine whether the other information needs to be revised.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Supplementary Information Required under Section 174 and Appendix 55 of the Manual of Regulations for Banks

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under Section 174 and Appendix 55 of the Manual of Regulations for Banks in Note 38 to the financial statements is presented for purposes of filing with the BSP and is not a required part of the basic financial statements. Such information is the responsibility of the management of the Bank. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The engagement partner on the audit resulting in this independent auditors' report is Vanessa P. Macamos.

BANK OF COMMERCE
NOTES TO THE FINANCIAL STATEMENTS

1. Reporting Entity

Bank of Commerce (the Bank) is a domestic corporation registered with the Securities and Exchange Commission (SEC) on December 16, 1963. The Bank's shares were listed with the Philippine Stock Exchange, Inc. (PSE) on March 31, 2022, as approved by the SEC on February 15, 2022. The Bangko Sentral ng Pilipinas (BSP) approved the upgrade of the Bank's banking license from commercial bank to universal bank on December 23, 2021. On August 11, 2022, the SEC approved the application of the Bank to act as underwriter of securities engaged in dealing government securities. On October 24, 2022, the Bank received from the BSP the Certificate of Authority to Operate as a Universal Bank dated October 4, 2022. On November 2, 2022, the Bank officially started operations as a universal bank.

The Bank provides services such as deposit products, loans and trade finance, domestic and foreign fund transfers, foreign exchange, credit card and trust services. The Bank's principal place of business is at San Miguel Properties Centre, No.7 St. Francis Street, Mandaluyong City. The Bank has a total of 140 branches nationwide, including the Head Office, as at December 31, 2024, 2023 and 2022.

San Miguel Properties, Inc. (SMPI) and San Miguel Corporation Retirement Plan (SMCRP) hold 31.91% and 30.84% ownership of the Bank's issued common shares, respectively, as at December 31, 2024 and 2023. Each of these shareholders has significant influence over the Bank. SMC Equivest Corporation holds 100% ownership of the Bank's issued non-voting preferred shares as at December 31, 2024 and 2023.

The Bank's original authority for its banking license was approved under Monetary Board (MB) Resolution No. 1045 dated October 4, 1963 as *The Overseas Bank of Manila*. The Bank received its Foreign Currency Deposit Unit (the "FCDU") license and launched its FCDU operations on September 23, 1983. The Bank received its Expanded FCDU license on March 10, 2010. The Bank was renamed Commercial Bank of Manila, Inc. on October 20, 1980, further renamed Boston Bank of the Philippines on July 27, 1988, and finally, Bank of Commerce on November 28, 1991.

Under Section 11, Corporate Term of the Revised Corporation Code issued on February 23, 2019, a corporation shall have perpetual existence unless its articles of incorporation provides otherwise. On January 30, 2020, the Board of Directors (BOD) approved the Amended Articles of Incorporation to reflect that the Bank's term of existence shall be perpetual. The said amendment was approved by the SEC on June 9, 2020.

The financial statements of the Bank were endorsed by the Audit Committee to BOD for its approval on March 21, 2025. The financial statements were approved and authorized for issue by the BOD on March 25, 2025.

2. Basis of Preparation

Statement of Compliance

These financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS) Accounting Standards as issued by the Philippine Financial and Sustainability Reporting Standards Council (FSRSC). PFRS Accounting Standards are based on IFRS Accounting Standards issued by the International Accounting Standards Board (IASB).

The term “IFRS Accounting Standards” is now how the IFRS Foundation refers to IFRS Standards that encompass a set of accounting standards issued by the IASB to distinguish them from IFRS Standards that encompass a set of sustainability disclosure standards that are issued by the International Sustainability Standards Board and are referred to as “IFRS Sustainability Disclosure Standards”. To align with the foregoing update, the FSRSC now refers to the locally adopted standards as “PFRS Accounting Standards” and “PFRS Sustainability Disclosure Standards”, respectively.

PFRS Accounting Standards consist of PFRS, Philippine Accounting Standards (PAS) and Philippine Interpretations.

Basis of Measurement

The financial statements of the Bank have been prepared on a historical cost basis, except for the following items:

| Items | Measurement Bases |
|--|---|
| Financial assets and liabilities at fair value through profit or loss (FVPL) | Fair value |
| Financial assets at fair value through other comprehensive income (FVOCI) | Fair value |
| Lease liability | Present value of remaining lease payments, discounted using the Bank's incremental borrowing rate |
| Net retirement liability | Present value of the defined benefit obligation less fair value of plan assets |

Functional and Presentation Currency

The financial statements include accounts maintained in the Regular Banking Unit (the RBU) and the FCDU. The functional currency of the RBU and the FCDU is Philippine Peso (PHP) and United States Dollar (USD), respectively. For financial reporting purposes, FCDU accounts and foreign currency-denominated accounts in the RBU are translated to their equivalents in PHP as discussed in Note 3. The financial statements individually prepared for these units are combined after eliminating inter-unit accounts.

All values are rounded to the nearest peso unless otherwise stated.

Presentation of Financial Statements

The Bank presents its statements of financial position broadly in the order of liquidity. An analysis regarding recovery of assets or settlement of liabilities within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in Note 23.

3. Material Accounting Policies

The accounting policies set out below have been applied consistently to all years presented in these financial statements, except for the adoption of the following amended standard, which became effective beginning January 1, 2024. Unless otherwise indicated, the adoption of this amended standard did not have an impact on the financials statements of the Bank. The Bank has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Amendment to PAS 1, *Presentation of Financial Statements, Non-current Liabilities with Covenants and Classification of Liabilities as Current or Non-current*. The amendment aims to promote consistency in application and clarify the requirements on determining whether a liability is current or noncurrent, the amendments:

- removed the requirement for a right to defer settlement of a liability for at least twelve months after the reporting period to be unconditional and instead requires that the right must have substance and exist at the end of the reporting period;
- clarified that only covenants with which a company must comply on or before the reporting date affect the classification of a liability as current or non-current and covenants with which the entity must comply after the reporting date do not affect a liability's classification at that date;
- provided additional disclosure requirements for non-current liabilities subject to conditions within twelve months after the reporting period to enable the assessment of the risk that the liability could become repayable within twelve months; and
- clarified that settlement of a liability includes transferring an entity's own equity instruments to the counterparty, but conversion options that are classified as equity do not affect classification of the liability as current or noncurrent.

Foreign Currency Transactions and Translation

Foreign exchange differences arising from foreign currency transactions and revaluation and translation of foreign currency-denominated assets and liabilities to functional currency are credited to or charged as part of "Foreign exchange gains - net" account in the statements of income, except for differences arising from the re-translations of equity securities at FVOCI which are recognized directly in "Net change in fair value on equity securities at FVOCI" in other comprehensive income (OCI).

The books of accounts of the FCDU of the Bank are maintained in USD with various transactions in foreign currencies. The foreign currency-denominated income and expenses in the books of accounts are translated into their USD equivalent based on the exchange rates prevailing at the time of transaction. The foreign currency-denominated assets and liabilities at the reporting dates are translated into USD using the Banking Association of the Philippines (BAP) closing rate prevailing at the reporting date.

The foreign currency-denominated monetary assets and liabilities in the RBU are translated to PHP based on the BAP closing rate prevailing at the end of the year. Foreign currency-denominated income and expenses are translated to PHP at the exchange rates prevailing at transaction dates. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

For reporting purposes, the FCDU income and expenses are translated to their equivalent in PHP based on the BAP weighted average rate (WAR) for the year. The assets and liabilities of the FCDU at the reporting date are translated into PHP using BAP closing rate at the reporting date. The exchange differences arising from translation (i.e., BAP WAR and BAP closing rate) of FCDU accounts to PHP as presentation currency are taken directly to OCI under "Net movement in cumulative translation adjustment" in the statements of comprehensive income. Upon disposal of the FCDU or upon actual remittance of FCDU profits to RBU, the deferred cumulative amount recognized in the statements of comprehensive income is recognized in the statements of income.

Financial Instruments - Initial Recognition

- *Date of Recognition*

Regular way purchases and sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on settlement date. Settlement date accounting refers to: (a) the recognition of an asset on the day it is received by the Bank, and (b) the derecognition of an asset and recognition of any gain or loss on disposal on the day that it is delivered by the Bank. Deposit liabilities, bills payable, bonds payable, and loans and receivables are recognized when cash is received by the Bank or advanced to the borrowers.

Derivatives are recognized on trade date basis. Trade date is the date when an entity commits itself to purchase or sell an asset. Trade date accounting refers to: (a) the recognition of an asset to be received or the liability to be paid on the trade date, and (b) the derecognition of an asset that is sold, recognition of any gain or loss on disposal and the recognition of a receivable from the buyer for payment on trade date.

- *Initial Recognition of Financial Instruments*

All financial instruments, whether financial assets or liabilities, are initially measured at fair value. Except for financial assets and liabilities valued at FVPL, initial measurement includes transaction costs.

Financial Instruments - Classification and Subsequent Measurement

Financial Assets

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, FVOCI and FVPL. The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Bank's business model for managing them.

The Bank's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

In order for a financial asset to be classified and measured at amortized cost or FVOCI, it needs to give rise to cash flows that are for sole payment of principal and interest (SPPI). This assessment is referred to as the SPPI test and is performed at an instrument level.

Business Model Assessment

The Bank makes an assessment of the objective of a business model in which an asset is held at a portfolio level, not on an instrument-by-instrument basis, because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realizing cash flows through the sale of the assets;
- how the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way in which those risks are managed;
- how managers of the business are compensated (for example, whether compensation is based on the fair value of the assets managed or on the contractual cash flows collected); and
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Bank's stated objective for managing the financial assets is achieved and how cash flows are realized.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If the cash flows after initial recognition are realized in a way that is different from the Bank's original expectations, the Bank does not change the classification of the remaining financial asset held in that business model but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

SPPI Test

As part of the Bank's classification process, the Bank assesses the contractual terms of financial assets to identify whether they meet the SPPI test.

For purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition and may change over the life of the financial asset (e.g., if there are repayments of principal or amortization of the premium or discount). 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g., liquidity risk and administrative costs), as well as profit margin.

To make the SPPI assessment, the Bank applies judgment and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set. In contrast, contractual terms that introduce a "more than de minimis" exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at FVPL.

The Bank's measurement categories for financial assets are described below:

(i) *Financial Assets at FVPL*

Financial assets at FVPL include financial assets held for trading purposes, financial assets designated upon initial recognition at FVPL or financial assets mandatorily required to be measured at fair value. Equity securities are classified as financial assets at FVPL, unless the Bank designates an equity security that is not held for trading as at FVOCI at initial recognition.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition, it is part of a portfolio of identified financial instruments that the Bank manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

Financial assets with cash flows that are not SPPI are classified and measured at FVPL, irrespective of the business model. Notwithstanding the criteria for debt securities to be classified at amortized cost or at FVOCI, as described in succeeding sections, debt securities may be designated at FVPL on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at FVPL are initially recognized and subsequently measured at fair value in the statements of financial position, with transaction costs recognized in the statements of income. Gains and losses arising from changes in the fair value of financial assets at FVPL and gains and losses arising from disposals of these securities are recognized under "Trading and investment securities gains (losses) - net" account in the statements of income. Interest earned or incurred is recorded as interest income or interest expense, respectively, while dividend income is recorded under "Miscellaneous income" account in the statements of income when the right to receive payment has been established.

Financial assets at FVPL include government and private debt securities held for trading, derivative instruments and debt securities that do not meet the SPPI test. Most of the Bank's derivative trading activities relate to deals with customers that are normally offset by transactions with other counterparties. The Bank may also take positions with the expectation of profiting from favorable movements in prices, rates or indices. The Bank is a counterparty to derivative contracts, such as currency forwards and warrants.

(ii) *Financial Assets at Amortized Cost*

The Bank measures debt financial assets at amortized cost if both of the following conditions are met:

- the financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

Financial assets meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at amortized cost using the effective interest method less any impairment in value. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate (EIR). The amortization is included under "Interest income" account in the statements of income. Gains and losses are recognized in the statements of income when the financial asset is derecognized, modified or impaired, as well as through the amortization process. The losses arising from expected credit losses (ECL) is recognized under "Provision for credit and impairment losses" account, while reversals of ECL are recognized under "Reversal of credit and impairment losses" account. The two accounts are netted off in the statements of income. The effects of revaluation on foreign-currency denominated financial assets are recognized under "Foreign exchange gains - net" account in the statements of income.

The Bank's financial assets at amortized cost include cash and other cash items (COCI), exclusive of cash on hand, amounts due from BSP and other banks, interbank loans receivable and securities purchased under resale agreements (SPURA), investment securities at amortized cost, loans and receivables from customers, sales contract receivables, unquoted debt securities, accrued interest receivable, accounts receivable and other receivables.

The Bank may irrevocably elect at initial recognition to classify a financial asset that meets the amortized cost criteria above as at FVPL if that designation eliminates or significantly reduces an accounting mismatch had the financial asset been measured at amortized cost. As at December 31, 2024 and 2023, the Bank has not made such designation.

(iii) Financial Assets at FVOCI

▪ *Debt Securities*

The Bank measures debt securities at FVOCI if both of the following conditions are met:

- the financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

Debt securities at FVOCI are subsequently measured at fair value with unrealized gains and losses arising from fair valuation recognized in OCI under the "Net unrealized losses on financial assets at FVOCI" account in the equity section of the statements of financial position. Interest income and foreign exchange gains and losses are recognized in the statements of income in the same manner as for financial assets measured at amortized cost. The ECL arising from impairment of such investments are recognized in the statements of income with a corresponding charge to "Provision for credit and impairment losses" account if the resulting ECL is impairment losses and to "Reversal of credit and impairment losses" account if the resulting ECL is reversal of impairment. Other fair value changes to measure the instrument at fair value is recognized in OCI.

Upon derecognition, the cumulative gains or losses previously recognized in OCI are recognized under "Trading and investment securities gains (losses) - net" account in the statements of income.

- *Equity Securities*

At initial recognition, the Bank can make an irrevocable election (on an instrument-by-instrument basis) to designate equity securities as at FVOCI. Designation as at FVOCI is not permitted if the equity security is held for trading.

Equity securities designated at FVOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value, with no deduction for any disposal costs. Gains and losses arising from changes in fair value are recognized in OCI under “Net unrealized losses on financial assets at FVOCI” account in the equity section of the statements of financial position. Dividends earned on holding equity securities designated at FVOCI are recognized in the statements of income as “Miscellaneous income” when the right of the payment has been established, except when the Bank benefits from such proceeds as a recovery of part of the cost of the instrument. Gains and losses on disposal of these equity securities are never recycled to profit or loss, but the cumulative gain or loss previously recognized in OCI is reclassified to “Retained earnings” account in the equity section of the statements of financial position. Equity securities designated at FVOCI are not subject to impairment assessment.

The Bank designated all equity securities that are not held for trading as at FVOCI on initial application of PFRS 9, Financial Instruments.

Financial Liabilities

The Bank classifies its financial liabilities, other than financial guarantees and loan commitments, as measured at amortized cost or at FVPL.

Financial liabilities are classified and subsequently measured at amortized cost using the effective interest method, except for financial liabilities measured at FVPL. Financial liabilities measured at FVPL consists of: (a) financial liabilities held-for-trading, including derivative liabilities that are not accounted for as hedging instruments; and (b) financial liabilities designated at fair value through profit or loss.

The Bank may, at initial recognition, irrevocably designate financial liabilities as measured at FVPL.

The Bank's financial liabilities at amortized cost include deposit liabilities, bills payable, bonds payable, manager's checks, lease liabilities, accrued interest and other expenses (except accrued employee and other benefits and accrued taxes payable) and other liabilities (except withholding tax payable, retirement liability and ECL on off-balance sheet exposures).

Financial liabilities at FVPL include derivative liabilities held-for-trading arising from cross-currency swap and forward contracts. Similar to derivative assets, any gains or losses arising from changes in fair values of derivative liabilities are taken directly to “Foreign exchange gains - net” account in the statements of income. Derivatives are carried as liabilities when the fair value is negative.

Reclassification of Financial Assets and Liabilities

The Bank can reclassify financial assets if the objective of its business model for managing the financial asset changes. Reclassification of financial assets designated at FVPL or equity securities at FVOCI at initial recognition is not permitted.

A change in the objective of the Bank's business model will be effected only at the beginning of the next reporting period following the change in the business model.

Financial liabilities are not reclassified.

Modifications of Financial Assets and Financial Liabilities

Financial Assets

If the terms of a financial asset are modified, then the Bank evaluates whether the cash flows of the modified asset are substantially different.

If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognized, and a new financial asset is recognized at fair value plus any eligible transaction costs. Any fees received as part of the modification are accounted as follows:

- fees that are considered in determining the fair value of the new asset and fees that represent reimbursement of eligible transaction costs are included in the initial measurement of the asset; and
- other fees are included in the statements of income and expenses as part of the gain or loss on derecognition.

If cash flows are modified when the borrower is in financial difficulties, then the objective of the modification is usually to maximize recovery of the original contractual terms rather than to originate a new asset with substantially different terms. If the Bank plans to modify a financial asset in a way that would result in forgiveness of cash flows, then it first considers whether a portion of the asset should be written off before the modification takes place. This approach impacts the result of the quantitative evaluation and means that the derecognition criteria are not usually met in such cases.

To determine whether a modification of a financial asset is substantial or non-substantial, the guidance set out in this policy should be applied. Where it is not clear whether a “substantial modification” has occurred based on the application of this guidance, a 10.0% net present value change (equivalent to the PFRS 9 - test for financial liabilities) should be applied as a backstop.

In some cases, whether or not a modification is substantial will be clear with little or no analysis while in others, a high degree of judgment may be required.

The modification of a financial asset could involve one or both of the following:

- (a) Changes in contractual terms that have a direct impact on the contractual cash flows. For example: changes to limit, tenor (maturity), interest rate, currency, or introduction or removal of features that give rise to cash flows other than payments of principal and interest on the principal amount outstanding;
- (b) Changes in contractual terms that do not have a direct impact on the contractual cash flows. For example: changes in security, collateral or other credit enhancements that change the credit risk associated with the loan.

Based on the Bank's policy, the delineation between substantial and non-substantial modifications should focus on category (a) modifications, specifically changes in credit limit, tenor, currency or SPPI characteristics.

If the modification of a financial asset measured at amortized cost or FVOCI does not result in derecognition of the financial asset, then the Bank first recalculates the gross carrying amount of the financial asset using the original EIR of the asset and recognizes the resulting adjustment as a modification gain or loss in the statements of income.

For floating-rate financial assets, the original EIR used to calculate the modification gain or loss is adjusted to reflect current market terms at the time of the modification. Any costs or fees incurred and fees received as part of the modification adjust the gross carrying amount of the modified financial asset and are amortized over the remaining term of the modified financial asset.

If such modification is carried out because of the financial difficulties of the borrower, then the gain or loss is presented together with impairment losses. In other cases, it is presented as interest income calculated using the effective interest method.

Financial Liabilities

The Bank derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognized at fair value. The difference between the carrying amount of the financial liability derecognized and consideration paid is recognized in the statements of income. Consideration paid included non-financial assets transferred, if any, and the assumption of liabilities, including the new modified financial liability.

If the modification of a financial liability is not accounted for as derecognition, then the amortized cost of the liability is recalculated by discounting the modified cash flows at the original EIR and the resulting gain or loss is recognized in the statements of income. For floating-rate financial liabilities, the original EIR used to calculate the modification gain or loss is adjusted to reflect current market terms at the time of the modification. Any costs and fees incurred are recognized as an adjustment to the carrying amount of the liability and amortized over the remaining terms of the modified financial liability by re-computing the EIR on the instrument.

Derecognition of Financial Assets and Financial Liabilities

Financial Assets

A financial asset (or, where applicable a part of a financial asset or part of a group of financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired;
- the Bank retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a “pass-through” arrangement; or
- the Bank has transferred its rights to receive cash flows from the asset and either: (a) has transferred substantially all the risks and rewards of ownership of the asset; or (b) has neither transferred nor retained the risks and rewards of ownership of the asset but has transferred the control of the asset.

Where the Bank has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of ownership of the asset nor transferred control of the asset, the asset is recognized to the extent of the Bank's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of original carrying amount of the asset and the maximum amount of consideration that the Bank could be required to repay.

Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or has expired. Where an existing financial liability is replaced by another financial liability from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statements of income.

Impairment of Financial Assets

The Bank recognizes ECL for loan and other debt financial assets at amortized cost and at FVOCI, together with loans commitments and financial guarantee contracts. No impairment loss is recognized on equity securities.

Expected Credit Loss Methodology

The Bank measures ECL in a way that reflects an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes, the time value of money and reasonable and supportable information about past events, current conditions and forecasts of future economic conditions. PFRS 9 requires a loss allowance to be recognized at an amount equal to either the 12-month ECL or lifetime ECL for those financial instruments which have experienced a significant increase in credit risk (SICR) since initial recognition. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument, whereas 12-month ECLs are the portion of ECLs that result from default events that are possible within 12 months after the reporting date.

Staging Assessment

For non-impaired financial instruments:

- Stage 1: Comprised of performing financial instruments which have not experienced SICR since initial recognition or have low credit risk as of reporting date. This stage recognizes a 12-month ECL for the financial instruments categorized under this group.
- Stage 2: Comprised of under-performing financial instruments which have experienced a SICR since initial recognition, but do not have objective evidence of impairment. This stage recognizes a lifetime ECL for the financial instruments categorized under this group.

For credit-impaired financial instruments:

- Stage 3: Comprised of non-performing financial instruments with one or more loss events occurring since the original recognition or assets with objective evidence of impairment at reporting date and matured accounts with outstanding balances. Financial instruments falling within this stage have objective evidence of impairment thus requiring the recognition of lifetime ECL.

Definition of “Default” and “Cure”

The Bank generally classifies a financial instrument as in default when it is credit impaired, or becomes past due on its contractual payments for more than 90 days, considered non-performing, under litigation or is classified as doubtful or loss. In assessing whether a borrower is in default, the Bank considers indicators that are qualitative (i.e., breach of covenant) and quantitative (i.e., overdue status and non-payment on another obligation of the same borrower/issuer to the Bank). An instrument is considered to be no longer in default (i.e., to have cured) when there is sufficient evidence to support that full collection of principal and interests is probable and payments of interest and/or principal are received for at least six (6) months. This definition is consistent with the definition of non-performing loans (NPL) under Section 304 of the Manual of Regulations for Banks (MORB), *Past Due Accounts and Non-Performing Loans*.

Credit Risk at Initial Recognition

The Bank makes full use of its Internal Credit Risk Rating System (ICRRS) for corporate loans and credit scorecards for consumer loans to determine the credit risk of exposures at initial recognition. The ICRRS is devised to assess the level of risk associated with each borrower using a combination of both quantitative and qualitative factors. Subsequent credit assessments and approvals are also considered in determining the credit risk. On the other hand, credit scorecard is a tool used to evaluate the credit risk associated to individual customers. Customer-specific factors and internal data are taken into consideration to calculate a credit score. The credit decision is based on the output of the credit score and policy rules.

Significant Increase in Credit Risk

The definition of a SICR varies by portfolio where the determination of the change in credit risk includes both the quantitative and qualitative factors.

The Bank applies the movement in its Corporate Loan account's credit risk rating and assessment of breach in watchlist triggers to indicate a possible significant credit downgrade or upgrade through a risk rating matrix. For the remaining portfolios, the Bank considers that a SICR occurs no later than when an asset is more than 30 days past due. The total number of days past due is determined by counting the number of days since the earliest elapsed due date in respect of which full payment has not been received. Furthermore, the Bank's internal credit assessment may consider a counterparty to have a SICR since initial recognition if it is identified to have well-defined credit weaknesses. These may include adverse changes in the financial, managerial, economic and/or political nature of a business. Credit weakness can be established by an unsatisfactory track record that merits close monitoring and attention from management.

If there is evidence that there is no longer a SICR relative to initial recognition, then the loss allowance on an instrument returns to being measured as 12-month ECL. For unrated financial instruments, the SICR is measured using the number of days past due which is also consistent with the staging criteria presented above.

ECL Parameters and Methodologies

ECL is a function of the following credit risk parameters:

(a) Probability of Default (PD)

The PD is the measure of likelihood that a borrower will be unable to settle his obligation/s on time and in full over a given time period, either over the next 12 months (12-month PD) or over the remaining life (Lifetime PD) of the loan obligation. The Bank currently uses its ICRRS, behavioral scorecard and other relevant drivers of default to segment exposures with homogenous risk characteristics.

Point-in-Time (PiT) PD calibration is done to reflect the current trends in business and credit cycle. Macroeconomic forecasts are incorporated to come up with PiT PDs that are unbiased and forward-looking projections of future default risk.

(b) Loss Given Default (LGD)

LGD measures the percentage amount of credit losses incurred and not recovered at the time of default. LGD estimation is based on historical cash flow recoveries. Calculation of the LGD is adjusted for some assets to consider cashflow recoveries on collateral. For some financial assets, the Bank supplemented internal assessments with regulatory thresholds to arrive at the LGD assumption.

LGD estimation also considers the present value calculation and cost adjustment in determining the recoveries.

(c) Exposure at Default (EAD)

EAD is defined as the outstanding amount of credit exposure at the time of default. EAD is estimated by modelling the historical data on both the actual drawn and undrawn amounts for each credit facility. When estimating EAD, several factors are taken into account, including the length of time for which the estimation is being made, the predicted cash flows until the point of default, total loan tenure, and the remaining duration of the loan. This provides a more robust estimate of the total amount the Bank is exposed to.

Forward-looking Information

The Bank incorporates forward-looking information into both its assessment of whether the credit risk of a financial asset has increased significantly since its initial recognition and its measurement of ECL.

The Bank enhanced its ECL methodology by incorporating multiple future macroeconomic expectations in order to estimate credit losses on the basis of probability-weighted outcomes. The Bank has performed statistical analysis of historical data to determine which macroeconomic variables (MEVs) are correlated with the performance of specific loan portfolios. The MEVs considered were obtained using publicly available sources such as BSP and Philippine Statistical Association. A broad range of forward-looking information are assessed as economic inputs. Based on historical data analysis, the Bank found significant relationships between MEVs and credit risk which vary by product type. Forward looking MEVs used include Remittances, Employment Index & Unemployment, Value of Production Index (VAPI), Loan Performances, Consumer Outlook, Gross Domestic Product (GDP) (Exports and Agriculture), Foreign Exchange rates and Stock Exchange Index. The selected MEVs were confirmed using experienced credit judgment.

The inputs and models used for calculating ECL may not always capture all characteristics of the market at the date of the financial statements. To reflect this, qualitative adjustments or overlays are occasionally made as temporary adjustments when such differences are significantly material.

Restructured Loans

Where possible, the Bank seeks to restructure loans rather than to take possession of collateral. This may involve extending the payment arrangements and the agreement of new loan conditions. Once the terms have been renegotiated, the loan is no longer considered past due. Management continuously reviews restructured loans to ensure that all criteria are met and the future payments are likely to occur. When the loan has been restructured but not derecognized, the Bank also reassesses whether there has been a SICR and considers whether the assets should be classified as Stage 3. If the restructuring terms are substantially different, the loan is derecognized and a new 'asset' is recognized at fair value using the revised EIR.

Write-offs

Financial assets are written off either partially or in full when there is no reasonable expectation of recovering a financial asset in its entirety or a portion thereof. This is generally the case when the Bank determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. This assessment is carried out at the individual asset level.

Recoveries of amounts previously written off are included under "Miscellaneous income" account in the statements of income.

Financial assets that are written off could still be subject to enforcement activities in order to comply with the Bank's procedures for recovery of amounts due.

'Day 1' Difference

Where the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable markets, the Bank recognizes the difference between the transaction price and fair value (a 'Day 1' difference) as part of current operations in the period when the asset is acquired or the liability is incurred. In cases where the transaction price used is based on inputs which are not observable, the difference between the transaction price and model value is only recognized as part of current operations in the period when the inputs become observable or when the instrument is derecognized. For each transaction, the Bank determines the appropriate method of recognizing the 'Day 1' difference amount.

Offsetting

Financial assets and liabilities are offset with the net amount reported in the statements of financial position, if and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis or to realize the asset and settle the liability simultaneously. This is not generally the case with master netting agreements, as the related assets and liabilities are presented gross in the statements of financial position.

As at December 31, 2024 and 2023, the Bank did not have any financial instrument that qualified for offsetting.

Income and expenses are presented on a net basis only when permitted by the accounting standards.

Cash and Cash Equivalents

For purposes of reporting cash flows, cash and cash equivalents include COCI, amounts due from BSP and other banks and interbank loans receivable and SPURA with original maturities of three months or less from dates of placement and that are subject to insignificant risk of changes in value.

COCI consist of cash on hand and checks and other cash items. Cash on hand refers to the total amount of cash in the Bank's vault in the form of notes and coins under the custody of the cashier/cash custodian or treasurer, including notes in the possession of tellers and those kept in automated teller machines (ATMs).

Repurchase and Reverse Repurchase Agreements

Securities sold under repurchase agreements (SSURA) at a specified future date ("repos") are not derecognized from the statements of financial position. The corresponding cash received, including accrued interest, is recognized in the statements of financial position as liability of the Bank, reflecting the economic substance of such transaction.

Conversely, SPURA to resell at a specified future date ("reverse repos") are not recognized in the statements of financial position. The corresponding cash paid, including accrued interest, is recognized in the statements of financial position as securities purchased under resale agreement, and is considered as a loan to the counterparty. The Bank is not permitted to sell or re-pledge the collateral in the absence of default by the owner of the collateral. The difference between the purchase price and resale price is treated as interest income in the statements of income and is amortized over the life of the agreement using the effective interest method.

Financial Guarantees and Undrawn Loan Commitments

Undrawn loan commitments and letters of credit are commitments under which over the duration of the commitment, the Bank is required to provide a loan with pre-specified terms to the customer. The nominal contractual values of undrawn loan commitments, where the loans agreed to be provided are on market terms, are not recorded in the statements of financial position. These contracts are in the scope of the ECL requirements where the Bank estimates the expected portion of the undrawn loan commitments that will be drawn over their expected life. The ECL related to loan commitments is recognized under "Other liabilities" account in the statements of financial position.

In the ordinary course of business, the Bank issues financial guarantees in favor of other parties. Financial guarantees are initially recognized in the financial statements at fair value, and the initial fair value is amortized over the life of the financial guarantee in accordance with PFRS 15. The financial guarantee is subsequently carried at the higher of the amount of loss allowance determined in accordance with the ECL model and the amount initially recognized, less when appropriate, the cumulative amount of income recognized in accordance with PFRS 15.

Investment in an Associate

An associate is an entity over which the Bank has significant influence but no control. This is a rebuttable presumption in case the equity interest of the Bank in an entity is between 20.0% and 50.0%. The Bank's equity investment in BIC Management and Consultancy, Inc. (formerly Bancommerce Investment Corporation) (BIC) represents 24.26% of BIC's capital stock. Accordingly, the Bank's equity investment in BIC is treated as an investment in an associate accounted for under the equity method of accounting since there is no indication of control.

Under the equity method, an investment in an associate is carried in the statements of financial position at cost plus post-acquisition changes in the Bank's share in the net assets of the associate. The Bank's share in an associate's post-acquisition profits or losses is recognized in the statements of income, and its share of post-acquisition movements in the associate's equity reserves is recognized directly in equity.

When the Bank's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Bank does not recognize further losses, unless it has incurred obligations or made payments on behalf of the associate. Profits and losses resulting from transactions between the Bank and an associate are eliminated to the extent of the Bank's interest in the associate.

The reporting period of BIC is on a calendar year basis. BIC's accounting policies conform to those used by the Bank for like transactions and events in similar circumstances.

Property and Equipment

Land is stated at cost less any impairment in value. Depreciable properties including buildings, furniture, fixtures and equipment and leasehold improvements are stated at cost less accumulated depreciation and amortization, and any impairment in value.

The initial cost of property and equipment comprises its purchase price, including import duties and non-refundable purchase taxes after deducting trade discounts and rebates, and any costs that are directly attributable in bringing the property and equipment to its location and condition necessary for it to be capable of operating in the manner intended by management. Expenditures incurred after the property and equipment have been put to operation, such as repairs and maintenance, are normally charged against operations in the period in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in the increase in the future economic benefits to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property and equipment.

Depreciation and amortization are calculated on a straight-line basis over the estimated useful life of the depreciable assets. Leasehold improvements are amortized over the estimated useful life of the improvements or the terms of the related lease, whichever is shorter.

The estimated useful lives of property and equipment are as follows:

| | Years |
|-----------------------------------|--------|
| Building | 50 |
| Furniture, fixtures and equipment | 1 - 7 |
| Leasehold improvements | 5 - 15 |

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising from derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in the statements of income in the period the asset is derecognized.

The asset's residual values, useful lives and method of depreciation and amortization are reviewed, and adjusted if appropriate, at each reporting date.

Investment Properties

Investment properties are composed of assets acquired from foreclosure or *dacion en pago* and land and building that are vacant and no longer used for administrative purposes (previously owner-occupied property), and are initially measured at cost including transaction costs. An investment property acquired through an exchange transaction is initially recognized at the fair value of the asset acquired unless (a) the exchange transaction lacks commercial substance or (b) the fair value of neither the asset received nor the asset given up is reliably measurable, in which case the investment property acquired is measured at the carrying amount of the asset given up. The difference between the fair value of the asset received and the carrying amount of the asset given up is recorded as "Gain on foreclosure" under "Gain on foreclosure and sale of property and equipment and foreclosed assets - net" account in the statements of income. Foreclosed properties are classified under "Investment properties" upon:

- entry of judgment in case of judicial foreclosure;
- execution of the Sheriff's Certificate of Sale in case of extra-judicial foreclosure; or
- notarization of the Deed of Dacion in case of payment in kind (*dacion en pago*).

The Bank applies the cost model in subsequently measuring its investment properties. Land is carried at cost less any impairment in value and depreciable properties acquired are carried at cost. Cost is the fair value of the asset at acquisition date, less any accumulated depreciation and any impairment in value. Transaction costs, which include non-refundable capital gains tax and documentary stamp tax, incurred in connection with foreclosure are capitalized as part of cost of the investment properties.

Depreciation is computed on a straight-line basis over the estimated useful life of the depreciable asset or 10 years, whichever is lower. The estimated useful life and the depreciation method are reviewed periodically to ensure that the period and the method of depreciation are consistent with the expected pattern of economic benefits from items of investment properties.

Transfers are made to investment property when, and only when, there is a change in use, evidenced by the end of owner-occupation or the start of an operating lease to another party. Transfers are made from investment property when, and only when, there is a change in use, evidenced by the start of owner-occupation or of development with a view to sell.

Repairs and maintenance costs relating to investment properties are normally charged to statements of income in the period in which the costs are incurred.

An investment property is derecognized when it has either been disposed of or when it is permanently withdrawn from use and no future benefit is expected from its disposal. Any gain or loss on derecognition of an investment property is recognized in the statements of income under "Gains on foreclosure and sale of property and equipment and foreclosed assets - net" account in the period of derecognition.

Other Properties Acquired

Other properties acquired, included under "Other assets" account in the statements of financial position, include chattel mortgage properties foreclosed in settlement of loan receivables. The Bank applies the cost model of accounting for these assets. Under the cost model, these assets are carried at cost, which is the fair value at acquisition date, less accumulated depreciation and any impairment in value.

Depreciation is computed on a straight-line basis over the estimated useful life of the depreciable asset or three years, whichever is lower. The estimated useful life and the depreciation method are reviewed periodically to ensure that the period and the method of depreciation are consistent with the expected pattern of economic benefits from items of other properties acquired.

The carrying values of the other properties acquired are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amounts (see accounting policy on Impairment of Non-financial Assets).

An item of other properties acquired is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in the statements of income under "Gains on foreclosure and sale of property and equipment and foreclosed assets - net" account in the period of derecognition.

Intangible Assets

Intangible assets consist of software costs and branch licenses. Intangible assets acquired separately, included under "Other assets" account in the statements of financial position, are measured on initial recognition at cost. The cost of an intangible asset acquired in a business combination is its fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and impairment losses. Internally generated intangible assets are not capitalized but recognized in the statements of income in the period when the expenditure is incurred.

The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortized over the economic useful life and assessed for impairment whenever there is an indication that the intangible assets may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least each reporting date. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortization period or method, as appropriate, and treated as changes in accounting estimates.

The amortization expense on intangible assets with finite lives is recognized in the statements of income under the expense category consistent with the function of the intangible asset. Gains or losses arising from the derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statements of income in the period when the asset is derecognized.

Branch Licenses

Branch licenses are granted by the BSP and capitalized on the basis of the costs incurred to acquire and bring to use in operation. Branch licenses are determined to have indefinite useful lives and are tested for impairment annually.

Software Costs

Software costs include costs incurred relative to the purchase of the Bank's software and are amortized on a straight-line basis over 5 years. Software costs are carried at cost less accumulated amortization and any impairment in value.

Impairment of Investment in an Associate and Non-financial Assets

Investment in an Associate, Property, Equipment and Right-of-Use Assets, Investment Properties, Other Properties Acquired and Intangible Assets under "Other Assets"

At each reporting date, the Bank assesses whether there is any indication of impairment on investment in an associate, property, equipment and right-of-use assets, investment properties, other properties acquired and intangible assets, or whether there is any indication that an impairment loss previously recognized for an asset in prior years may no longer exist or may have decreased. When an indicator of impairment exists or when an annual impairment testing for an asset is required, the Bank makes a formal estimate of the net recoverable amount.

The net recoverable amount is the higher of an asset's (or cash-generating unit's) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the net recoverable amount is assessed as part of the cash-generating unit to which it belongs. Value in use is the present value of future cash flows expected to be derived from an asset or cash-generating unit while fair value less cost to sell is the amount obtainable from the sale of an asset or cash-generating unit in an arm's length transaction between knowledgeable and willing parties less any costs of disposal. Where the carrying amount of an asset (or cash-generating unit) exceeds its net recoverable amount, the asset (or cash-generating unit) is considered impaired and is written-down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or cash-generating unit).

An impairment loss is charged against operations in the period in which it arises.

An assessment is made at each reporting date as to whether there is any indication that the previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the net recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's net recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its net recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statements of income.

After such reversal, the depreciation expense is adjusted in future years to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

Fair Value Measurement

The Bank measures financial instruments, such as, financial assets and liabilities at FVPL, financial assets at FVOCI and net retirement liability which is measured at present value of the defined benefit obligation less fair value of plan assets, at fair value at each reporting date. Also, fair values of financial instruments measured at amortized cost and investment properties are disclosed in Note 6.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Bank.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

The fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

Fair Value Hierarchy

The Bank uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liabilities, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Bank determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External appraisers are involved for valuation of significant assets such as investment properties. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. In particular, the external appraisers must hold a recognized and relevant professional qualification and have recent experience in the location and category of the investment property being valued.

For the purpose of fair value disclosures, the Bank has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained in Note 6.

Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Bank and the income can be reliably measured. Revenue is measured at the fair value of the consideration received/receivable.

Determining whether the Bank is acting as a Principal or an Agent

The Bank assesses its revenue arrangements against the following indicators to determine whether it is acting as a principal or an agent:

- whether the Bank has primary responsibility for providing the services;
- whether the Bank has discretion in establishing prices; and
- whether the Bank has inventory risk before the specified good or service has been transferred to a customer or after transfer of control to the customer.

The Bank has determined that it is acting as a principal in its revenue arrangements except for activities where the Bank acts in a fiduciary or custodian capacity such as nominee, trustee, or agent. Income from fiduciary and custodianship activities are included under "Service charges, fees and commission" account in the statements of income.

The following specific recognition criteria must also be met before revenue is recognized:

Revenues Within the Scope of PFRS 15

The Bank earns fee and commission income from a diverse range of financial services it provides to its customers. Fee and commission income is recognized at an amount that reflects the consideration to which the Bank expects to be entitled in exchange for providing the services. The performance obligations, as well as the timing of their satisfaction, are identified, and determined, at the inception of the contract.

Service Charges and Penalties

Service charges and penalties are recognized only upon collection or accrued when there is reasonable degree of certainty as to its collectability. This arises from deposit-related processing transactions and charges from late payments on loans and drawing against insufficient funds of depositors.

Fees and Commissions

(i) Fee Income Earned from Services that are Provided over a Certain Period of Time

Fees earned for the provision of services over a period of time are accrued over that period. These include guarantee fees, credit related fees, investment fund fees, custodian fees, fiduciary fees, portfolio and other management fees. Commitment fees for facilities where a drawdown is not generally expected must be recognized over the facility period. If a drawdown is expected and the commitment expires without the Bank making the loan, the commitment fees are recognized as fee income on expiry of the scheduled drawdown.

(ii) *Fee Income Earned from Providing Transaction Services*

Fees arising from negotiating or participating in the negotiation of a transaction for a third party, such as underwriting fees and brokerage fees for the arrangement of the acquisition of shares or other securities are recognized on completion of the underlying transaction. Fees or components of fees that are linked to a certain performance obligation are recognized after fulfilling the corresponding criteria. Loan syndication fees are recognized in the statements of income when the syndication has been completed and the Bank retains no part of the loans for itself or retains a part of the loan at the same EIR as the other participants.

Discounts Earned and Awards Revenue on Credit Cards

Discounts received are taken up as income upon receipt from member establishments of charges arising from credit availments by the Bank's cardholders. These discounts are computed based on certain agreed rates and are deducted from the amounts remitted to the member establishments. These also include interchange income from transactions processed by Mastercard, a card network, and fees from cash advance transactions of cardholders.

The amount allocated to the loyalty program is deferred and recognized as revenue when the award credits expire or the likelihood of the customer redeeming the loyalty points becomes remote. Award credits under customer loyalty program are accounted for as a separately identifiable component of the transaction in which they are granted. The fair value of the consideration received in respect of the initial sale is allocated based on the estimated stand-alone selling prices. Income generated from customer loyalty program is included under 'Service charges, fees and commissions' in the statements of income.

Other Income

Income from the sale of services is recognized upon completion of the service. Income from sale of properties is recognized when control over properties transfers to the recipients, measured as the difference between the transaction price and the properties' carrying amounts and presented under "Gains on foreclosure and sale of property and equipment and foreclosed assets - net" account in the statements of income.

Revenues Outside the Scope of PFRS 15

Interest Income

Interest income is recognized in the statements of income for all financial assets measured at amortized cost and debt securities at FVOCI as they accrue, using the EIR. EIR is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or financial liability. The calculation takes into account all the contractual terms of the financial instruments including any fees or incremental costs that are directly attributable to the instrument and are integral part of the EIR, but not future credit losses. The EIR is established on initial recognition of the financial asset and liability and is not revised subsequently, except for repricing loans. The carrying amount of the financial asset or liability is adjusted if the Bank revises its estimates of payments or receipts. The change in carrying amount is recognized in the statements of income as interest income or expense.

Interest on interest-bearing financial assets at FVPL is recognized based on the contractual rate.

When a financial asset becomes credit-impaired and is, therefore, regarded as Stage 3 (as discussed in “Impairment of Financial Assets” above), the Bank calculates interest income by applying the EIR to the net amortized cost of the financial asset. If the financial asset cures and is no longer credit-impaired, the Bank reverts to calculating interest income on a gross basis.

Purchases by credit cardholders, collectible on an installment basis, are recorded at the cost of the items purchased plus a certain percentage of cost. The excess over cost is credited to ‘Unearned discount’ and is shown as a deduction from ‘Loans and receivables’ in the statements of financial position. The unearned discount is taken up to interest income over the installment term and is computed using the effective interest method.

Trading and Investment Securities Gains or Losses

Trading and investment securities gains or losses represent results arising from disposal of debt securities at FVOCI and trading activities (realized gains and losses) and from the changes in fair value of financial assets and liabilities at FVPL (unrealized gains or losses).

Dividends

Dividends are recognized when received or when the Bank’s right to receive the dividends is established.

Rental Income

Payments received under operating lease arrangements are recognized in the statements of income on a straight-line basis over the term of the lease.

Recovery on Charged-off Assets

Income arising from collections on accounts or recoveries from impairment of items previously written off is recognized in the statement of income in the year of recovery.

Expense Recognition

Expense is recognized when a decrease in future economic benefit related to a decrease in an asset or an increase in liability has arisen to the Bank and can be measured reliably.

Interest Expense

Interest expense for all interest-bearing financial liabilities is recognized in “Interest expense” account in the statements of income using the EIR of the financial liabilities to which they relate.

Other Expenses

Other expenses include losses and expenses that arise in the ordinary course of business of the Bank and are recognized when incurred.

Employee Benefits

Short-term Employee Benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Bank has presented legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Retirement Benefits

The Bank has a funded, noncontributory defined benefit plan administered by a trustee. A defined benefit plan is a pension plan that defines an amount of pension benefit that an employee will receive upon retirement, usually dependent on one or more factors such as age, years of service and compensation. The retirement cost is generally funded through payments to a trustee-administered fund, determined by annual actuarial calculations.

The retirement benefits liability recognized in the statements of financial position in respect of the defined benefits retirement plan is the present value of the defined benefits obligation at the valuation date less the fair value of plan assets. The defined benefits obligation is calculated annually by an independent actuary using the projected unit credit method. When the calculation results in a potential asset for the Bank, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan.

The present value of the defined benefits obligation is determined by discounting the estimated future cash outflows using interest rate on high quality government bonds that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating the terms of the related retirement liability.

Remeasurements of the defined benefit liability, which include actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in OCI. The Bank determines the net interest expense (income) on the retirement benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the retirement benefit liability (asset), taking into account any changes in the retirement liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to the defined benefit plan are recognized in the statements of income.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in the statements of income. The Bank recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Equity

"Capital Stock" is recorded at par for all shares issued and outstanding.

"Paid-in Surplus" represents the proceeds in excess of par value. Incremental costs incurred which are directly attributable to the issuance of new shares are charged to *"Paid-in surplus"*.

"Retained Earnings (Deficit)" represents the accumulated earnings (losses) of the Bank.

"Surplus Reserves" represent the appropriation of retained earnings in relation to allowance for credit losses which are less than the 1.0% general provision prescribed by the BSP for regulatory purposes, 10.0% of the Bank's profit from trust business, and self-insurance of the Bank.

Leases

At inception of a contract, the Bank assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for a consideration.

Bank as Lessee

At the commencement or upon modification of a contract that contains a lease component, the Bank allocates the consideration in the contract to each lease component on the basis of its relative standalone price. However, for leases of branches and office premises, the Bank has elected not to separate non-lease components and accounts for the lease and non-lease components as a single lease component.

The Bank recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, and subsequently at cost less accumulated depreciation and any impairment losses, adjusted for certain remeasurements of the lease liability. Cost comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct cost incurred and an estimate of costs to dismantle and remove any improvements made. The right-of-use asset is subsequently depreciated using straight-line method from the commencement date to the end of the lease term.

The lease liability is initially measured at the present value of lease payments that are not paid at the commencement date, discounted using the Bank's incremental borrowing rate.

The Bank determines its incremental borrowing rate by analyzing its borrowings from various external sources and makes certain adjustments to reflect the terms of the lease and type of asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Bank is reasonably certain to exercise, lease payments in an optional renewal period if the Bank is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Bank is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest method. It is subsequently increased by the interest cost on the lease liability and decreased by lease payment made. It is remeasured when there is a change in future lease payments arising from a change in an index rate, change in the estimate of the amount expected to be payable under a residual value guarantee, or as appropriate, changes in the assessment of whether a purchase, extension or termination option is reasonably certain not to be exercised or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Bank presents the right-of-use assets in “Property, Equipment and Right-of-Use Assets” while lease liabilities are included under “Other liabilities” in the statements of financial position.

Short-term Leases and Leases of Low-value Assets

The Bank has elected not to recognize right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including IT equipment. The Bank recognizes the lease payments associated with these leases as a rent expense on a straight-line basis over the lease term.

Bank as a Lessor

At the inception or upon modification of a contract that contains a lease component, the Bank allocates the consideration in the contract to each lease component on the basis of their relative stand-alone selling prices.

When the Bank acts as a lessor, it determines at lease inception whether the lease is a finance lease or an operating lease. To classify each lease, the Bank makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Bank considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

The Bank is a party to operating leases as a lessor. Initial direct costs incurred in negotiating operating leases are added to the carrying amount of the leased asset and amortized over the lease term on the same basis as the rental income. Contingent rentals are recognized as income in the period in which they are earned.

Income Tax Expense

Current Tax

Current income tax is the expected tax payable on the taxable income for the year using the tax rates enacted at the reporting date. The amount of current tax payable is the best estimate of the tax amount expected to be paid that reflects uncertainty related to income taxes, if any.

Deferred Tax

Deferred tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences, carryforward benefits of unused tax credits from the excess minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) and unused net operating loss carry-over (NOLCO) to the extent that it is probable that taxable income will be available against which the deductible temporary differences and carryforward benefits of unused MCIT and unused NOLCO can be utilized. Deferred tax, however, is not recognized when it arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized.

Deferred tax assets and deferred tax liabilities are measured at the tax rates that are applicable to the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. These reflect uncertainty related to income taxes, if there is any.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to offset current tax assets against current tax liabilities and deferred taxes relate to the same taxable entity and the same taxation authority.

Provisions

Provisions are recognized when the Bank has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Bank expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is charged to current operations, net of any reimbursement. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense.

Contingent Assets and Liabilities

Contingent liabilities are not recognized in the financial statements but are disclosed in the notes to the financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but are disclosed in the notes to the financial statements when an inflow of economic benefits is probable.

Related Parties

Parties are considered to be related if one party has the ability, directly or indirectly, to control or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control. Related parties may be individual or corporate entities.

Events After the Reporting Date

Post year-end events that provide additional information about the Bank's position at the reporting date (adjusting events) are reflected in the financial statements. Post year-end events that are not adjusting events are disclosed in the notes to the financial statements when material.

Fiduciary Activities

Assets and income arising from fiduciary activities together with related undertakings to return such assets to customers are excluded from the financial statements where the Bank acts in a fiduciary capacity such as nominee, trustee or agent.

Amendments to Standards Issued but Not Yet Adopted

A number of amendments to standards are effective for annual periods beginning after January 1, 2024. However, the Bank has not early adopted the following new or amended standards in preparing these financial statements. Unless otherwise stated, none of these are expected to have significant impact on the Bank's financial statements.

Effective January 1, 2025

- *Lack of Exchangeability (Amendments to PAS 21 The Effects of Changes in Foreign Exchange Rates)*. The amendments clarify that a currency is exchangeable into another currency when a company is able to obtain the other currency within a time frame that allows for a normal administrative delay and through a market or exchange mechanism in which an exchange transaction would create enforceable rights and obligations.

When a currency is not exchangeable, a company needs to estimate a spot rate. The objective in estimating the spot rate is to reflect the rate at which an orderly exchange transaction would take place at the measurement date between market participants under prevailing economic conditions. The amendments do not specify how to estimate the spot exchange rate to meet the objective and an entity can use an observable exchange rate without adjustment or another estimation technique.

The amendments require new disclosures to help users assess the impact of using an estimated exchange rate on the financial statements, including the nature and financial impacts of the currency not being exchangeable, the spot exchange rate used, the estimation process, and risks to the company because the currency is not exchangeable.

The amendments apply for annual reporting periods beginning on or after January 1, 2025. Earlier application is permitted. Comparative information is not restated and the effect of initially applying the amendments are adjusted to the opening balance of retained earnings, or to the cumulative amount of translation differences if the company uses a presentation currency other than its functional currency.

Effective January 1, 2026

- *Amendments to the Classification and Measurement of Financial Instruments (Amendments to PFRS 9 Financial Instruments and PFRS 7 Financial Instruments: Disclosures)*. The amendments relate to the date of recognition and derecognition, classification of financial assets, contractually linked instruments and non-recourse features, and disclosures on investments in equity instruments.

Date of recognition and derecognition. The amendments clarified that:

- a financial asset or financial liability is recognized on the date on which the entity becomes party to the contractual provisions of the instrument unless the regular way exemption applies;
- a financial asset is derecognized on the date on which the contractual rights to cash flows expire or the asset is transferred; and

- a financial liability is derecognized on the settlement date, which is the date on which the liability is extinguished because the obligation specified in the contract is discharged or cancelled or expires or the liability otherwise qualifies for derecognition.

However, the amendments provide an exception for the derecognition of financial liabilities where an entity may choose to derecognize a financial liability that is settled using an electronic payment system before the settlement date if, and only if, the entity has initiated the payment instruction that resulted in:

- the entity having no practical ability to withdraw, stop or cancel the payment instruction;
- the entity having no practical ability to access the cash to be used for settlement as a result of the payment instruction; and
- the settlement risk associated with the electronic payment system is insignificant.

Entities may choose to apply the exception on a system-by-system basis.

Classification of Financial Assets. The amendments related to classification of financial assets introduces an additional test to assess whether the solely payments of principal and interest (SPPI) criterion is met for financial assets with contingent features that are not related directly to a change in basic lending risks or costs.

The amendments clarified that when a contingent feature gives rise to contractual cash flows that are consistent with a basic lending arrangement both before and after the change in contractual cash flows, but the nature of the contingent event itself does not relate directly to changes in basic lending risks and costs, the financial asset has contractual cash flows that are SPPI if, and only if, in all contractually possible scenarios, the contractual cash flows would not be significantly different from the contractual cash flows on a financial instrument with identical contractual terms, but without such a contingent feature.

Additional disclosures are required for all financial assets and financial liabilities that have certain contingent features that are not related directly to a change in basic lending risks or costs and are not measured at fair value through profit or loss.

Contractually Linked Instruments and Non-recourse Features. The amendments clarify the key characteristics of contractually linked instruments (CLIs) and how they differ from financial assets with non-recourse features. The amendments also include factors that a company needs to consider when assessing the cash flows underlying a financial asset with non-recourse features (the 'look through' test). For example, it clarifies that a financial asset has non-recourse features if an entity's ultimate right to receive cash flows is contractually limited to the cash flows generated by specified assets; that CLIs have non-recourse features, but not all financial assets with non-recourse features are CLIs; and that the underlying pool of instruments of CLIs may include financial assets outside the scope of IFRS 9.

Disclosures on investments in equity instruments. The amendments require additional disclosures for investments in equity instruments that are measured at fair value with gains or losses presented in other comprehensive income (FVOCI). The entity discloses for each class of investment the fair value gain or loss presented in other comprehensive income during the period, showing separately the fair value gain or loss related to investments derecognized during the reporting period and the fair value gain or loss related to investments held at the end of the reporting period. It also discloses any transfers of the cumulative gain or loss within equity during the reporting period related to investments derecognized during that reporting period.

The amendments apply for reporting periods beginning on or after January 1, 2026. Earlier application is permitted. Entities may choose to early-adopt the amendments for the recognition and derecognition of financial assets and financial liabilities separately from the other amendments.

- *Gain or Loss on Derecognition (Amendments to PFRS 7 Financial Instruments: Disclosure).* The amendments replaced the reference to 'inputs that were not based on observable market data' in the obsolete paragraph 27A of PFRS 7, with reference to 'unobservable inputs' in paragraphs 72-73 of PFRS 13 Fair Value Measurement.
- *Introduction, Disclosure of Difference Between Fair Value and Transaction Price, and Credit Risk Disclosures (Amendments to Guidance on implementing PFRS 7 Financial Instruments: Disclosure).* The amendments:
 - clarified that the Guidance on implementing PFRS 7 does not necessarily illustrate all the requirements in the referenced paragraphs of PFRS 7;
 - made the wordings on the disclosure of deferred difference between fair value and transaction price in paragraph IG14 of PFRS 7 consistent with the requirements in paragraph 28 of PFRS 7 and with the concepts in PFRS 9 Financial Instruments and PFRS 13 Fair Value Measurement; and
 - simplified the wordings on credit risk disclosures in paragraph IG20B that the illustration does not include financial assets that are purchased or originated credit impaired.
- *Derecognition of Lease Liabilities and Transaction Price (Amendments to PFRS 9 Financial Instruments).* The amendments:
 - added a cross-reference to clarify that when a lessee has determined that a lease liability has been extinguished in accordance with PFRS 9, the lessee applies the requirement that the difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, shall be recognized in profit or loss; and
 - replaced the term 'their transaction price (as defined in IFRS 15)' with 'the amount determined by applying IFRS 15' because a receivable might be initially measured at an amount that differs from the transaction price recognized as revenue, for example, when you recognize full amount for consideration that's unconditionally receivable but at the same time recognize expected refund liability with respect to retrospective rebates. Consequently, the definition of the transaction price has been deleted.

- *Cost Method (Amendments to PAS 7 Statement of Cash Flows)*. The amendments replaced the term 'cost method' with 'at cost' given the definition of 'cost method' has previously been removed from PFRS Accounting Standards.

The amendments apply for annual reporting periods beginning on or after January 1, 2026. Earlier application is permitted. The amendment on derecognition of lease liabilities applies only to lease liabilities extinguished on or after the beginning of the annual reporting period in which the amendment is first applied.

Effective January 1, 2027

- PFRS 18, *Presentation and Disclosure in Financial Statements* will replace PAS 1 *Presentation of Financial Statements* and applies for annual reporting periods beginning on or after 1 January 2027. The new standard introduces the following key new requirements:
 - Entities are required to classify all income and expenses into five categories in the statement of income: operating, investing, financing, discontinued operations and income tax categories. Entities are also required to present a newly-defined operating profit subtotal. Entities' net profit will not change.
 - Management-defined performance measures (MPMs) are disclosed in a single note in the financial statements.
 - Enhanced guidance on how to group information in the financial statements.

In addition, all entities are required to use the operating profit subtotal as the starting point for the statement of cash flows when presenting operating cash flows under the indirect method.

The Bank is still in the process of assessing the impact of the new standard, particularly with respect to the structure of the Bank's statement of income, the statement of cash flows and the additional disclosures required for MPMs. The Bank is also assessing the impact on how information is grouped in the financial statements, including for items currently labeled as "other".

4. Critical Judgments and Estimates

The preparation of financial statements in conformity with PFRS Accounting Standards requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses, and disclosures of contingent assets and contingent liabilities. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Significant Judgments

In the process of applying the Bank's accounting policies, management has made the following significant judgments, apart from those involving estimations, which may have the most significant effect on amounts recognized in the financial statements:

a) Leases

Bank as Lessee

The Bank leases properties, land and buildings for the premises it uses for its operations.

The Bank recognizes right-of-use assets and lease liabilities for most leases - on-balance sheet leases. However, the Bank has elected not to recognize right-of-use assets and lease liabilities for leases involving assets of low value. The same policy is likewise applied for short-term leases. The Bank recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Significant judgment is exercised by the Bank in determining the discount rate to be used in calculating the present value of right-of-use assets and lease liabilities. The discount rate is represented by the incremental borrowing rate which is Bloomberg Valuation (BVAL) rate and credit spread as determined by the Bank.

The carrying amounts of right-of-use assets and lease liabilities are disclosed in Notes 14 and 22, respectively.

Bank as Lessor

The Bank has entered into commercial property lease agreements for its property and equipment, and investment properties. The Bank has determined that it retains all the significant risks and rewards of ownership of these properties which are leased out under operating lease agreements.

In determining whether or not a lease should be treated as an operating lease, the retention of ownership title to the leased property, period of lease contract relative to the estimated economic useful life of the leased property and bearer of executory costs, among others, are considered.

b) Business Model Assessment

The Bank manages its financial assets based on the business models that maintain adequate level of financial assets to match its expected cash outflows, largely arising from customers' withdrawals and continuing loan disbursements to borrowers, while maintaining a strategic portfolio of financial assets for investing and trading activities consistent with its risk appetite.

The Bank developed business models which reflect how it manages its portfolio of financial instruments. The Bank's business models need not be assessed at entity level or as a whole but shall be applied at the level of a portfolio of financial instruments (i.e., group of financial instruments that are managed together by the Bank) and not on an instrument-by-instrument basis (i.e., not based on intention or specific characteristics of individual financial instrument).

In determining the classification of a financial instrument under PFRS 9, the Bank evaluates in which business model a financial instrument or a portfolio of financial instruments belong to, taking into consideration the objectives of each business model established by the Bank. The level of aggregation at which the business model is applied is based on the specific activities being undertaken by each business unit of the Bank to achieve its stated objectives and other relevant factors such as risks affecting the business model, key performance indicators in evaluating the business model, and how managers of the business are compensated.

The Bank assesses the performance of each business model by considering the activities undertaken by the business models, placing the appropriate key performance indicators and monitoring the frequency of sales activities. PFRS 9 emphasizes that if more than an infrequent and more than an insignificant sale is made out of a portfolio of financial assets carried at amortized cost, an entity should assess whether and how such sales are consistent with the objective of collecting contractual cash flows. In making this judgment, the Bank considers facts and circumstances present to assess whether an increase in the frequency or value of sales of financial instruments in a particular period is not necessarily inconsistent with a hold-to-collect business model and whether the Bank can explain the reasons for those sales and why those sales do not reflect a change in the Bank's objective for the business model.

c) Testing the Cash Flow Characteristics of Financial Assets

In determining the classification of financial assets under PFRS 9, the Bank assesses whether the contractual terms of the financial assets give rise on specified dates to cash flows that are SPPI on the principal outstanding, with interest representing time value of money and credit risk associated with the principal amount outstanding. The assessment as to whether the cash flows meet the test is made in the currency in which the financial asset is denominated. Any other contractual term that changes the timing or amount of cash flows (unless it is a variable interest rate that represents time value of money and credit risk), i.e., cash flows that are non-SPPI, does not meet the amortized cost and FVOCI criteria. In cases where the relationship between the passage of time and the interest rate of the financial instrument may be imperfect, known as modified time value of money, the Bank assesses the modified time value of money feature to determine whether the financial instrument still meets the SPPI criterion. The objective of the assessment is to determine how different the undiscounted contractual cash flows could be from the undiscounted cash flows that would arise if the time value of money element was not modified (the benchmark cash flows). If the resulting difference is significant, the SPPI criterion is not met. In view of this, the Bank considers the effect of the modified time value of money element in each reporting period and cumulatively over the life of the financial instrument.

d) Functional Currency

PAS 21, *The Effects of Changes in Foreign Exchange Rates*, requires management to use its judgment to determine the entity's functional currency such that it most faithfully represents the economic effects of the underlying transactions, events and conditions that are relevant to the entity. In making this judgment, the Bank considers the following:

- the currency that mainly influences sales prices for financial instruments and services;

- the currency in which funds from financing activities are generated; and
- the currency in which receipts from operating activities are usually retained.

Based on the economic substance of the underlying circumstance relevant to the Bank, the functional currency of the Bank's RBU book of accounts and FCDU book of accounts have been determined to be PHP and USD, respectively.

PHP and USD are the currencies of the primary economic environment in which the Bank operates. These are the currencies that mainly influence the income and costs arising from the Bank operations.

e) *Provisions and Contingencies*

The Bank, in the ordinary course of business, sets up appropriate provisions for its present legal or constructive obligations in accordance with its policies on provisions and contingencies. Judgment is exercised by management to distinguish between provisions and contingencies (see Note 38).

Estimates

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are discussed below:

(i) *Expected Credit Losses on Financial Assets, Loan Commitments and Financial Guarantees*

The Bank reviews its financial assets at amortized cost and debt securities at FVOCI, loan commitments and financial guarantees to assess the amount of credit losses to be recognized in the statements of financial position at least on an annual basis or more frequently, as deemed necessary. The measurement of ECL under PFRS 9 requires judgment, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining ECL and the assessment of a SICR. These estimates are driven by a number of factors, changes to which can result in different levels of allowances.

The ECL methodology of the Bank is regularly recalibrated to improve the accuracy of the ECL models using updated data. Significant factors affecting the estimates on the enhanced ECL model include:

- The default and credit impaired financial assets are aligned across all credit portfolios;
- PD segmentation is based on the staging criteria (i.e., delinquency age buckets, internal credit risk ratings and loan status);
- The LGD takes into account post-default relevant information such as cost of recoveries and curing rate. LGD is adjusted to its present value of expected cash flows using risk-adjusted interest rate. The final LGD estimates are pooled by collateral type;
- EAD estimates consider (a) time horizon for which EAD needs to be estimated, (b) projected cash flows until the estimated point of default and (c) remaining loan term;

- The Bank uses three economic scenarios to arrive at probability-weighted ECL estimates. These scenarios represent a most likely outcome (that is, the 'Baseline' or central scenario) and two less likely scenarios on the either side of the central (that is, the 'Optimistic' and 'Pessimistic', respectively). The scenario weights are developed based on the relative frequency distribution of historical GDP data. Both the 'Optimistic' and 'Pessimistic' scenarios reflect the lower and upper levels whereas the 'Baseline' scenario represents the central distribution; and
- The impact of Covid-19 has been appropriately incorporated in the impairment allowance calculation using more recent data. The Bank has updated the macroeconomic expectations in the model to consider the effects of Covid-19 pandemic situation.

In 2023, the Bank recalibrated the ECL framework. Updates on the ECL parameters involved the following:

- The most recent data were applied for PD, LGD and EAD.
- The following information were incorporated in LGD:
 - Recovery information for Corporate & Consumer
 - Collection fees for Auto and Housing
- Additional PD and EAD segmentation were considered.
- Account-level discounting factor was applied.
- The Macroeconomic Factors (MEF) were tested and updated based on the recalibration. The updated MEFs include Remittances, Loan Performances, BVAL rates, VAPI, Stock Exchange Index, Exports, Consumer Outlook, FX rates, and GDP (Agriculture).

In 2024, the Bank refreshed the ECL framework. Updates on the ECL parameters involved the following:

- The most recent data were applied for probability of default (PD), loss given default (LGD) and exposure at default (EAD);
- LGD estimates for corporate loans were updated; and
- The macroeconomic factors (MEFs) were tested and updated based on the incremental data during refresh. The updated MEFs include Remittances, Loan Performances, Value of Production Index (VAPI), Stock Exchange Index, Consumer Outlook, Foreign Exchange rates, Employment Index & Unemployment rate and Gross Domestic Product (Exports and Agriculture).

Refer to Notes 3 and 5 for the detailed discussions of the inputs, assumptions and estimation uncertainty used in measuring ECL under PFRS 9. The related allowance for credit losses subject to ECL are disclosed in Note 17.

(ii) *Fair Value of Financial Instruments*

Where the fair values of financial assets and liabilities (including derivatives) recognized in the statements of financial position cannot be derived from active markets, these are determined using a variety of valuation techniques that include the use of mathematical models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. These estimates may include consideration of liquidity, volatility and correlation. Changes in assumptions about these factors could affect the reported fair values of financial instruments.

(iii) Impairment of Investment in an Associate and Non-financial Assets

Investment in an Associate, Property, Equipment and Right-of-Use Asset, Investment Properties, Other Properties Acquired, and Intangible Assets under "Other Assets"

The Bank assesses impairment on assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The factors that the Bank considers important which could trigger an impairment review include the following:

- a) significant underperformance relative to expected historical or projected future operating results;
- b) significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- c) significant negative industry or economic trends.

The Bank recognizes an impairment loss whenever the carrying amount of an asset exceeds its net recoverable amount. Net recoverable amounts are estimated for individual assets or, if it is not possible, for the cash-generating unit to which the asset belongs.

The carrying values of investment in an associate, property, equipment and right-of-use assets, investment properties, other properties acquired and intangible assets under "Other Assets" are disclosed in Notes 13, 14, 15 and 16, respectively.

(iv) Estimated Useful Lives of Property and Equipment, Investment Properties, Other Properties Acquired and Software Costs

The useful lives and depreciation and amortization method are reviewed periodically to ensure that the period and method of depreciation and amortization are consistent with the expected pattern of economic benefits from property and equipment and computer software.

The estimated useful lives of property and equipment, investment properties, other properties acquired and software costs are disclosed in Note 3.

(v) Recognition of Deferred Tax Assets

Deferred tax assets are recognized for all unused tax losses to the extent that it is probable that sufficient taxable income will be available against which the related tax benefits can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the forecasted timing and amount of future taxable income together with future tax planning strategies.

The estimates of future taxable income indicate that certain temporary differences will be realized in the future. The recognized and the unrecognized deferred tax assets are disclosed in Note 32.

(vi) Present Value of Retirement Benefit Obligation

The cost of retirement benefits and other post-employment benefits are determined using actuarial valuation. The actuarial valuation involves making assumptions about discount rates, future salary increases and mortality rates. Due to the long-term nature of the plan, such estimates are subject to significant uncertainty.

The assumed discount rates were determined using the prevailing market yields on Philippine government bonds with terms consistent with the expected employee benefit payout as at reporting date. The present value of the Bank's retirement obligation and the fair value of plan assets are disclosed in Note 29.

(vii) Contingencies

The Bank is currently involved in various legal proceedings. The probable costs for the resolution of these proceedings have been estimated by management, in consultation with the legal counsels handling the Bank's legal defense in these matters, and is based upon an analysis of potential results.

Management currently does not believe that these proceedings will have a material adverse effect on the Bank's financial position. It is possible, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of the strategies relating to these proceedings (see Note 38).

5. Financial Risk Management Objectives and Policies

Introduction

The business of banking involves financial risks which must be measured, monitored and managed by an effective risk management system embedded throughout the whole organization. Effective risk management ensures that financial risks are properly identified, assessed, measured and managed. The diligent monitoring and management of all financial risks, notably credit, interest rate risk in the banking book (IRRBB), market and liquidity risk require the development of a risk-conscious culture that will influence daily business activities and decision-making.

The Bank believes that effective risk management will not only minimize potential or actual losses but will also optimize earnings by correctly pricing its products and services commensurate to the risks taken. Its risk mission and objectives are to consistently and accurately measure risks, to always consider risk and return in evaluating transactions and exposures while preserving and maintaining adequate risk-based capital and to ensure adequate returns on such capital. Risk mitigation strategies form an integral part of risk management activities.

Risk Management Structure

The BOD is ultimately responsible for identifying and controlling risks. However, there are separate independent units at the BOD and management levels, which are responsible for managing and monitoring financial risk.

Board of Directors

The BOD is primarily responsible for the sound governance of the Bank, promotion of the highest standards of ethics and integrity. It approves and oversees the implementation of the Bank's strategic objectives and establishes and maintains sound risk management system for the whole institution. The BOD approves and reviews the institutional tolerance for risks, business strategies and risk philosophy.

Executive Committee (Excom)

The Excom is primarily responsible for the evaluation, approval and/or endorsement to the BOD for approval, credit and real and other properties acquired (ROPA) sales proposals from Management. The Excom also evaluates and recommends for BOD approval new, amended or enhanced Bank policies, products or services. The Excom may also act on such specific matters within the competence of the BOD, as may be delegated by majority vote of the BOD, except on certain matters expressly reserved by law for stockholders' and/or for the BOD' action.

Corporate Governance Committee

The Corporate Governance Committee is tasked to assist the BOD in fulfilling its corporate governance responsibilities and in providing oversight in the implementation of the Bank's Compliance System. It is responsible for ensuring due observance of corporate governance principles and guidelines across the Bank.

Related Party Transactions Committee (RPTCom)

The RPTCom assists the BOD in fulfilling its responsibility of ensuring that transactions with related parties are arm's length. It covers proper identification of related parties, recording and vetting of transactions with them including disclosures in financial reports, which must be consistent with relevant legal and regulatory requirements, and Bank policies.

Audit Committee

The Audit Committee represents and assists the BOD in its general oversight of the Bank's financial reporting policies, practices and control and internal and external audit functions. It oversees the relationship with the independent external auditors, receives information and provides advice, counsel and general direction, as it deems appropriate, to management and the auditors, taking into account the information it receives, discussions with the auditors, and the experience of the Committee's members in business, financial and accounting matters.

Board Risk Oversight Committee (BROC)

The BROC, a sub-committee of the BOD, oversees the Bank's risk management system. It has the power to approve procedures for implementing risk and capital management policies. The BROC shall assist the BOD with its oversight function to identify and evaluate risk exposures, develop risk management strategies, implement and periodically review the risk management framework and promote a risk management culture in the Bank.

Risk Management Division (RSK)

The RSK is responsible for the creation and oversight of the Bank's corporate risk policy. It is responsible for making recommendations to the BOD on corporate policies and guidelines for risk measurement, management and reporting. It also reviews the system of risk limits, compliance to said limits and validates the reports of the risk-taking personnel. The RSK reports to the BROC.

Senior Executive Team (SET)

The SET brings together the Chief Executive Officer, Group Heads and select Division Heads of the Bank to discuss and take up policy and strategic issues vital to the Bank's business, shareholders, employees and long-term viability.

Asset Liability Management Committee (ALCO)

The ALCO is responsible for setting, developing and implementing the Bank's Asset Liability Management (ALM) and hedging policy. It also reviews the allocation of resources, pricing of products and foreign exchange position of the Bank.

Internal Capital Adequacy Assessment Process (ICAAP) Steering Committee (ICAAPcom)

The ICAAPcom is responsible for overseeing the Bank's ICAAP to ensure that mandated minimum capital requirements are met and that capital levels are sufficient to cover the Bank's risk exposures driven by its strategic plans.

Credit and Collections Committee (Crecom)

The Crecom plays a critical role in the credit approval process. It has the power to approve credit proposals of any sort, e.g. establishment, renewal, extension, increase/decrease, restructuring or settlement of a credit line or term loan (whether short or long) within its authority and to endorse those credit proposals which are beyond its authority to the Excom and/or the BOD. It has likewise the responsibility to ensure that credit accommodations to related parties falling below the materiality thresholds are granted on arms' length basis and are compliant with the set regulations. On top of these, the Crecom studies and deliberates proposals intended to adopt new credit policies or to amend existing ones or to offer new loan products or programs, prior to endorsement to the SET and Excom for approval.

Internal Audit Division

Internal Audit Division is an independent unit of the Bank that conducts objective assurance and consulting activities designed to add value and improve the Bank's operations. It helps the Bank accomplish its objectives by bringing a systematic, disciplined approach to examine, evaluate and improve the effectiveness of risk management, internal control and governance processes of the Bank. The Internal Audit Division reports to the Audit Committee.

Legal Services Division

The primary functions of the Bank's Legal Services Division are composed of rendering legal advice and document review to ensure that relevant laws are disseminated and complied with, the Bank's interest is duly protected, and identified risks are either eliminated or minimized and imparted to responsible units of the Bank. The Division also handles cases filed for and against the Bank.

Compliance Division

The Compliance Division is responsible for coordinating, monitoring and facilitating the Bank's compliance with regulatory requirements. It is responsible for implementing the Bank's Compliance Program and the Money Laundering and Terrorist Financing Prevention Program.

Risk Measurement and Reporting Systems

The Bank's capital adequacy is determined by measuring credit, market and operational risk exposures using standardized or basic approaches as suggested by BSP. Risk exposures are measured both individually and in aggregate amounts.

Risk measurements are done by respective risk-taking personnel and groups but are independently validated, analyzed and reported by the RSK.

Market risks are measured by mark-to-market and Value-at-Risk (VAR) analyses on the overall exposure, on a portfolio level, and on each individual financial instrument. These exposures are also subjected to stress testing using a variety of historical and hypothetical scenarios.

Quality of credit risks are measured via risk classifications of accounts using ICRRS together with BSP risk classification of borrowing accounts. The Bank's front office recommends the credit risk rating of borrowing accounts and classifications and allowance for losses including changes thereon, when necessary. All risk information is processed, analyzed and consolidated for proper reporting to the BOD through the BROC and Audit Committee, as well as the SET and various management committees of the Bank.

Actual and estimated risk exposures/losses at Treasury, Corporate, Consumer Business and Credit Cards, Operations and Information Technology, Trust and Branches are consolidated for regular reporting. Reports include, among others, portfolio mix, liquidity and maturity matching, interest rate matching, trading gains and losses, sensitivity and back-testing results, top borrowers, non-performing assets and loans, industry exposures, large exposures, fines and penalties, employee fraud cases, service level of major information technology systems and ATMs.

Risk Mitigation

To mitigate market risk exposures, other financial instruments are used to manage exposures resulting from changes in foreign currency and interest rate risk. The Bank also observes limits on positions, losses, and market sensitivities to contain these risk exposures.

The Bank maintains a capital adequacy ratio (CAR) of ten percent (10.0%) or better at all times, for regulatory compliance purposes.

Risk Concentration

The Bank manages loan concentration by controlling its mix of counterparties or borrowers in accordance with conditions permitted by regulators. Borrowers that are considered large in size are regularly monitored and reported to the BROC. Also, the limits for exposure on specific economic activity groups are in place allowing the Bank to maintain a strategic breakdown of credit risk of the different segments. Having these controls in place allows the Bank to proactively monitor exposure status and act upon limit breaches whenever necessary.

Credit Risk

The Bank considers credit risk as the possibility of loss arising from the counterparty's or customer's inability or unwillingness to settle his/her obligations on time or in full as expected or previously contracted.

The Bank has in place a credit policy manual that defines all practices, policies and procedures regarding loan activities from identification of target markets, credit initiation, documentation and disbursement, loan administration, remedial management, and loan unit organization and staffing. Also, it has in place credit approval authorities and respective limits duly approved by the BOD.

The Bank's primary element of credit risk management is the detailed risk assessment of every credit exposure associated with the counterparty. Risk assessment procedures consider both the creditworthiness of the counterparty and the risks related to the specific type of underlying credit exposures as mandated by the circulars issued by BSP. The risk assessment not only affects the structuring of the transaction and the outcome of the credit decision, but also influences the monitoring procedure applied to the ongoing exposures.

There has been no material change on the Bank's exposure to credit risk or the manner in which it manages and measures the risk.

Derivative Financial Instruments

The Bank enters into currency forward contracts to manage its foreign exchange risks. Currency forwards are contractual agreements to buy or sell a specified currency at a specific price and date in the future. These derivatives are accounted for as non-hedges, with the fair value changes being reported in the statements of income for the period under "Foreign exchange gains - net" account. Credit risk, in respect of derivative financial instruments, is limited to those with positive fair values, which are reported as "Financial assets at FVPL" account in the statements of financial position.

Credit-related Commitment Risks

The Bank makes available to its customers guarantees which may require the Bank to make payments on their behalf. Such payments are collected from customers based on the terms of the letters of credit. They expose the Bank to risks similar to loans and these are mitigated by the same control processes and policies.

Credit Risk Exposures

The table below shows the Bank's maximum exposure on receivables from customers and sales contract receivables, net of unearned interest income and allowance for credit losses, before and after collateral to credit risk as at December 31, 2024 and 2023:

| | December 31, 2024 | | December 31, 2023 | |

For the other financial assets, the carrying amounts represent the maximum exposure to credit risk as at December 31, 2024 and 2023.

As at December 31, 2024 and 2023, fair value of collaterals held for loans and receivables amounted to P18.5 billion and P105.5 billion, respectively.

The table below shows the Bank's maximum exposures, net of unearned interest income, relating to financial assets carried under Stage 3 as at December 31, 2024 and 2023:

| December 31, 2024 | | | | |

For the other financial assets carried under Stage 3, the carrying amounts represent the maximum exposure to credit risk as at December 31, 2024 and 2023.

Collaterals and Other Credit Enhancements

The amount and type of collateral required depend on the assessment of the credit risk of the borrower or counterparty. Guidelines are implemented regarding the acceptability of types of collateral valuation and parameters.

The main types of collaterals obtained are as follows:

- For securities lending and reverse repurchase transactions: cash or securities;
- For commercial lending: mortgages over real properties, inventory and trade receivables and chattel mortgages; and
- For retail lending: mortgages over real properties and financed vehicles.

Management monitors the market value of collateral and requests additional collateral in accordance with the underlying agreement, in the event that the value of the collateral depreciates due to various factors affecting the collateral.

It is the Bank's policy to dispose repossessed properties in the most expeditious manner possible. Sale is facilitated by offering incentives to the Bank's accredited brokers and/or formulating programs to attract buyers like offering fixed interest rates for an extended period of time and reduced rates for down payment as compared to prevailing market rates, among others.

Credit Quality Per Class of Financial Assets

The credit quality of financial assets is assessed and managed by the Bank using both external and internal credit ratings. The Bank's ICRRS is an established tool used to evaluate the Credit Risk associated with each borrower. The ICRRS assigns a score to each account based on a combination of quantitative and qualitative factors. The scores assigned to each obligor is equivalent to the risk associated to each individual. The scoring model is reviewed and validated by external parties regularly to ensure that the model is risk ranking properly. The risk rating is used as one of the measures of the Bank's risk appetite and as a factor in impairment calculation.

Based on the evaluation of the facility risk factor (FRF), the borrower risk rating (BRR) can be upgraded or downgraded to come up with the final credit risk rating (CRR). Such CRR is eventually used in the determination of the ECL.

BRR Disclosure

In compliance with BSP, the Bank implemented a credit risk classification that is compliant with global rating standards. The BRR is the evaluation of the credit worthiness of an existing or prospective borrower. The account is evaluated independent of any influence from any transactional factors. The BRR measures the borrower's credit quality by looking into three major aspects, namely, financial condition, industry analysis and management quality. The financial condition is assessed by the Bank through financial ratio analysis based on the latest available financial information of the borrower. The Bank performs industry analysis by reviewing actual and expected significant changes in the political, regulatory, and technological environment of the borrower or in its business activities. Management quality is assessed by reviewing the experience and quality of management and management's business strategy. In addition, management's business planning and management of banking relationship are also considered. Each section is given the following point allocation:

| Section | Maximum Points | Section Rating |
|---------------------|-----------------------|-----------------------|
| Financial Condition | 240 | 40% |
| Industry Analysis | 210 | 30% |
| Management Quality | 150 | 30% |
| TOTAL | 600 | 100% |

There are several rating factors per section which can earn points depending on the four (4) quality judgment levels as follows:

| | |
|------------------|-------------|
| Good | - 30 points |
| Satisfactory | - 20 points |
| Still acceptable | - 10 points |
| Poor | - 0 point |

If there is no available information for a specific factor, a rating of "Poor" will be given.

The BRR is used to determine the credit quality of the Bank's corporate accounts. Loan accounts are classified according to a 1 -10 rating scale based on BRR results, as follows:

| | Final Score | Equivalent Risk Rating | Calculated BRR |
|-------------------|-------------|------------------------|----------------|
| High Grade | >177 | Excellent | 1 |
| | 150 - 176 | Strong | 2 |
| | 123 - 149 | Good | 3 |
| Standard Grade | 96 - 122 | Satisfactory | 4 |
| | 68 - 95 | Acceptable | 5 |
| | <68 | Watchlist | 6 |
| Substandard Grade | | Special Mention | 7 |
| | | Substandard | 8 |
| Impaired | | Substandard | 8 |
| | | Doubtful | 9 |
| | | Loss | 10 |

High Grade or accounts with BRR of 1-3 are loans where the risk of the Bank are good to excellent in terms of risk quality and where the likelihood of the non-payment of obligation is less likely to happen.

Standard Grade or accounts with BRR of 4-6 are loans where the risk of the Bank ranges from satisfactory to acceptable with some form of weakness and where repayment capacity needs to be watched.

Substandard Grade or accounts with BRR of 7-8 are loans still in current status but observed to have potential weaknesses and require a closer observation than the accounts under the Standard rating since if weaknesses are uncorrected, repayment of the loan may be affected increasing the credit risk to the Bank.

Past due but not impaired are those accounts for which contractual principal and interest payments were past due but the Bank still believes that impairment is not appropriate on the basis of the level of security or collateral available and/or the stage of collection of amounts owed to the Bank.

Impaired accounts are loans classified by the Bank as Substandard, Doubtful and Loss where there are experiences of past due accounts and there are well-defined weaknesses where collection or liquidation of obligation may be or is already jeopardized.

Consumer loans portfolio and credit card receivables undergo credit scoring, which results in applications either being referred for further manual evaluation or declined. Receivables considered outside the main business lines of the Bank are considered unrated accounts, which include benefit loans, accounts receivable, accrued interest receivables, sales contract receivables and returned checks and other cash items (RCOCI).

The BRR can be subject to an upgrade/downgrade on the basis of the following:

Group Affiliation:

- (a) When a borrower belongs to a group of companies, it can be upgraded up to the rating of the parent company provided that the parent company has a BRR of 4 or better.

- (b) If the BRR of the subsidiary is better than the parent, a downgrade can be considered especially if the parent has a BRR of 5 or worse.
- (c) If the parent has a BRR of 5 or lower and the subsidiary was also rated 5 or worse, it can retain its own rating.
- (d) If there are criteria such as the medium and long-term outlook, special risks that can grievously affect the company and outweigh the other criteria, a possible downgrade can be considered.
- (e) Companies with rapid expansion without a strong driving force or only on account of a single customer are also potential for downgrading.

FRF:

- (a) The FRF is an adjustment in the BRR that considers the transactional influence. It takes into account the quality of each facility. It is important to note that a Borrower can have only 1 BRR but several FRF for its multiple facilities. FRF evaluates the different security arrangements; the quantity and the quality of the collateral cover for each facility.
- (b) Collaterals are assessed at the net realizable value in a liquidation scenario. In evaluating the worthiness of the collateral, the quality of the documentation and the possible subordination of the Bank's claim should also be considered.

The adjustment on the BRR based on the FRF will be based on the following:

| | |
|-----------|---|
| Upgrade | The facility is cash collateralized or covered by marketable securities |
| | Full collateralization of other assets |
| | 3 rd party guarantees in accordance with the BRR of the guarantor an upgrade should be set to the BRR of the guarantor |
| Downgrade | Borrower is a potential candidate for a downgrade if the facility is clean or a major part of the facilities are pledged to other creditors |

The following table shows the credit quality of loans and receivables, excluding unquoted debt securities (gross of allowance for credit losses and net of unearned interest income) as at December 31, 2024 and 2023 (amounts in thousands).

Loans with Renegotiated Terms

The contractual terms of a loan may be modified for a number of reasons, including changing market conditions, customer retention and other factors not related to a current or potential credit deterioration of the customer. The Bank renegotiates receivable from customers in financial difficulties to maximize collection opportunities and minimize the risk of default. The carrying amounts per class of loans and receivables whose terms have been renegotiated are as follows:

| | 2024 | 2023 |
|-----------------|---------------------|----------------|
| Term loans | P611,885,114 | P796,146,616 |

Impairment Assessment

The Bank recognizes credit losses on financial assets at amortized cost and debt securities at FVOCI based on whether it has had a significant increase in credit risk since initial recognition. ECLs are recognized in two (2) stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL).

For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

Liquidity Risk and Funding Management

Liquidity risk is the risk to the Bank's earnings and capital arising from its inability to meet funding requirements in a timely manner. To measure and monitor this risk, the Bank generates a report on future cash flows and liquidity on a daily basis. To ensure sufficient liquidity, the Bank has a set of internal limits incorporated in its annual budget that allocates a portion of its liabilities into cash, investment securities and other liquid assets. Concentration on a single funding source is also regularly monitored to control the Bank's reliance on a specific product or counterparty.

The Bank has available credit lines from various counterparties that it can utilize to meet sudden liquidity demands. It also maintains a portfolio of high quality liquid assets (HQLA) that can be converted to cash in a short period of time and with minimal loss incurred. This ensures compliance with Liquidity Coverage Ratio (LCR) as required by Basel III regulations. LCR checks if there is sufficient HQLA to offset short-term net outflows or short-term obligations under stressed conditions. The Bank also expands its sources of stable funds in order to support asset growth and meet the Net Stable Funding Ratio (NSFR) regulatory limit. NSFR ensures that the Bank is not overly reliant on short-term funding in funding its long-term assets. The Bank's liquidity position is assessed and managed under a variety of scenarios, giving due consideration to stress factors relating both to the market in general and to events specific to the Bank. A contingency funding plan, which covers quantitative and procedural measures, is in place and may be applied under different stress scenarios.

The Bank also manages its liquidity position through the monitoring of a Maximum Cumulative Outflow against a Board-approved limit. This process measures and estimates projected funding requirements that the Bank will need at specific time horizons.

There has been no material change to the Bank's exposure to liquidity and funding management risk or the manner in which it manages and measures the risk.

Interest Rate Risk in the Banking Book

The loans provided by the Bank to its borrowers are mostly funded by the deposits of its branch and corporate customers. The difference in the interest revenues from loans and the interest expense in servicing deposits provide the bulk of the Bank's Net Interest Income (NII). Aside from loans, interest revenue is also generated from holdings in debt securities, repurchase agreements (repo), and other interest-bearing assets. Occasionally, the Bank taps interbank loans and other sources of funding to supplement deposits, which are subject to additional interest expense.

The Bank utilizes Funds Transfer Pricing (FTP) as a mechanism to charge the asset businesses for funding (e.g., term loans, housing loans) and to compensate fund raisers (e.g., branch deposits). FTP helps units evaluate profitability and calculate returns upon deal origination. Furthermore, the FTP framework insulates them from interest rate risk. The Central Funding Unit (CFU), under the Treasury Management Group, manages the Bank's overall IRRBB. CFU is the first line of defense for both IRRBB and Liquidity Risk. While the Bank does not have intentions to hedge IRRBB via interest rate swaps in the short-term, it actively manages IRRBB by growing its sources of stable funds to match long-term assets.

The FTP policy is properly documented and is transparent to all parties. The FTP interest rates are anchored by widely-used and market-driven benchmark rates such as BVAL and BSP interest rate corridor rates for Peso; USD Secured Overnight Financing Rates and USD-denominated bonds issued by the Philippines for USD. Trends, forecasts, and adjustments to the FTP are discussed and approved in the regular ALCO meeting.

The NII, and ultimately earnings and capital, is vulnerable to adverse fluctuations in interest rates. The Bank also measures the sensitivity of its assets and liabilities to interest rate fluctuations by way of asset-liability gap analysis on a monthly basis. This analysis focuses on the repricing profile of its rate sensitive assets and liabilities, and the impact of interest rate movements on the Bank's accrual earnings. The interest rate repricing gap report assigns all assets and liabilities into various time buckets according to the remaining days to maturity for fixed-rate items, remaining days to next re-pricing for floating-rate items, or based on behavioral assumptions, if more applicable.

The difference between the total of the repricing (interest rate-sensitive) assets and repricing (interest rate-sensitive) liabilities gives an indication of the Bank's repricing risk exposure. A positive gap means more assets mature or have to be repriced than liabilities. In this case, the Bank is said to be "asset sensitive" in that time bucket and it benefits from an increase of interest rates as the assets will be repriced faster than liabilities.

A bank with a negative gap is considered “liability sensitive” since it has more liabilities to be repriced during such period than assets. It is negatively affected by a hike in interest rates. An example would be a bank that uses short-term deposits to fund long-term loans at fixed rates. It may encounter a decline in its net interest income if the interest rates increase since the cost of funds (the deposit rates) will increase while the earnings from loans remain fixed.

RSK monitors the mismatches in the repricing of its assets and liabilities through the interest rate gap reports presented to ALCO and BROCC on a monthly basis. To ensure that the Bank’s net interest income is preserved, the Bank has set a limit for the maximum repricing gap, either positive or negative, for tenors up to 1 year. These limits are reviewed annually and form part of the Bank’s risk appetite statements.

Non-maturing fixed-rate deposits or current-savings accounts (CASA) are split into three classifications: 1) stable and core deposits; 2) stable-but-non-core deposits and; 3) non-stable deposits. The volatile or non-stable portion of the non-maturing deposits/CASA is slotted in the shortest time-bucket (i.e., less than one month). Stable-but-non-core portion is slotted based on an assumed repricing approximation. Stable-and-core portion is slotted in the 3 to 5-year bucket. The IRRBB model captures the possibility of borrowers prepaying their loans and time deposit customers pre-terminating their investments. The interest rate scenario of the model simulates the impact of interest rate movements on existing loans and deposits. More (less) prepayment is expected if interest rates decline (increase), while more (less) pre-termination is expected if interest rates increase (decrease).

Earnings at risk is simulated on a monthly basis and subject to a limit approved by the Board. The report is also accompanied by stress testing with scenarios such as: 1) standard parallel yield curve shifts; 2) BSP-prescribed yield curve shifts; 3) steepening and inversion of the curves; and 4) timing mismatch in assets and liabilities repricing. Internal Audit conducts a regular validation of the IRRBB models and parameters in addition to the risk-based full scope audit of RSK, which includes a review and evaluation of the processes and controls, including governance and risk management activities.

The table below sets forth the Bank’s interest rate repricing gap as at December 31, 2024 and 2023 (amounts in millions).

The Bank manages interest rate risk separately for its RBU and FCDU books. The interest rate risk of the RBU of the Bank from its accounts is managed in PHP while the FCDU of the Bank, regardless of original currency, is managed in USD. The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the Bank's results of operations and OCI:

| December 31, 2024 | | | | |
|-------------------|---|--|--|----------------------------------|
| Currency | Changes in Interest Rates (In Basis Points) | Sensitivity of Net Interest Income (In Millions) | Sensitivity of Trading Gains - net on FA at FVPL (In Millions) | Sensitivity of OCI (In Millions) |
| PHP | 200 | P201.23 | (P218.13) | (P1,553.89) |
| USD | 100 | (5.25) | (39.35) | (74.30) |
| PHP | -200 | (201.23) | 218.13 | 1,553.89 |
| USD | -100 | 5.25 | 39.35 | 74.30 |

| December 31, 2023 | | | | |
|-------------------|---|--|--|----------------------------------|
| Currency | Changes in Interest Rates (In Basis Points) | Sensitivity of Net Interest Income (In Millions) | Sensitivity of Trading Gains - net on FA at FVPL (In Millions) | Sensitivity of OCI (In Millions) |
| PHP | +200 | P147.58 | (P5.67) | (P960.56) |
| USD | +100 | (0.35) | (9.43) | (79.95) |
| PHP | -200 | (147.58) | 5.67 | 960.56 |
| USD | -100 | 0.35 | 9.43 | 79.95 |

The sensitivity of the results of operations is measured as the effect of the assumed changes in interest rates on the net interest income for one year based on the floating rate of financial assets and liabilities held as at December 31, 2024 and 2023.

The sensitivity of “Trading and investment securities gains (losses) - net” and OCI is calculated by revaluing fixed-rate financial assets at FVPL and debt securities at FVOCI, respectively, as at December 31, 2024 and 2023. The total sensitivity of OCI is based on the assumption that there are parallel shifts in the yield curve, while the analysis by maturity band displays the sensitivity to non-parallel changes.

Market Risk

Market risk arises from the potential decline in earnings and capital due to adverse changes in market conditions and the underlying risk factors, which in turn affect the value and future cash flows of financial instruments, products, and transactions. The Bank is primarily exposed to two sources of market risk, namely: 1) market price risk in the trading book; and 2) foreign exchange risk from open foreign currency exposures. The Bank also has equity-related holdings which is a source of equity price risk, although deemed as minimal compared to the first two.

There has been no material change to the Bank’s exposure to market risk or the manner in which it manages and measures the risk.

Market Price Risk in the Trading Book

The market price of financial instruments and transactions in the trading book may change unfavorably as a result of movements in interest rates, foreign exchange rates, credit spreads, and other risk factors. The Bank employs an internally developed VAR model, along with other sensitivity metrics, to measure and monitor the probable deterioration in the market value of its trading portfolio. The Bank’s RSK simulates the trading book’s VAR on a daily basis and the results are compared against Board-approved limits. In addition to the limit on VAR, the trading portfolio is also subject to limits on aggregate exposures, sensitivity metrics, monthly and yearly losses.

Value-at-Risk Methodology

VAR serves as the Bank’s key metric in the measurement of risk arising from market price changes of financial assets and foreign currency exposures. Given data for the market risk factors over a 1-year period (260 business days), VAR is the maximum probable loss that may be incurred from positions exposed to market risk. The maximum probable loss is calculated from simulations of daily profit and losses assuming that historical movements in market risk factors will recur, subject to a 99% confidence level and a 1-day holding period.

The Bank’s VAR methodology is based on the widely used historical simulation method but with a modification on the usual assumption of equal probabilities in the simulation data points. Profit and loss simulations derived from older data are given less importance by assigning them with progressively lower probabilities of occurrence when used in the calculation of the maximum probable loss.

The table below summarizes the results of the Bank’s VAR calculations as at December 31, 2024 and 2023.

Currency Risk

The Bank's policy is to maintain foreign currency exposure within acceptable limits and within existing regulatory guidelines. The Bank believes that its profile of foreign currency exposure based on its assets and liabilities is within conservative limits for a financial institution engaged in a type of business similar to that of the Bank.

Foreign currency deposits are generally used to fund the foreign currency-denominated loan and investment portfolios in the FCDU. Banks are required by BSP to match the foreign currency liabilities held in the FCDU with foreign currency assets. In addition, BSP requires a 30.0% liquidity reserve on all foreign currency liabilities held in the FCDU.

Similar to market price risk in the trading book, the Bank employs limits and a VAR model to manage the risk that possible interest or currency movements pose. Such limits are prudently set and the position status is monitored on a daily basis.

The table below summarizes the Bank's exposure to foreign exchange risk as at December 31, 2024 and 2023. Included in the table are the Bank's assets and liabilities at carrying amounts, categorized by currency (based on USD equivalents in thousands):

The table below indicates the currencies which the Bank has significant exposure to as at December 31, 2024 and 2023 based on its foreign currency-denominated assets and liabilities and its forecasted cash flows. The analysis calculates the effect of a reasonably possible movement of other currency rates against the PHP, with all other variables held constant on the results of operations (due to the fair value of currency sensitive monetary assets and liabilities) and OCI. A negative amount in the table reflects a potential net reduction of net income or OCI while positive amount reflects a net potential increase. Changes in currency rates are based on the historical movements of each currency for the same period:

6. Categories and Fair Value Measurement

The methods and assumptions used by the Bank in estimating the fair values of financial and non-financial assets and liabilities are as follows:

COCI, Due from BSP and Other Banks and Interbank Loans Receivable and SPURA - Fair values approximate carrying amounts given the short-term nature of the instruments.

Debt Securities (Financial Assets at FVPL, Financial Assets at FVOCI, and Investment Securities at Amortized Cost) - Fair values are generally based on quoted market prices. If not readily available, fair values are estimated using either values obtained from independent parties offering pricing services or adjusted quoted market prices of comparable investments or using discounted cash flow methodology.

Equity Securities (Financial Assets at FVOCI) - Fair values are determined based on market prices quoted in an established exchange, or on published quotes by accredited brokers.

Derivative Instruments (Financial Assets and Financial Liabilities at FVPL) - Fair values are determined based on published quotes or price valuations provided by counterparties or calculations using market-accepted valuation techniques.

Loans and Receivables - The estimated fair values of long-term receivables from customers and sales contract receivables are equal to the estimated future cash flows expected to be received which are discounted using current market rates (i.e., BVAL and USD Secured Overnight Financing Rates). Fair value of short-term receivable from customers, sales contract receivables, accounts receivables, accrued interest receivables, and RCOI approximates carrying amounts given the short-term nature of the accounts.

Investment Properties - Fair value is determined based on valuations performed by external and in-house appraisers using the market data approach. Valuations are derived on the basis of recent sales of similar properties in the same area as the investment properties and taking into account the economic conditions prevailing at the time the valuations were made and comparability of similar properties sold with the property being valued. Significant unobservable inputs in determining the fair values include the following:

| | |
|--------------|---|
| Location | Location of comparative properties whether on a main road or secondary road. Road width could also be a consideration if data is available. As a rule, properties along a main road are superior to properties along a secondary road. |
| Size | Size of lot in terms of area. Evaluate if the lot size of property or comparable confirms to the average cut of the lots in the area and estimate the impact of lot size differences on land value. |
| Time Element | An adjustment for market conditions is made if general property values have appreciated or depreciated since the transaction dates due to inflation or deflation or a change in investor's perceptions of the market over time, in which case, the current date is superior to historic data. |
| Discount | Generally, asking prices in ads posted for sale are negotiable. Discount is the amount the seller or developer is willing to deduct from the posted selling price if the transaction will be in cash or equivalent. |

Deposit Liabilities - Fair values of long-term time deposits are estimated using the discounted cash flow methodology, where future cash flows are discounted using the current market rate (i.e., BVAL and USD Secured Overnight Financing Rates) and with maturities consistent with those remaining for the liability being valued. Carrying amounts of short-term time deposits approximate fair value. For demand and savings deposits, carrying amounts approximate fair values considering that these are currently due and demandable.

Bonds and Bills Payable - For long-term bonds and bills payable, fair values are estimated using the discounted cash flow methodology, where future cash flows are discounted using the current market rate (i.e., BVAL and USD Secured Overnight Financing Rate and with maturities consistent with those remaining for the liability being valued. Carrying amounts of short-term bonds and bills payable approximate fair value.

Manager's Checks, Accrued Interest and Other Expenses and Other Liabilities (excluding non-financial liabilities) - Carrying amounts approximate fair values due to the short-term nature of the accounts. Due to preferred shareholders is determined to be long term in nature due to a pending dispute which affects maturity. Fair value cannot be estimated reliably due to lack of available supportable data.

The following table provides the fair value hierarchy of the Bank's assets and liabilities measured at fair value and those for which fair values should be disclosed (amounts in thousands):

In 2024 and 2023, due to changes in market conditions for certain government securities measured at FVOCI, quoted prices in active markets were not available for these securities. However, there was sufficient information available to measure the fair values of these securities based on observable market inputs. Therefore, these securities at FVPL and FVOCI, with carrying amounts of P0.5 million and P4.8 billion, respectively, in 2024 and nil and P327.4 million, respectively, in 2023 were transferred from Level 1 to Level 2 of the fair value hierarchy.

In 2024, securities at FVPL and FVOCI, with carrying amount of P141.6 million and P56.6 million, respectively, were transferred from Level 2 to Level 1 of the fair value hierarchy since quoted prices in active markets were already available. In 2023, securities at FVOCI, with carrying amounts of P394.3 million, were transferred from Level 2 to Level 1 of the fair value hierarchy.

In 2024 and 2023, there have been no transfers into and out of Level 3 of the fair value hierarchy.

An instrument in its entirety is classified as Level 3 if a significant portion of the instrument's fair value is driven by unobservable inputs. Unobservable in this context means that there is little or no current market data available from which the price at which an arm's length transaction would be likely to occur can be derived. The fair value of the Level 3 instruments is based on cost which approximates its fair value.

The carrying values of the financial assets and liabilities not included in the fair value hierarchy table shown above approximate their respective fair values as at December 31, 2024 and 2023.

7. Segment Reporting

The Bank's operating businesses are recognized and managed separately according to the nature of services provided and the different markets served, with each segment representing a strategic business unit. Operating segments are reported in accordance with internal reporting to SET who is responsible for allocating resources to the segments and assessing their performance. Segment performance is evaluated based on net income before provision/reversal of credit and impairment losses, share in net loss of an associate, and income tax expense. The Bank's business segments follow:

Treasury Management Group - principally provides money market, trading and treasury services, as well as management of the Bank's funding operations by use of treasury bills, government securities and placements and acceptances with other banks.

Corporate Banking Group - principally handles loans and other credit facilities for corporate institutional, and middle market clients.

Branch Banking Group - principally supervises customers' deposits and offers standard customer transactional services through the branch network.

Consumer Group - principally manages home, automobile, and salary loans for individual customers.

Others - includes but not limited to Credit Cards, Transaction Banking, Investment Banking, Trust, and Acquired Assets. Other operations of the Bank also include operations and financial control groups.

Segment assets and liabilities comprise operating assets and liabilities, including borrowings. Revenues and expenses that are directly attributable to a particular business segment and the relevant portions of the Bank's revenues and expenses that can be allocated to that business segment are accordingly reflected as revenues and expenses of that business segment. Transactions between the business segments are carried out at arm's length. The Bank uses an Internal Funds Transfer Pricing rate to allocate the cost of funds or to recognize internal revenue for deposit takers. The Bank has no significant customers which contributes 10.00% or more of the Bank's revenue net of interest expense. Internal charges and transfer pricing adjustments have been reflected in the performance of each business.

The segment information of the Bank for the years ended December 31, 2024, 2023 and 2022 for statements of income items, and as at December 31, 2024 and December 31, 2023 for statements of financial position items follow (amounts in millions):

General and administrative expenses consist of rent and utilities, depreciation and amortization, insurance, service fees and commissions, subscription fees, entertainment and recreation, management and professional fees, amortization of software costs and miscellaneous expense.

8. Interbank Loans Receivable and Securities Purchased under Resale Agreements

This account consists of:

| | Note | 2024 | 2023 |
|----------------------------------|------|-----------------------|-----------------|
| Interbank loans receivable | | P3,587,849,088 | P2,141,147,187 |
| SPURA | | - | 17,973,348,893 |

| | | P3,587,364,728 | P20,111,780,623 |

Interbank loans receivable consists of short-term loans granted to other banks.

SPURA represents overnight lending placements with the BSP where the underlying securities cannot be sold or re-pledged to parties other than the BSP.

Interest income on SPURA and interbank loans receivable follows:

| | 2024 | 2023 | 2022 |
|----------------------------|---------------------|--------------|--------------|
| SPURA | P430,247,101 | P746,318,560 | P475,286,408 |
| Interbank loans receivable | 111,800,877 | 129,387,516 | 63,872,487 |
| | P542,047,978 | P875,706,076 | P539,158,895 |

SPURA bears interest rates ranging from 5.9% to 6.7% in 2024, from 5.5% to 6.4% in 2023 and from 2.0% to 5.5% in 2022.

Peso-denominated interbank loans receivable bear interest rates ranging from 5.8% to 6.6% in 2024, from 5.5% to 6.5% in 2023 and from 1.8% to 5.0% in 2022. Dollar-denominated interbank loans receivable bear interest rates ranging from 4.2% to 5.8%, from 3.0% to 5.6%, and from 0.5% to 3.8% in 2024, 2023 and 2022, respectively.

9. Financial Assets and Liabilities at Fair Value through Profit or Loss

Financial assets at FVPL consist of:

| | 2024 | 2023 |
|--|-----------------------|--------------|
| Government securities held-for-trading | P2,782,360,563 | P180,602,626 |
| Derivative assets | 63,717,369 | 27,685,000 |
| Private debt securities | 29,555,862 | 190,504,814 |
| | P2,875,633,794 | P398,792,440 |

Private debt securities pertain to investment in MRT III bonds that does not qualify as SPPI, thus, mandatorily classified and measured as financial assets at FVPL.

As at December 31, 2024, 2023, and 2022, financial assets at FVPL are adjusted for unrealized loss of P1.0 million and unrealized gain of P22.8 million and P3.0 million, respectively (see Note 28).

Derivative Financial Instruments

This includes warrants amounting to \$0.05 million acquired by the Bank in June 2008. The warrants give the Bank the option or right to exchange its holding of certain Republic of the Philippines Global Bonds into peso-denominated government securities upon occurrence of a predetermined credit event. The warrants will mature in November 2032.

Forward swaps refer to spot purchase or sale of one currency against another with an offsetting agreement to sell or purchase the same currency at an agreed forward rate in the future. As at December 31, 2024, these pertain to 13 contracts with notional amount of \$5 million each and three contracts with notional amount of \$10 million each. As at December 31, 2023, these pertain to two contracts with notional amount of \$1.0 million each, two contracts with notional amount of \$5.0 million each and two contracts with notional amount of \$10.0 million each.

The table below shows the fair values of derivative financial instruments entered into by the Bank, recorded as derivative assets or derivative liabilities, together with the notional amount. The notional amount is the amount of a derivative's underlying asset, reference rate or index and is the basis upon which changes in the value of derivatives are measured. The notional amount indicates the volume of transactions outstanding as at December 31, 2024 and 2023 and is not indicative of either market risk or credit risk.

| | P19,078,633,835 | P11,043,804,828 |

As at December 31, 2024 and 2023, the ECL allowance on debt securities at FVOCI included under "Net unrealized losses on financial assets at FVOCI" amounted to P1.9 million and P1.1 million, respectively (see Note 17).

Equity Securities

This account consists of ordinary shares from a foreign financial institution and a telecommunications company and club shares. The Bank has designated these equity securities at FVOCI as these are held for medium or long-term strategic investments rather than for trading.

Equity securities include the Bank's 3.07% equity interest in Banco National de Guinea Equatorial (BANGE) as part of its partnership with the National Government of the Republic of Equatorial Guinea. The carrying amount of the equity securities amounted to P19.1 million and P19.4 million, respectively, as at December 31, 2024 and 2023. Dividend income received from BANGE in 2024 and 2023 amounted to P2.5 million and P4.0 million, respectively, booked under "Miscellaneous Income" in the statements of income (see Note 31). No dividend was received from BANGE in 2022.

In 2024, 2023, and 2022, the Bank disposed club shares with carrying value of P98.7 million, P0.9 million, and P0.8 million, respectively, and transferred to "Retained earnings" account the realized gain of P82.3 million, P7.5 million, and P0.3 million in 2024, 2023, and 2022, respectively, in order to achieve the bank's strategy to derecognize from the books club shares that were no longer in use.

Dividend income from equity securities at FVOCI amounted to P3.9 million, P5.6 million, and P1.6 million in 2024, 2023, and 2022, respectively (see Note 31).

Net Unrealized Losses on Financial Assets at FVOCI

Bills purchased, import bills and trust receipts include bills purchased with contra account in "Bills purchased - contra" under "Other Liabilities" in the statements of financial position amounting to P0.8 billion and P1.0 billion as at December 31, 2024 and 2023, respectively (see Notes 22 and 33). Bills purchased - contra represents liabilities arising from the outright purchases of checks due for clearing as a means of immediate financing offered by the Bank to its clients.

Other receivables from customers pertain to consumer loans such as benefit loans, salary loans, and credit cards.

Accounts receivable mainly consist of amounts due from customers and other parties under open-account arrangements, advances for buyers of foreclosed properties, receivables from employees and other miscellaneous receivables.

Sales contract receivables arise mainly from the sale of foreclosed properties booked under "Investment properties" accounts.

On March 25, 2020, Republic Act (RA) No. 11469, otherwise known as the Bayanihan to Heal as One Act ("Bayanihan 1") was enacted. Bayanihan 1 provides that all covered institutions shall implement a 30-day grace period for all loans with principal and/or interest falling due within the enhanced community quarantine period without incurring interest on interest, penalties, fees and other charges. Subsequently, on September 11, 2020, RA No. 11494, otherwise known as the Bayanihan to Recover as One Act ("Bayanihan 2"), was enacted. Under Bayanihan 2, a one-time 60-day grace period is granted for the payment of all existing, current and outstanding loans falling due, or any part thereof, on or before December 31, 2020, without incurring interest on interest, penalties, fees and other charges, thereby extending the maturity of the said loans.

Based on the Bank's assessment, the modifications in the contractual cash flows as a result of the above reliefs are not substantial and therefore do not result in the derecognition of the affected financial assets. The impact of loan modifications amounted to a loss of P29.6 million in 2020. In 2024, 2023 and 2022, accretion of loan modification that were recorded in "Interest income" in the statements of income amounted to P2.4 million, P3.4 million, and P5.1 million, respectively.

BSP considers that concentration of credit risk exists when the total loan exposure to a particular industry or economic sector exceeds 30.0% of total loan portfolio or 10.0% of Tier 1 capital.

As at December 31, 2024 and 2023, the table above includes one industry group (electricity, gas, steam and air-conditioning supply) above the 30.0% of the total loan portfolio. However, the Bank has internal sub-classifications for renewable and non-renewable energy under electricity and power industry with separate limits (for renewable energy- 25.0% of the total loan portfolio, non-renewable energy- 30.0%). Existing exposures as at December 31, 2024 and 2023 for this industry are within the acceptable levels. As at December 31, 2024, existing exposures for renewable energy and non-renewable energy were at 12.0% and 21.6%, respectively, of the total loan portfolio. As at December 31, 2023, existing exposures for renewable energy and non-renewable energy were at 14.9% and 20.8%, respectively, of the total loan portfolio.

As at December 31, 2024, 10.0% of the Tier 1 capital amounted to P3.0 billion and the table above includes the nine industry groups (Electricity, gas, steam and air-conditioning supply, Real estate activities, Construction, Manufacturing, Financial and insurance activities, Wholesale and retail trade, repair of motor vehicles and motorcycles, Information and communications, Agriculture, forestry and fishing and Accommodation and food service activities) exceeding this level as of that date.

The table also includes the six industry groups (Electricity, gas, steam and air-conditioning supply, Real estate activities, Manufacturing, Construction, Wholesale and retail trade, repair of motor vehicles and motorcycles and Information and communications) above the 10.0% of Tier 1 capital (P2.7 billion) as at December 31, 2023.

The BROC and CRECOM constantly monitor these credit risk concentrations to ensure these are within the risk appetite of the Bank. Limits are set to allow SET to highlight any possible issues and to actively direct loans to preferred industries when faced with emerging concentration and potential industry decline.

Under BSP Circular No. 941, *Amendments to the Regulations on Past Due and Non-Performing Loans*, loans, investments, receivables, or any financial asset shall be considered non-performing, even without any missed contractual payments, when it is considered impaired under existing accounting standards, classified as doubtful or loss, in litigation, and/or there is evidence that full repayment of principal and interest is unlikely without foreclosure of collateral, if any. All other loans, even if not considered impaired, shall be considered non-performing if any principal and/or interest are unpaid for more than 90 days from contractual due date, or accrued interests for more than 90 days have been capitalized, refinanced, or delayed by agreement.

As at December 31, 2024 and 2023, the breakdown of receivables from customers as to status, is as follows (amounts in thousands):

As at December 31, 2024 and 2023, restructured loans amounted to P0.9 billion and P1.0 billion, respectively. Restructured receivables which do not meet the requirements to be treated as performing receivables shall also be considered as NPLs. As at December 31, 2024 and 2023, restructured receivables from customers considered as NPLs amounted P668.2 million and P456.9 million, respectively.

On March 14, 2020, the BSP issued BSP Memorandum No. M-2020-008 Regulatory Reliefs for BSP-supervised financial institutions Affected by the COVID-19, as amended by M-2020-0032 dated April 27, 2020 and M-2020-0022 dated April 8, 2020. The said memorandum provides for certain temporary regulatory relief measures for financial institutions supervised by the BSP, as follows:

- Staggered booking of allowance for credit losses over a maximum of five years for all types of credits extended to individuals and businesses directly affected by COVID-19 as of March 8, 2020, subject to prior approval of the BSP;
- Exclusion from the computation of past due and non-performing classification, the loans by borrowers in affected areas which should have been reclassified as past due as of March 8, 2020, including those loans becoming past due or non-performing six months thereafter, subject to the following: (a) such loans shall be reported to the BSP; (b) the exclusion shall be allowed from March 8, 2020 until December 31, 2021; and (c) BSP documentary requirements for restructuring of loans may be waived provided that the Bank will adopt appropriate and prudent operational control measures;
- Non-imposition of monetary penalties for delays incurred in the submission of all supervisory reports to BSP due to be submitted from March 8, 2020 up to six months thereafter;
- Non-imposition of penalties on legal reserve deficiencies computed under Section 255 of the MORB starting from reserve week following March 8, 2020 up to six months thereafter, subject to prior approval of the BSP;
- Increase in the Single Borrower's Limit from 25.0% to 30.0% until March 31, 2021;
- Allowance of (a) loans to Micro, Small and Medium Enterprises and (b) loans to critically-impacted large enterprises as alternative mode of compliance with reserve requirements until December 31, 2021; and
- Provision of financial assistance to officers affected by the present health emergency, for the grant of loans, advances or any other forms of credit accommodations, subject to the submission by the Bank of a request for BSP approval within 30 calendar days from the approval thereof of the BOD.

As of December 31, 2024 and 2023, there has been no availment of the reliefs provided by BSP.

Miscellaneous Assets - TRB

This account includes non-performing assets (NPAs) amounting to P4.3 billion as at December 31, 2024 and 2023 which were assumed by the Bank in connection with the Purchase and Sale Agreement (PSA) entered into by the Bank with Traders Royal Bank (TRB) in 2002 (see Note 34). Pursuant to the requirements of PFRS, the allowance for impairment losses on the NPAs amounting to P4.3 billion as at December 31, 2024 and 2023, were charged in full in the period incurred.

For its separate prudential reporting to BSP, the Bank was allowed under the MB Resolution No. 1751, dated November 8, 2001, as further amended by MB Resolution No. 489, dated April 3, 2003 and pursuant to MB Resolution No. 1950, dated November 21, 2013, to defer the full recognition of the impairment losses. The Bank annually recognizes provisions for impairment losses to gradually meet the foregoing provisioning requirement based on the net yield earned by the Bank from the Financial Assistance Agreement (FAA) with Philippine Deposit Insurance Corporation (PDIC) until November 29, 2013 when the collateralized government securities was sold and the obligation was fully settled. In 2022, the Bank recognized P1.3 billion provisions for prudential reporting to BSP to fully recognize the impairment losses on the NPAs (see Note 34).

The ECL allowance on financial assets at FVOCI is included in the "Net unrealized losses on financial assets at FVOCI" account in the statements of financial position (see Note 10).

As at December 31, 2024 and 2023, ECL on off-balance sheet exposures amounted to P45.8 million and P23.7 million, respectively, (see Note 22). In 2024, 2023 and 2022, the Bank recognized provision for (reversal of) ECL on loan commitment and financial guarantees amounting to P22.1 million, (P10.0 million), and (P36.9 million), respectively.

In 2024 and 2023, the Bank recognized a reversal of allowance for credit losses on loans and receivables amounting to P10.8 million and P238.9 million, respectively, which is included under "Provision for credit and impairment losses" account in the statements of income, as a result of the recalibration of its existing ECL framework to incorporate the most recent data and developments in the macroeconomic environment of the Bank (see Notes 3 and 4). The amount of the effect in future periods is not disclosed because estimating the impact is impracticable.

The table below summarizes the movements in ECL allowances on loans and receivables in 2024, 2023 and 2022 (amounts in thousands).

Preferred shares are non-voting, except as provided by law, perpetual or non-redeemable, cumulative, convertible to common shares at the option of the holders after 5 years from issue date, subject to requirements under laws, rules and regulations, have preference over common shares in case of liquidation, dissolution, or winding up of the affairs of the Bank and subject to the other terms and conditions as may be fixed by the BOD, required under regulations, and to the extent permitted by applicable law.

The Bank has outstanding liability for the unpaid portion of the redemption price of preferred shares amounting to P301.1 million and P290.1 million as at December 31, 2024 and 2023, respectively, which is recorded as "Due to preferred shareholders" account under "Other liabilities" in Note 22 to the financial statements. As at December 31, 2024 and 2023, the related sinking fund which is recorded under "Other assets" account amounting to P301.1 million and P290.1 million, respectively, has been set up to fund the eventual settlement of this liability (see Note 16).

On April 8, 2010, the SEC approved the Bank's application for the increase in authorized capital stock from P6.0 billion, divided into 52.5 million common shares and 7.5 million preferred shares both with the par value of P100 each, to P22.0 billion divided into 212.5 million common shares and 7.5 million preferred shares both with the par value of P100 each. The related amendment to the Articles of Incorporation of the Bank relative to its proposed increase in authorized capital stock from P6.0 billion to P22.0 billion was approved by BSP and the SEC on March 26, 2010 and April 8, 2010, respectively.

During its meeting on January 18, 2011, the BOD of the Bank passed a resolution approving the following:

- the sale of fully paid shares of Valiant Ventures & Development Holdings, Inc. (Valiant) in the Bank to SMPI and SMCRP amounting to 2,800,000 shares and 1,972,735 shares, respectively; and
- the assignment of subscription rights of Valiant to SMPI amounting to 523,726 shares (Tranche 1) and 4,713,539 shares (Tranche 2).

In connection to this, the Bank secured the approval of the MB of BSP for such sale of shares and assignment of subscription of the shares of Valiant. This is mandated in BSP's MORB since the total shareholdings of Valiant entitles it to a board seat. The Board also approved that the sale of shares and assignment of subscription rights be recorded in the stock and transfer book of the Bank only after the approval of the MB has been obtained.

On March 30, 2011, the MB of BSP approved the sale of shares of Valiant. In 2011, the Bank's subscribed common stock totaling 59,741,113 shares have been fully paid in accordance with the subscription agreement.

On April 30, 2019, the BOD and the Stockholders approved to amend the Articles of Incorporation to deny pre-emptive rights. The said amendment was approved by the BSP on August 16, 2019 and by the SEC on September 5, 2019.

On January 30, 2020, the BOD and the Stockholders approved the amendment of the Articles of Incorporation to (a) reflect that the Bank's terms of existence shall be perpetual (b) retire 4,248,853 redeemed preferred shares thereby decreasing the Bank's authorized capital stock to P21,575,114,700 (c) reclassify 3,251,147 existing unissued preferred shares into new unissued preferred shares and (d) reclassify 42,248,853 existing unissued common shares into new unissued preferred shares. The amendments resulted in total new preferred shares of 45,500,000 with par value of P100 and decrease in common shares to 170,251,147 with par value of P100. These were approved by the BSP on May 21, 2020 and by the SEC on June 9, 2020.

On January 26, 2021, the BOD approved the issuance of 41,666,667 preferred shares to San Miguel Corporation at P132.0 per share. These shares will be issued out of the unissued Series 1 Preferred Shares of the Bank. On March 8, 2021, the Bank received from BSP a "No Objection" to the provisions in the indicative terms and conditions of these Preferred Shares, provided that the Bank shall continuously comply with the regulation for the inclusion of preferred shares as part of Additional Tier 1 capital under Appendix 59, Risk-based Capital Adequacy Framework for the Philippines Banking System, of the Manual Regulations for Banks. On June 29, 2021, the BOD approved the change of investor for preferred shares from San Miguel Corporation to SMC Equivest Corporation, a wholly owned subsidiary of San Miguel Corporation and an existing stockholder of the Bank. On August 5, 2021, the Bank issued 41,666,667 Series 1 Preferred Shares to SMC Equivest Corporation at P132.0 per share. Transaction costs on the issuance of preferred shares amounting to P99.6 million were charged against "Paid-in surplus".

On May 25, 2021 and July 8, 2021, the BOD and the Stockholders, respectively, approved the amendment of the Bank's Articles of Incorporation to the par value of common and preferred shares from One Hundred Pesos (P100.0) to Ten Pesos (P10.0). The amendment resulted in increase in common shares from 170,251,147 to 1,702,511,470 and increase in preferred shares from 45,500,000 to 455,000,000. This amendment was approved by the BSP on October 4, 2021 and by the SEC on November 2, 2021.

On October 28, 2021 and November 9, 2021, the BOD and Stockholders, respectively, approved the primary public offer and sale of up to 280,700,000 common shares from unissued capital stock. On February 15 and February 16, 2022, the SEC and the PSE, respectively, approved the application for the Initial Public Offer of the Bank. On March 31, 2022, the Bank listed its common shares with the PSE. The Bank offered and issued new common shares to the public up to 280,602,800 at P12.0 per share. Transaction costs on the issuance of common shares amounting to P108.6 million were charged against "Paid-in surplus".

On October 28, 2021 and November 9, 2021, the BOD and the Stockholders also approved the amendment to the Articles of Incorporate to align sections around the sale, assignment, and disposal of shares with the lock up requirements of the Philippine Stock Exchange. The By-laws were also amended to update sections on stockholders, the Board of Directors, certificates of stock and the transfer of shares of stock. On December 31, 2021, the BSP approved the request of the Bank to amend its Articles of Incorporation and By-laws. The amendment on the Bank's Articles of Incorporation and By-laws was approved by the SEC on January 28, 2022.

On February 22, 2022 and April 29, 2022, the BOD and the Stockholders, respectively, approved the amendments to the Articles of Incorporation to change its purpose from a Commercial Bank to a Universal Bank pursuant to BSP MB Resolution No. 1798 dated December 23, 2021. The By-laws were also amended to comply with Sections 28 and 52 of the Revised Corporation Code. The amendment on the Bank's Articles of Incorporation and By-laws was approved by the BSP on June 29, 2022 and by the SEC on August 9, 2022.

Subject to the approval of the relevant government regulatory agencies, the Stockholders and BOD approved on April 25, 2023 and February 28, 2023, respectively, the amendment of the Articles of Incorporation to increase the Bank's authorized capital stock from P21,575,114,700 (divided into 1,702,511,470 common shares and 455,000,000 preferred shares) to P28,198,773,840 (divided into 2,364,877,384 common shares and 455,000,000 preferred shares). As of December 31, 2024, the Bank is in process of completing the documentary requirements necessary to obtain BSP approval.

The Stockholders and BOD approved on April 30, 2024 and February 27, 2024, respectively, the amendments to the By-laws to (a) specify the date of the annual stockholders' meeting and (b) align with relevant rules and regulations, such as Section 132 of the MORB and Section 34 of the Revised Corporation Code. The Stockholders likewise approved on April 30, 2024 the authority to delegate to the BOD the power to amend or repeal the current by-laws or enact a new one. On August 22, 2024 and October 8, 2024, the BSP and SEC, respectively, approved the amendments to the By-laws.

Cash Dividend

On May 28, 2024, the BOD declared cash dividends amounting to P654.9 million or equivalent to P0.2512 per common share and P0.7260 per preferred share, payable on July 15, 2024 to all stockholders of record as of June 19, 2024.

Equity Restructuring

On March 29, 2021, the BOD approved the Bank to undergo equity restructuring to wipe out the deficit amounting to P51,156,715 as at December 31, 2020 through the use of the Bank's Paid-in surplus.

On July 12, 2021, the Bank received from BSP a "No Objection" response to its application for equity restructuring with the SEC, subject to the (i) Bank's compliance with the Commission's other requirements; and (ii) condition that the Bank shall provide BSP a certified true copy of SEC's approval of the equity restructuring within five (5) days from receipt thereof.

On October 14, 2021, the SEC approved the equity restructuring to wipe-out the deficit as at December 31, 2020 amounting to P51,156,715 against the Paid-in surplus of P5.6 billion subject to the conditions that the remaining Paid-in surplus of P5.5 billion cannot be applied for future losses that may be incurred by the Bank without prior approval of the SEC.

Capital Management

The Bank's capital base, comprised of capital stock, paid-in surplus and surplus reserves, is actively being managed to cover risks inherent in the Bank's operations. In 2009, SMPI and SMCRP infused additional capital amounting to P3.3 billion in the form of paid-up common stock. On February 18, 2010 and March 1, 2010, major stockholders infused P271.9 million and P2.1 billion, respectively, into the Bank in the form of advances for future stock subscriptions, which shall be treated as part of the Bank's paid-up capital upon the SEC's approval thereon and on the increase in the Bank's authorized capital stock.

On August 5, 2021, SMC Equivest Corporation infused additional capital amounting P5.5 billion in the form of paid-up preferred stock. This is in support of the application of the Bank for an upgrade of its commercial banking license to a universal banking license. On March 31, 2022, the Bank listed its common shares with the PSE and raised P3.4 billion in additional capital as part of the requirements for the upgrade.

Under Section 121 of the MORB, *Minimum Required Capital*, the minimum capitalization requirement applicable for the Bank (universal banks with more than 100 branches) amounted to P20.0 billion. The Bank achieved this level with the August 2021 infusion of additional capital mentioned above. On December 23, 2021, the BSP approved the upgrade of the Bank's banking license from commercial bank to universal bank (UB) subject to certain regulatory requirements. On October 24, 2022, the Bank received from the BSP the Certificate of Authority to Operate as a Universal Bank dated October 4, 2022. As at December 31, 2024 and 2023, the reported unimpaired capital of the Bank amounted to P32.1 billion and P29.7 billion, respectively.

The guidelines on Bank's ICAAP under Section 130 and Appendices 94, 95 and 96 of the MORB supplements the BSP's risk-based capital adequacy framework. In compliance with this new circular, the Bank has adopted and developed its ICAAP framework to ensure that appropriate level and quality of capital are maintained. Under this framework, the assessment of risks extends beyond the Pillar 1 set of credit, market and operational risks and onto other risks deemed material by the Bank. The level and structure of capital are assessed and determined in light of the Bank's business environment, plans, performance, risks and budget; as well as regulatory edicts. The deadline for submission of ICAAP documents is March 31 of each year.

Regulatory Qualifying Capital

Under existing BSP regulations, the determination of the Bank's compliance with regulatory requirements and ratios is based on the amount of the Bank's "unimpaired capital" (regulatory net worth) as reported to the BSP, which is determined on the basis of Regulatory Accounting Principles which differ from PFRS Accounting Standards in some respects.

The BSP sets and monitors compliance to minimum capital requirements for the Bank. In implementing current capital requirements, BSP issued Circular 538, *Revised Risk-Based Capital Adequacy Framework for Universal and Commercial Banks and their Subsidiary Banks and Quasi-Banks*, which implemented the Revised Risk-Based Capital Adequacy Framework under Basel II effective July 1, 2007. It requires the Bank to maintain a prescribed risk-based capital adequacy ratio (expressed as a percentage of qualifying capital to risk-weighted assets) of not less than 10.0%.

Under Section 125 and Appendix 59 of the MORB, the regulatory qualifying capital of the Bank consists of Tier 1 (core) and Tier 2 (supplementary) capital. Tier 1 capital comprised common stock, additional paid-in capital and surplus. Tier 2 composed upper tier 2 and lower tier 2. Upper tier 2 consists of preferred stock, revaluation increment reserve, general loan loss provision and deposit for common stock subscription. Lower tier 2 consists of the unsecured subordinated debt.

The following are the minimum capital requirements for UBs and KBs and their subsidiary banks and quasi-banks (QBs):

- 6.0% Common Equity Tier 1 (CET1)/Risk-Weighted Assets (RWAs)
- 7.5% Tier 1 Capital/RWAs, and
- 10.0% Total Qualifying Capital (Tier1 plus Tier2)/RWAs

The Qualifying Capital must consist of the sum of the following elements, net of required deductions: Tier 1-‘going concern’ [CET1 plus Additional Tier 1] and Tier 2 - ‘gone concern.’ A bank/quasi-bank must ensure that any component of capital included in qualifying capital complies with all the eligibility criteria for the particular category of capital in which it is included. The Circular further describes the elements/criteria that a domestic bank should meet for each capital category. Regulatory adjustments and calculation guidelines for each capital category are also discussed.

In conformity with the Basel III standards, a Capital Conservation Buffer (CCB) of 2.5% of RWAs, comprised of CET1 capital, has been required of U/KBs and their subsidiary banks and quasi-banks. This buffer is meant to promote the conservation of capital and build-up of adequate cushion that can be drawn down by banks to absorb losses during financial and economic stress.

The CET1 capital requirement includes as an additional capital buffer, the Countercyclical capital buffer (CcyB) of zero percent (0%) subject to upward adjustment to a rate determined by the MB when systemic conditions warrant but not to exceed two and a half percent (2.5%). Any increases in the CcyB rate shall be effective 12 months after announcement while decreases shall be effective immediately.

The countercyclical buffer requirement will extend the size of the capital conservation buffer. A bank shall not be subject to any restriction on distribution if the following conditions are met:

- Has positive retained earnings as of the preceding quarter and has complied with the requirements on the declaration of dividends as provided in the MORB;
- Has CET1 of more than the total required (minimum CET1 ratio of 6.0% plus CCB of 2.5% plus CcyB at the rate determined by the MB) before distribution; and
- Has complied with the minimum capital ratios (CET1 ratio of 6.0%, Tier 1 ratio of 7.5% and 10.0% CAR) after the distribution.

Otherwise, the policy framework of the capital conservation buffer on the restriction on distributions shall apply, except for drawdowns. Thresholds on the restriction on distribution shall consider the CcyB requirement as an extension of the capital conservation buffer.

As at December 31, 2024 and 2023, based on the CAR reports submitted to BSP, the Bank's CAR of 17.58% and 19.88%, respectively, exceeded the minimum 10.0% requirement as computed and monitored using the rules and ratios established by the Basel Committee on Banking Supervision ("BIS rules/ratios"), based on the Basel III framework. The increase in the CAR ratio was primarily due to the increase in undivided profits and decrease in the credit risk weighted amount of contingent account (domestic standby letters of credit).

The breakdown of the Bank's risk-weighted assets as at December 31, 2024 and 2023 as reported to BSP follows (amounts in thousands):

| | 2024 | 2023 |
|----------------------------------|---------------------|--------------|
| Credit risk-weighted assets | P160,363,565 | P131,091,150 |
| Market-risk weighted assets | 14,407,072 | 313,854 |
| Operational risk-weighted assets | 1,512,215 | 12,140,350 |
| | P176,282,852 | P143,545,354 |

The Bank is also required to maintain a minimum Tier 1 capital ratio of 7.5% in 2024 and 2023 (in millions) as reported to BSP which was compiled as per below:

| | 2024 | 2023 |
|--------------------------|-----------------|-------------|
| Tier 1 capital | P29,638 | P27,396 |
| Tier 2 capital | 1,347 | 1,139 |
| Total qualifying capital | P30,985 | P28,535 |
| CET1 capital | P24,237 | P21,996 |
| Risk-weighted assets | P176,283 | P143,545 |
| CET1 ratio | 13.75% | 15.32% |
| Tier 1 capital ratio | 16.81% | 19.09% |
| Total capital ratio | 17.58% | 19.88% |

Certain adjustments are made to PFRS Accounting Standards results and reserves to calculate CAR which included the Bank's accounting of the following transactions that require different accounting treatments under PFRS Accounting Standards:

- a) non-performing assets and operating losses of TRB capitalized as miscellaneous assets and subject to staggered allowance provisioning;
- b) accounting for investment properties.

The recognition of the Bank for prudential reporting is based on the accounting treatment approved by BSP (see Notes 15 and 16).

Under Section 129 of the MORB Basel III, leverage ratio is designed to act as supplementary measure to the risk-based capital requirements. It is defined as the capital measure (numerator) divided by the exposure measure (denominator). The leverage ratio shall not be less than 5.0% computed on both solo (head office plus branches) and consolidated bases (parent bank plus subsidiary financial allied undertakings but excluding insurance companies).

The Bank exceeded the minimum leverage ratio of 5.0% as at December 31, 2024 and 2023 which was complied as per below breakdown (amounts in thousands):

| | 2024 | 2023 |
|------------------|--------------------|-------------|
| Capital measure | P29,637,638 | P27,396,326 |
| Exposure measure | 278,642,739 | 246,764,987 |
| Leverage ratio | 10.64% | 11.10% |

The LCR framework under Section 145 of the MORB promotes short-term resilience of liquidity risk profile of a bank. The LCR is the ratio of HQLAs to total net cash outflows. Under normal situation, the value of the ratio should be no lower than 100.0% on a daily basis because the stock of unencumbered HQLA is intended to serve as a defense against the potential onset of liquidity stress. The compliance with the LCR minimum requirement commenced on January 01, 2018 and the prescribed minimum shall be set initially at 90% for 2018 and raised to the minimum level of 100% on January 01, 2019.

Based on the LCR reports submitted to the BSP as at December 31, 2024 and 2023, the Bank's LCR were 178.68% and 213.86%, respectively, which were above the prescribed minimum requirement set at 100.0%.

While the NSFR promotes long-term resilience of banks against liquidity risk and maintains stable funding profile in relation to the composition of its assets and off-balance sheet activities. The implementation of the minimum NSFR was phased-in, banks undergone observation period from July 1, 2018 up to December 31, 2018 while actual implementation commenced on January 01, 2019. The NSFR is the ratio of Bank's available stable funding to its required stable funding and shall maintain at least 100.0% at all times.

As at December 31, 2024 and 2023, the reported NSFR of 145% and 164%, respectively, exceeded the required minimum of 100%.

This applies to UB/KBs as well as their subsidiary banks and quasi-banks with the framework anchored on the international standards issued by the Basel Committee on Banking Supervision known as the Basel 3 reforms.

25. Surplus Reserve

| | 2024 | 2023 | 2022 |
|---|-----------------------|----------------|--------------|
| Reserve for general provision - special reserve | P939,993,441 | P877,491,849 | P775,206,634 |
| Reserve for trust business | 169,052,115 | 157,512,612 | 148,200,862 |
| Reserve for self-insurance | 60,000,000 | 60,000,000 | 60,000,000 |
| | P1,169,045,556 | P1,095,004,461 | P983,407,496 |

Reserve for General Provision - Special Reserve

The BSP, through Circular No. 1011, *Guidelines on the Adoption of the PFRS 9*, requires appropriation of the Bank's retained earnings in case the computed allowance for credit losses on loans based on PFRS 9 is less than the BSP required 1.0% general provision on outstanding Stage 1 on-balance sheet loans, except for accounts considered as risk-free under existing regulations. Additional appropriation for reserve for general provision amounted to P62.5 million, P102.3 million, and P218.6 million in 2024, 2023 and 2022, respectively.

Reserve for Trust Business

In compliance with BSP regulations, 10.0% of the Bank's profit from trust business is appropriated to surplus reserve. This yearly appropriation is required until the surplus reserve for trust business equals 20.0% of the Bank's authorized capital stock. Additional appropriation for reserve for trust business amounted to P11.5 million, P9.3 million, and P9.0 million in 2024, 2023 and 2022, respectively.

Reserve for Self-insurance

Reserve for self-insurance represents the amount set aside to cover losses due to fire, defalcation and other unlawful acts of the Bank's personnel or third parties. No additional appropriation for Reserve for self-insurance was made in 2024, 2023, and 2022.

Retirement Plan

The Bank has a funded noncontributory defined benefit retirement plan covering its regular and permanent employees. Contributions and costs are determined in accordance with the actuarial studies made for the plan. Annual cost is determined using projected unit credit method.

The Bank's retirement benefits are based on the employee's years of service and a percentage of his gross monthly salary. An employee shall be retired and shall be entitled to full retirement benefits upon his attainment of 60 years of age.

An employee, upon reaching the age of 50 years and with the completion of no less than 10 years of service as a regular employee and with 30 days prior notice to the Bank, may retire at his option and shall be entitled to the retirement benefits.

An employee who has at least 10 years of service as a regular employee, but who has not reached the age of 50 years, may retire at his option and shall be entitled to the retirement benefits but such retirement benefit shall be subject to the pertinent requirements of the Bureau of Internal Revenue (BIR).

The Bank's retirement plan is registered with the BIR as a tax-qualified plan under RA No. 4917, as amended, and complies with the minimum retirement benefit specified under RA No. 7641, the "New Retirement Law."

The date of the last actuarial valuation is December 31, 2024. Valuations are performed on an annual basis.

As at December 31, 2024, 2023 and 2022, the principal actuarial assumptions used in determining retirement benefits liability for the Bank's retirement plan are shown below:

| | 2024 | 2023 | 2022 |
|-------------------------|------|------|------|
| Average working life | 9.0 | 13.0 | 13.0 |
| Discount rate | 6.1% | 6.1% | 7.6% |
| Future salary increases | 6.6% | 6.6% | 6.6% |

The mortality rates used in the valuation were based on the 1985 Unisex Annuity Table (UAT). The 1985 UAT was derived from the experience of the Government Service Insurance System from 01 January 1977 to 31 December 1981, a period of five years. The 1985 UAT has been adjusted to reflect improvements in mortality experience since its original construction. The disability rates used in the valuation were based on 100% of the adjusted 1952 Disability Table, reflecting improvement in Philippine disability experience.

The following table shows reconciliation from the opening balances to the closing balances for net retirement benefit liability (assets) and its components (in thousands).

The defined benefit plans expose the Bank to actuarial risks, such as longevity risk, interest risk, and market (investment risk).

The overall investment policy and strategy of the retirement plan is based on the Bank's suitability assessment, as provided by its Trust Services Group, in compliance with BSP requirements.

The weighted average duration of the defined benefit obligations is 8 years and 9 years, respectively, as at December 31, 2024 and 2023. The expected average remaining working lives as at December 31, 2024 and 2023 are 9 years and 13 years, respectively.

30. Rent and Utilities

The table below shows the breakdown of rent and utilities in 2024, 2023, and 2022.

Insurance refers to the insurance for the Bank's property and equipment.

Bank as Lessee

The Bank leases the premises occupied by most of its branches. The lease contracts are for periods ranging from 1 to 15 years and are renewable upon mutual agreement between the Bank and the lessors. Various lease contracts include escalation clauses, most of which bear an annual rent increase ranging from 2.0% to 25.0%.

The Bank also leases parking space, ATM location, signage and storage with contract term of 1 year. These leases are short-term and/or leases of low value items. The Bank has elected not to recognize right-of-use assets and lease liabilities for these leases. Rent expenses related to these contracts are charged against current operations (included under "Rent and utilities" account in the statements of income).

Information about leases for which the Bank is a lessee is presented below:

Right-of-Use Assets

Right-of-use assets relate to leased branch and office premises. Details of right-of-use assets are presented within property and equipment (see Note 14).

Lease Liabilities

See Note 5 for maturity analysis of lease liabilities as at December 31, 2024 and 2023.

The table below shows the amounts recognized in the statements of income in 2024, 2023 and 2022 related to leases under PFRS 16 (amounts in millions).

| | 2024 | 2023 | 2022 |
|---|--------------|-------|-------|
| Interest on lease liabilities | P39.2 | P32.8 | P28.2 |
| Expenses relating to short-term leases | 78.2 | 70.0 | 59.1 |
| Expenses relating to lease of low-value assets, excluding short-term leases of low-value assets | 15.7 | 12.0 | 9.7 |

Total cash outflow for leases recognized in 2024, 2023 and 2022 amounted to P340.3 million, P320.1 million, and P303.2 million, respectively.

Bank as Lessor

The Bank leases out its commercial properties for office space. The Bank has classified these leases as operating leases because they do not transfer substantially all the risks and rewards incidental to the ownership of the assets.

Rental income recognized by the Bank on its commercial properties (shown under "Miscellaneous" in the statements of income) for the years ended December 31, 2024, 2023, and 2022 were P0.4 million, P1.6 million, and P1.8 million, respectively, and includes rental income on investment properties (Note 15). The Bank also recognized income from the use of safety deposit boxes amounted to P2.9 million in 2024 and P3.0 million in 2023 and 2022 (see Note 31).

As at December 31, 2024 and 2023, the Bank has no future rental receivables under non-cancellable operating lease.

Others include management fee on deposits, charges on correspondent banks, royalty fees, other provisions and postage.

32. Income and Other Taxes

Income and other taxes are comprised of RBU and FCDU taxes which are discussed as follows:

Regular Banking Unit

Under Philippine tax laws, the Bank is subject to percentage and other taxes (presented under "Taxes and licenses" account in the statements of income) as well as income taxes. Percentage and other taxes paid consist principally of gross receipts tax (GRT) and documentary stamp taxes.

Income tax expense include corporate income tax, as discussed below, and final taxes paid at the rate of 20.0%, which is a final withholding tax on gross interest income from government securities and other deposit substitutes.

On March 26, 2021, R.A. No. 11534, *Corporate Recovery and Tax Incentives for Enterprises Act* (CREATE Law), was signed into law and took effect on April 11, 2021. The following are certain provisions of the National Internal Revenue Code of 1997 that were amended and relevant to the Bank:

- Regular corporate income tax rate is decreased from 30% to 25% starting July 1, 2020;
- Minimum corporate income tax rate is decreased from 2% to 1% starting July 1, 2020 until June 30, 2023;
- The allowable deduction for interest expense shall be reduced by 20% of interest income subjected to final tax, instead of the previous 33%; and
- The imposition of 10% tax on improperly accumulated retained earnings is repealed.

The MCIT and NOLCO may be applied against the Bank's income tax liability and taxable income, respectively, over a 3-year period from the year of incurrence.

In 2011, the BIR issued RR 4-2011, *Proper Allocation of Costs and Expenses amongst income earning of banks and Other Financial Institutions for Income Tax Reporting Purposes*, which requires banks to allocate and claim as deduction only those costs and expenses attributable to RBU to arrive at the taxable income of the RBU subject to regular income tax. Any cost or expense related with or incurred for the operations FCDU are not allowed as deduction from the RBU's taxable income. In computing for the amount allowable as deduction from RBU operations, all costs and expenses should be allocated between the RBU and FCDU by specific identification and by allocation. In a Decision dated December 1, 2021, the Supreme Court declared RR 4-2011 void for having issue ultra vires. It ruled that RR 4-2011 unduly contravened and expanded the provisions of the Tax Code. The Supreme Court Decision became final and executory on June 7, 2022, and was recorded in the Book of Entries of Judgement.

Foreign Currency Deposit Unit

RA No. 9294, the existing applicable tax regulation governing the taxation of FCDU, provides, among others, the following:

- Offshore income or the income derived by FCDUs from foreign currency transactions with nonresidents, Offshore Banking Units (OBUs) in the Philippines, local commercial banks including branches of foreign banks that may be authorized by BSP to transact business with FCDUs and other depository banks under the foreign currency deposit system shall be exempt from all taxes, except net income from such transactions as may be specified by the Secretary of Finance, upon recommendation by the MB to be subject to the regular income tax payable by banks.
- Gross onshore income or interest income from foreign currency loans granted by FCDUs to residents through offshore units in the Philippines or other depository banks under the expanded system shall be subject to final tax at a rate of 10.0%; and
- Interest income derived by resident individual or corporation on deposits with FCDUs and OBUs are subject to 15.0% final tax.

Income tax expense consists of:

| | 2024 | 2023 | 2022 |
|-------------|---------------------|--------------|--------------|
| Current: | | | |
| Final | P773,895,471 | P728,807,543 | P523,060,497 |

33. Related Party Transactions

The Bank has various transactions with its related parties and with certain directors, officers, stockholders and related interests (DOSRI). These transactions usually arise from normal banking activities such as lending, borrowing, deposit arrangements and trading of securities, among others. Under existing policies of the Bank, transactions with related parties are made substantially on the same terms as with other individuals and businesses of comparable risks.

Under current banking regulations, total outstanding loans, other credit accommodations and guarantees to each of the Bank's DOSRI shall be limited to an amount equivalent to their respective unencumbered deposits and book value of their paid-in capital contribution in the Bank provided, however, that unsecured loans, other credit accommodations and guarantees to each of the Bank's DOSRI shall not exceed 30.0% of their respective total loans, other accommodations and guarantees. Loans, other credit accommodations, and guarantees granted by the Bank to its DOSRI for the purpose of project finance, shall be exempted from the 30.0% unsecured individual ceiling during the project gestation phase provided that the Bank shall ensure that standard prudential controls in project finance loans designed to safeguard creditors' interests are in place, which may include pledge of the borrower's shares, assignment of the borrower's assets, assignment of all revenues and cash waterfall accounts, and assignment of project documents.

Except with the prior approval of the MB, the total outstanding loans, other credit accommodations and guarantees to DOSRI shall not exceed 15% of the total loan portfolio of the bank or 100.0% of net worth whichever is lower provided that in no case shall the total unsecured loans, other credit accommodations and guarantees to said DOSRI exceed 30.0% of the aggregate ceiling or the outstanding loans, other credit accommodations and guarantees, whichever is lower. For the purpose of determining compliance with the ceiling on unsecured loans, other credit accommodations and guarantees, banks shall be allowed to average their ceiling on unsecured loans, other credit accommodations and guarantees every week.

The total outstanding loans, other credit accommodations and guarantees to each of the bank's subsidiaries and affiliates shall not exceed 10.0% of the net worth of the lending bank provided that the unsecured loans, other credit accommodations and guarantees to each of said subsidiaries and affiliates shall not exceed 5.0% of such net worth provided that the total outstanding loans, other credit accommodations and guarantees to all subsidiaries and affiliates shall not exceed 20.0% of the net worth of the lending bank provided that these subsidiaries and affiliates are not related interest of any of the director, officer, and/or stockholder of the lending bank.

34. Acquisition of Selected Assets and Assumption of Certain Liabilities of TRB

A summary of the significant transactions related to the PSA entered into by the Bank with TRB on November 9, 2001 follows:

- a. TRB sold and transferred, in favor of the Bank, identified recorded assets owned by TRB both real and personal, or in which TRB has title or interest, and which are included and deemed part of the assets listed and referred to in TRB's Consolidated Statement of Condition (CSOC) as at August 31, 2001. The said assets are inclusive of the banking goodwill of TRB, bank premises, licenses to operate its head office and branches, leasehold rights and patents used in connection with its business or products. In consideration of the sale of identified recorded assets, the Bank assumed identified recorded TRB liabilities including contingent liabilities as listed and referred to in its CSOC as at August 31, 2001. The liabilities assumed do not include the liability for the payment of compensation, retirement pay, separation benefits and any labor benefits whatsoever arising from, incidental to, or connected with employment in, or rendition of employee services to TRB, whether permanent, regular, temporary, casual or contractual and items in litigation, both actual and prospective, against TRB.
- b. The Bank is allowed to avail of certain BSP incentives including but not limited to the following: (a) full waiver of the liquidated damages on the emergency loan of TRB and penalties related to reserve deficiencies and all other outstanding penalties at the time of acquisition may be paid over a period of 1 year, (b) relocation of branches shall be allowed within 1 year from the date of BSP approval of the PSA. Relocation shall be allowed in accordance with BSP Circular No. 293. The 90-day notice requirement on branch relocation has been waived, and (c) availment of rediscounting facility window subject to present BSP regulations.
- c. The Bank paid the outstanding emergency advances owed by TRB to BSP originally amounting to P2.4 billion through dacion en pago with mandatory buy-back agreement of certain assets of the Bank and TRB at a price set at 80.0% of the appraised value of those assets (see discussions on Settlement of Liabilities of TRB).
- d. The Bank arranged with PDIC a liquidity facility for the first year following the effectivity date in the amount not to exceed 10.0% of the assumed deposit liabilities of TRB to service unanticipated withdrawals by TRB depositors, subject to terms and conditions as may be imposed by PDIC.

Settlement of Liabilities of TRB

Part of the liabilities of TRB assumed by the Bank includes P2.4 billion emergency advances from BSP. As settlement for the emergency advances, a dacion en pago with mandatory buy-back agreement involving certain bank premises and ROPA (with a dacion price equivalent to 80.0% of the average appraised value of the dacion properties) was executed. The dacion en pago with mandatory buy-back agreement contained the following significant terms and conditions:

- a. The Bank may repurchase the bank premises and ROPA within 10 years from the execution of the agreement.

- b. The buy-back price for the ROPA is the dacion price plus, if applicable, real estate taxes paid by BSP. The buy-back price for the bank premises used in operations shall be the dacion price plus 6.0% simple interest per annum plus 50.0% of rental rates based on prevailing rates in the locality as mutually agreed by the parties with a 4.3% yearly increment.
- c. Any gain on sale of the dacion properties within the 10-year holding period, in excess or over the buy-back price, net of any taxes paid related to the sale, shall be shared 70-30 between the Bank and BSP, respectively.

As approved by BSP, properties of the Bank and TRB with net book value amounting to P2.3 billion fully settled the liabilities to BSP assumed by the Bank from TRB amounting to P2.4 billion at the time of dacion; the difference amounting to P102.0 million was credited to other deferred credits (ODC) account. Expenses incurred related to the dacion of properties were offset against ODC.

The Bank fully settled its emergency loan with BSP in June 2012 through cash settlement and permanent transfer of dacioned properties.

FAA

The summary of significant transactions related to the FAA entered into by the Bank with the PDIC, for acting as a "White Knight" by agreeing to the terms and conditions of the PSA with TRB, follows:

- a. The PDIC granted the Bank a loan amounting to P1.8 billion representing the amount of insured deposits of TRB as at June 30, 2001, which should have been paid by PDIC under a closure scenario. The proceeds of the loan were used to purchase a 20-year government securities with a coupon rate of 15.0% per annum to be pledged as collateral for the loan. Yield on the 20-year government securities (net of 20.0% withholding tax and the 3.0% interest to be paid on the loan from PDIC) shall be used to offset on a staggered basis, for prudential reporting purposes, against TRB's unbooked valuation reserves on NPAs with a total face value of P4.5 billion, which was approved by BSP to be booked as "Miscellaneous assets".

On November 29, 2013, the Bank fully settled its loan from PDIC amounting to P1.8 billion.

- b. The Bank infused additional fresh capital amounting to P200.0 million in 2001 and commits to infuse additional capital in the event a shortfall in order to comply with BSP's pertinent regulations on minimum capital requirement.
- c. The Bank agrees to comply with certain regulatory requirements, to provide information as required by the PDIC, to pursue realization of performance targets based on the financial plan, to secure PDIC's written consent for the appointment of an external auditor, and to entitle PDIC to appoint a consultant.
- d. The Bank shall not, among others, without the prior written consent of PDIC, grant new DOSRI loans, make any single major or significant total capital expenditures within 5 years as defined in the FAA, establish new banking offices or branches, dispose all or substantial portion of its assets except in the ordinary course of business, declare or pay cash dividends, effect any profit sharing or distribution of bonuses to directors and officers of the Bank not in accordance with the financial plan and other transactions or activities not in accordance with the financial plan.

On September 22, 2009, the Bank and PDIC signed a Supplemental Agreement to the 2002 FAA with the following additional terms:

- a. To the extent and in the context relevant to the terms of the FAA, PDIC hereby agrees to a limited adjustment of TRB's unbooked valuation reserves/deferred charges/accumulated operating losses, so as to include operating losses accumulated from the period October 2001 to July 2002 in the amount of P596.0 million which shall bring TRB's total unbooked valuation reserves, deferred charges and accumulated operating losses to P4.5 billion;
- b. Extension of the FAA for such limited period as shall exactly be sufficient to fully set off on staggered basis the MA-TRB against the net yield of the new series 20-year government securities to be purchased to replace the maturing government securities in March 2022 and likewise to be pledged to PDIC; and
- c. Income resulting from the difference between the dacion price and book value of the assets as collateral to BSP, if any, as well as future collections derived by the Bank from NPLs covered by the unbooked valuation reserves shall be deducted from the above amount of P4.5 billion. Such set-off shall be formally and officially reported by BSP to PDIC.

The foregoing Supplemental Agreement did not constitute a significant modification of the terms of the PDIC's below-market loan to the Bank. Had the modification been significant, it would have resulted to the derecognition of the old liability and the recognition of the new liability at its fair value.

In addition, as part of the PSA, there were transactions allowed and approved by BSP, which required different treatment under PFRS Accounting Standards. These transactions and their effects are described below:

Assumption of NPAs of TRB

In addition to the provisions of FAA and subsequent to the approval by BSP and PDIC to recognize NPAs of P144.2 million as miscellaneous assets, the Bank negotiated with BSP and PDIC to include as miscellaneous assets the additional operating losses of TRB amounting to P595.6 million incurred during the transition period of the Bank's assumption of TRB's assets and liabilities.

As at December 31, 2002, a portion of the additional operating losses of TRB amounting to P227.2 million was approved by BSP and PDIC to be included as additional miscellaneous assets. On April 28, 2003, BSP approved the deferral of operating losses amounting to P596.4 million (instead of P595.6 million which was previously negotiated by the Bank and P227.2 million which was previously approved by BSP) thereby increasing the TRB-related bookings to miscellaneous assets to P4.4 billion (see Note 16). NPL included under miscellaneous assets comprised TRB's loans amounting to P3.1 billion as at August 31, 2001 which is excluded in the determination of financial ratios, provisioning and computation of CAR based on the agreed term sheet. Also, BSP considered these miscellaneous assets as non-risk assets and are not subject to classification.

Pursuant to the requirements of PFRS, the allowance for impairment losses on the NPAs amounting to P4.3 billion as at December 31, 2024 and 2023 and P4.4 billion as at December 31, 2022 were charged in full in the period incurred (see Note 16).

For its separate prudential reporting to BSP, the Bank recognized P1.3 billion provisions to fully recognize the impairment losses on the NPAs in 2022 (see Note 16).

35. Notes to Statements of Cash Flows

The following is a summary of noncash activities of the Bank:

| | 2024 | 2023 | 2022 |
|---|---------------------|--------------|--------------|
| Noncash investing activities: | | | |
| Additions to investment properties and other properties acquired in settlement of loans | P560,787,537 | P654,419,110 | P251,831,964 |
| Additions to ROU assets | 282,902,827 | 313,175,775 | 159,277,079 |
| Increase in sales contract receivables from sale of investment properties | 57,832,282 | 108,020,017 | 88,212,765 |

The following table shows the reconciliation analysis of liabilities arising from financing activities for period ended December 31, 2024, 2023 and 2022:

| | 2024 | 2023 | 2022 |
|--------------------------------|-------------------------|-----------------|-----------------|
| Beginning balance | P8,071,629,499 | P7,933,164,363 | P538,398,243 |
| Additions to lease liabilities | 278,651,103 | 307,649,056 | 155,593,019 |
| Interest accretion | 84,791,505 | 68,831,053 | 42,795,198 |
| Cash flows during the year: | | | |
| Proceeds | 19,763,875,764 | 3,147,150,433 | 15,004,528,892 |
| Settlements | (21,001,413,943) | (3,385,165,406) | (7,808,150,989) |

| Other adjustments | (1,495,286) | - | - |
| Ending balance | P7,196,038,642 | P8,071,629,499 | P7,933,164,363 |

Other adjustments pertain to reductions to lease liabilities due to pre-termination of lease contracts.

As allowed by PAS 7, short-term borrowings from other banks amounting to P13.3 billion, P3.1 billion, and P7.6 billion in 2024, 2023 and 2022, respectively, are presented in the statements of cash flows on a net basis. In 2024 and 2022, cash proceeds include issuance of bonds payable amounting to P6.5 billion and P7.5 billion, respectively. In 2024, cash settlements include settlement of matured bonds amounting to P7.5 billion.

The cash flows from interest and dividend received for the years 2023 and 2022 presented as operating activity in the additional information section of the statement of cash flows were revised to adjust for the cash flows from the interest and dividends received that were previously presented under investing activity. Such reclassification is necessary to align with the primary statement of cash flows and has no material impact to the overall statement of cash flow.

36. Financial Performance Indicators

Basic earnings per share amounts were computed as follows:

| | 2024 | 2023 | 2022 |

- Commitments and Contingencies

In the normal course of operations, the Bank makes various commitments, such as guarantees, commitments to extend credit, etc., which are not reflected in the accompanying financial statements. The Bank does not anticipate any material losses as a result of these transactions.

The following is a summary of the Bank's commitments and contingencies at their peso equivalent contractual amounts arising from off-books accounts as at December 31, 2024 and 2023:

| | 2024 | 2023 |
|--|-------------------------|------------------|
| Contingent assets: | | |
| Future/spot exchange bought | P3,412,855,000 | P2,683,155,542 |
| Fixed income securities purchased | 25,619,362 | 6,409,295,659 |
| Outward bills for collection | - | 5,575,925 |
| | P3,438,474,362 | P9,098,027,126 |
| Commitments and contingent liabilities: | | |
| Trust department accounts | P72,733,928,823 | P72,133,492,741 |
| Committed credit line | 15,658,499,835 | 16,152,161,850 |
| Unused commercial letters of credit | 10,207,552,133 | 8,181,592,869 |
| Future/spot exchange sold | 3,962,382,500 | 3,181,038,760 |
| Credit card lines | 3,866,333,335 | 3,600,976,933 |
| Outstanding guarantees | 2,229,592,892 | 4,305,962,435 |
| Retirement obligations | 154,519,260 | - |
| Late deposits/payments received | 59,173,307 | 67,179,756 |
| Fixed income securities sold | 25,619,362 | 6,450,988 |
| Inward Bills for Collection-Domestic | 1,272,590 | 3,525,034 |
| Items held for safekeeping/securities held as collateral | 64,100 | 45,347 |
| | P108,898,938,137 | P107,632,426,713 |

Retirement obligations pertain to the estimated impact of the amendments to the Bank's retirement plan on past service cost, subject to certain conditions.

The Bank has several loan-related suits, claims and regulatory examinations that remain unsettled or ongoing. It is not practicable to estimate the potential financial impact of these contingencies. However, in the opinion of management, in consultation with its legal counsels, the suits and claims, if decided adversely, will not involve sums having a material effect on the Bank's financial statements.

Other Commitments

The assets pledged by the Bank are strictly for the purpose of providing collateral for the counterparty. To the extent that the counterparty is permitted to sell and/or re-pledge the assets, they are classified in the statements of financial position as pledged collateral. The pledged assets will be returned to the Bank when the underlying transaction is terminated but, in the event of the Bank's default, the counterparty is entitled to apply the collateral in order to settle the liability.

No asset is being pledged by the Bank to secure outstanding liabilities as at December 31, 2024 and 2023.

Trust Assets

Securities and other properties (other than deposits) held by the Bank in fiduciary or agency capacities for its customers are not included in the accompanying statements of financial position since these are not assets of the Bank. Total assets held by the Bank's Trust Services Group amounted to P72.7 billion (unaudited) and P72.1 billion (audited) as at December 31, 2024 and 2023, respectively.

In compliance with the requirements of current banking regulations relative to the Bank's trust functions, government securities with face value of P770.0 million as at December 31, 2024 and 2023, which have been included under "Investment securities at amortized cost" (see Note 11), are deposited with BSP.

Other relevant disclosures required by BSP Circular No. 1074 are in Notes 12, 24, 33 and 36.

39. Supplementary Information Required under Revenue Regulations (RR) No. 15-2010

The BIR has issued RR No. 15-2010 which requires certain tax information to be disclosed in a note to the separate financial statements. The Bank presented the required supplementary tax information as a separate schedule attached to its annual income tax return.

1. CALL TO ORDER

The meeting was called to order at 2:00 P.M. Mr. Francis Chua, Chairman of the Board of Directors, presided over the meeting. The singing of the National Anthem was followed by an invocation.

2. CERTIFICATION OF NOTICE AND QUORUM

The Corporate Secretary, Atty. Evita C. Caballa, certified that notices were duly sent to the stockholders-of-record.

Atty. Caballa also certified that out of the total outstanding capital stock of 1,819,680,590 shares, composed of 1,403,013,920 common shares and 416,666,670 preferred shares as of April 8, 2024, there are 1,511,588,600 shares, composed of 1,094,921,930 common shares and 416,666,670 preferred shares, or 83.07% of the outstanding capital stock, counted as present or represented by proxy in this meeting.

For the record, proxies for 916,326,090 or 65.31% of the outstanding common shares of the Bank have been issued by the stockholders in favor of the Chairman of the Meeting, Mr. Francis Chua, authorizing him to vote for the election and members of the Board of Directors and the approval of all corporate actions in the agenda for the meeting.

3. APPROVAL OF THE MINUTES OF THE ANNUAL STOCKHOLDERS' MEETING HELD ON APRIL 25, 2023

Chairman Chua proceeded to the first item in the agenda, which is the approval of the minutes of the annual stockholders' meeting held on April 25, 2023 held via livestreaming at <https://bncomasm2023.sanmiguel.com.ph/event/bank-of-commerce-2024-annual-stockholders-meeting>.

Copies of the draft minutes have been annexed to the Definitive Information Statement made available to the Bank's website as well as the PSE EDGE prior to the meeting.

Upon motion duly made and seconded, the stockholders resolved:

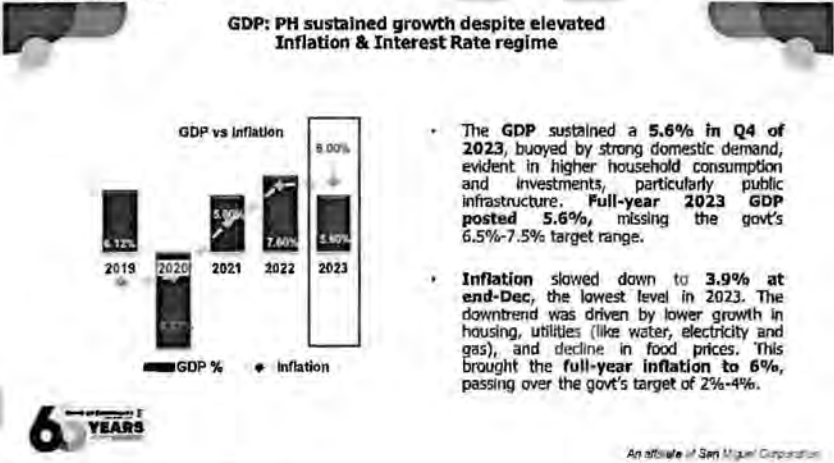

Resolution No. 24-01

"RESOLVED, AS IT IS HEREBY RESOLVED, to approve the minutes of the Bank's Annual Stockholders' Meeting held on April 25, 2023."

4. PRESIDENT'S ANNUAL REPORT

President and CEO Mr. Michelangelo R. Aguilar presented his annual report where he provided in report a snapshot of the market conditions that prevailed in 2023, followed by the highlights of the Bank's performance, and the Management's plans for BankCom in 2024 as the Bank deepens its relationship with the San Miguel Ecosystem.

2023 Market Conditions

Strong domestic demand from higher household consumption, improved labor market conditions, and investor confidence in public infrastructure fueled the expansion of the country's Gross Domestic Product (GDP) to 5.6% in the fourth quarter of 2023 and brought full-year 2023 GDP to 5.6%.

The expansion was notable in financial and insurance services at 8.9% from 7.1% in 2022, while other sub-sectors maintained double-digit growth rates such as accommodation and food service activities at 23.4%, other services at 20.9%, and transportation and storage with 13.1%.

The GDP growth, however, was slower than previous year's 7.6% and missed the government's target range of 6.5% to 7.5%.

2023 also saw inflation settling to 3.9% at end-December, driven by lower growth in housing, water and electrical utilities, and decline in food prices.

In contrast, rice inflation became the most significant contributor to December 2023's inflation when it shot to 19.6% from 15.8% in November. Together with food and beverages services and housing rentals, this brought the full-year average rate to 6.0%, breaching the government's inflation target of 2% - 4%.

These trends combined with other economic conditions were continually assessed by the Monetary Board, leading them to implement the interest rate regime that defined 2023.

Thrice during the year, the Monetary Board decided to take urgent off-cycle monetary actions to curb the risk that supply-side price pressures and second-round effects from further displacing inflation expectations.

In spite of a weaker-than-expected global recovery as well as government measures that could temper inflationary impulses, the potential impact of higher transport charges, electricity rates, higher oil prices, and minimum wage adjustments in areas outside NCR were seen to tilt the balance of risks to the inflation outlook the upside.

These assessments led the BSP to hike monetary policy rates by a total of 100 basis points—50 bps in February, 25 bps in March, and another 25 in October.

Nevertheless, the domestic banking system remained strong in spite of the rising price index, on account of measures among domestic players to keep capitalization within adequate levels.

By December, these monetary policy rate adjustments had brought core inflation on a declining path. As such, the Monetary Board's assessment concluded with the need to keep its policy settings tight to allow inflation expectations to stay more firmly within target.

The peso closed at P55.37:\$1 at end-2023, stronger than the P55.76 in 2022 driven by the lower crude oil prices, easing of US/global/local inflation towards central bank targets, and the surge of seasonal spending financed by remittances.

The local currency appreciated by 38.5 centavos of 0.7%, emerging as one of the best performing currencies in Asia since the start of 2023. The peso's performance in 2023 can be described as a 'mixed bag of volatility'.

The slower business activity and tighter monetary policy in 2023 placed banks in a challenging economic situation.

2023 Operational Highlights

President Aguilar stated that during last year's Annual Stockholders' Meeting, BankCom declared that the year 2022 was its banner year. BankCom posted the highest income at P1.8 billion and the steepest trajectory of growth since the San Miguel Group's acquisition of BankCom in 2008.

President Aguilar happily reported that in 2023, Net Profit of P2.8 billion not only exceeded the budget by half a billion, but it also outstripped all previous years since BankCom became an affiliate of SMC. Rising 56% over the previous year, the Bank's trajectory of growth has shifted further upwards. In fact, this growth is the highest among listed Philippine banks.

With this income, BankCom's Return on Equity (ROE) jumped to 9.5%, 250 basis points higher than 7.0% in 2022. The Bank has come closer to its ambition of landing double-digit ROE levels.

The P2.8 billion net profit derives mostly from Net Interest Income, which grew at 51% on the back of higher volumes generated by core lending businesses, both in corporate and retail segments.

Through an effective pricing strategy that prudently balances opportunity with risk, we were able to match these loans with deposits and achieve a higher Net Interest Margin of 4.3% versus 3.7% the previous year.

Using zero-based budgeting and a target-setting approach for major expenditures, we pegged our direct costs and operating expenses to within a Cost-to-Income Ratio range of 60%-70%, and even reduced it from 68% in 2022 to 61% in 2023. This was while maintaining a more than adequate Capital Adequacy Ratio at 19.9%, almost double the BSP minimum requirement of 10%.

The Bank's adherence to a segment-driven credit policy combined with a keen collection approach proved to be effective as the lower Net Non-Performing Loans or Net NPL of 0.4%, versus 0.6% in 2022, demonstrates.

When it comes to Non-Interest Income, President Aguilar proudly announce that the Investment Banking Group, which is only two years old, has once again delivered on the Board's expectations, not just by repeating its first year performance P110 million in 2022, but by surpassing it by 35% at P148 million in 2023.

Drilling down to Gross Revenue, Net Interest Income led the five sources of its 23% increase. Others in order of value were revenues from the sales of foreclosed assets or ROPA, Trading & Foreign Exchange Earnings, and at almost

tie were Service Charges mostly from Investment Banking deals, and various other sources.

The improvements in these income streams, such as in Investment Banking, have enabled the Bank to cushion the impact of a tight monetary policy environment on its core business.

The authority to operate as a universal bank which the Bank secured in 2022 unlocked the gates to a rich mine of new fee-based business lines that thrive on big-ticket deals. One such business line is Investment Banking.

In only six months through its maiden year, the fledgling Investment Banking business had already generated P100 million in fee income out of two Fixed Rate Retail Bond Issuance deals in 2022. For an investment house of this size, that accomplishment on the first year of operation was enough to put BankCom on the map.

In 2023, Investment Banking brought in 6 deals and with a more varied lineup—two deals each for Project Finance and Preferred Shares, and one each for Syndicated Notes and Syndicated Term Loan—and raking in P148 million in fee income.

This also demonstrates how stronger we are when other business units like Corporate Banking, Branch Banking, Treasury, and Trust work together as partners with Investment Banking.

The next discussion was about how BankCom fared in terms of key financial ratios.

First is the Bank's profitability and capital ratios.

BankCom is now a 30.8 billion Peso bank in terms of capital, ranking 13th in the industry and 11th among listed Philippine banks. Total capital funds grew by 10% year-on-year and translated to a CAR of 19.88%, well above the minimum regulatory requirement of 10%.

With Net Income of P2.8 billion, BankCom's Return on Equity stood at 9.5% at the end of 2023, marking an improvement from 7% of the previous year, and more than double the Bank's IPO prospectus ROE of 4.2%.

Next is the Bank's performance as a lending and fiduciary institution.

Consistent with the growth trajectory envisioned when the Bank started the journey to become a universal bank, the Bank accelerated our core lending business in the last two years at double-digit rates.

Rising to the same challenge, the Bank's branch network delivered on deposit expectations while retaining its complement of 140 branches.

The matching of deposit levels to loan growth thus enabled BankCom to sustain its Loan-to-Deposit Ratio of 70% for the last two years.

Still on the Bank's core business, Net Interest Income or NII jumped to P8.3 billion, an increase of P1.6 billion over 2022. This placed BankCom at the 3rd spot in NII next only to BDO and UnionBank.

Net Interest Margin or NIM expanded to 4.3% from 3.8% the previous year, on the back of two things. First is the higher income from investment securities and financial assets. This was due to disciplined trading in the sale of government securities as well as in strategically taking advantage of the high interest rate environment to gradually improve the yields of its portfolios. Second is the proper positioning in terms of repricing coupled with prudent management in general.

As a result, the Bank was able to duplicate our stellar performance on NII with a staggering 24% growth from 2022 to 2023.

Effective management of the Bank's operations and capital expenditures was equally key to the achievement of its financial targets.

BankCom believes that the achievement of its vision to become the best conglomerate bank in the Philippines, and to support the SMC Group in its work toward nation-building, can only be possible if we invest in building the organization through its people and its technology.

In a cut-throat environment where competition for the right talent has extended beyond the traditional banking space, BankCom needed to execute various strategic hiring and bespoke employee retention approaches backed by recognized experts. We leveraged the Bank's social media to reach a wider, next-generation audience to join the Bank. These improved our overall 2023 hiring numbers.

Alongside human capital, we invested in information technology (IT) according to a highly-organized 5-Year Roadmap, which will be further discussed later.

As such, Expenses rose faster than the previous year at 10%, attributable to our strategic IT investments and the higher compensation needed to defend our employee base.

Based on the foregoing, Presidenet Aguilar presented the summary of the Bank's P&L.

In spite of the 10% increase in Operating Expenses, the growth in BankCom's Operating Income at 23% offset it significantly. This further demonstrates that a combination of right-sized investments in human capital and IT can effectively support core business, enabling it to deliver better results.

President Aguilar moved on to report on the Bank's continuing thrust in building BankCom's presence within the SMC Ecosystem.

SMC Ecosystem

2023 was an extraordinary year for core lending to the SMC Ecosystem. Since the management came on board five years ago, it have marked as its main strategic thrust to become the bank for the SMC conglomerate and ecosystem.

SMC Ecosystem Loans grew substantially by P12 billion while NPL ratio for the portfolio improved to 0.12% from 0.21% in 2022.

With Outstanding Loan Facility at end 2023 of P17.9 billion, this surpassed the past three years by a wide margin, greater than even the sum of their figures.

SMC Ecosystem Non-Program Loans brought in the bulk at an unprecedented increase of 204%. We also recorded growth in our other programs, namely SMC and Petron dealer's financing, and hauler's financing.

This performance demonstrates that BankCom's business strategy is working. As such, we expect to further increase the penetration in the SMC ecosystem in succeeding years.

Management has estimated that the SMC Ecosystem is comprised of more than 4,000 corporate entities, i.e., suppliers to SMC via its central procurement office or directly to San Miguel business units (BUs). They also cover dealers of fuel, beer, and other products which are ultimately intended for consumers.

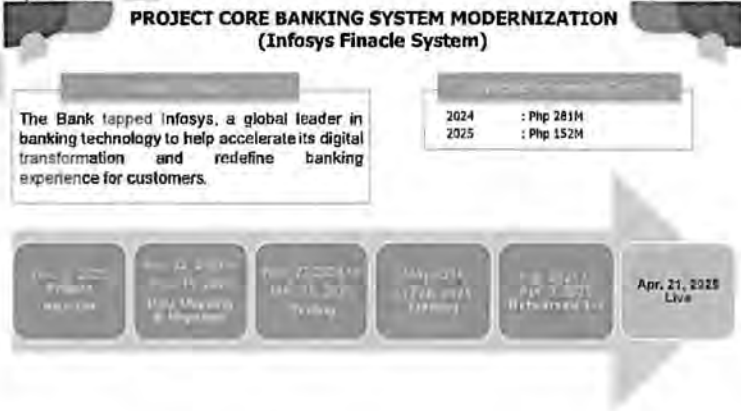

Starting with 140 of these entities in 2021, the Bank has expanded our client base by 133% to 1,326 clients for either deposits or loans, or both. This represents only 33.2% of the broader SMC Ecosystem.

Besides the ecosystem entities, there are also potential clients within the San Miguel Group itself. Based on available data, the number of such clients has risen by 189% from 246 in 2022.

All these continue to pose a significant growth opportunity which is right within the neighborhood of BankCom. Our formula for growth generated by penetrating this market combines onboarding more clients, establishing early wins, increasing cross-selling, and expanding BankCom's share of wallet beyond the relationship.

To ensure a successful formula, BankCom has embarked on a large-scale technological refresh. Mr. Aguilar then discussed four IT infrastructure projects that management believes to be the game-changer:

IT Infrastructure Update

First is the Core Banking System Modernization Project. Conceptualized in the latter part of 2022, the premise was that in order to support BankCom's strategy, all products and services offered to customers should focus on the main

goals of being secure, simple, accessible, fast, automated, and promoting customer delight.

After a rigid evaluation process in 2023, BankCom reached the decision to tap Infosys Finacle, a global leader in banking technology, due to its established presence in the Philippines, robust solutions suite, and record of reliable delivery in the market.

Estimated incremental project costs is at P281 million in 2024 and P152 million in 2025. The new core banking system is expected to go live in April 2025.

President Aguilar was pleased to report that as promised during its IPO, BankCom has completed its ATM & CRM Re-fleeting Project with a total of 252 machines deployed.

Through a partnership with NCR Corporation, the world's leading enterprise provider of software, hardware and services for banks and other industries, we have installed 214 ATMs and 38 cash recycling machines or CRMs. A total of 143 of these machines are located in branches, while the balance of 109 are installed in Petron stations, major malls, and other offsite locations.

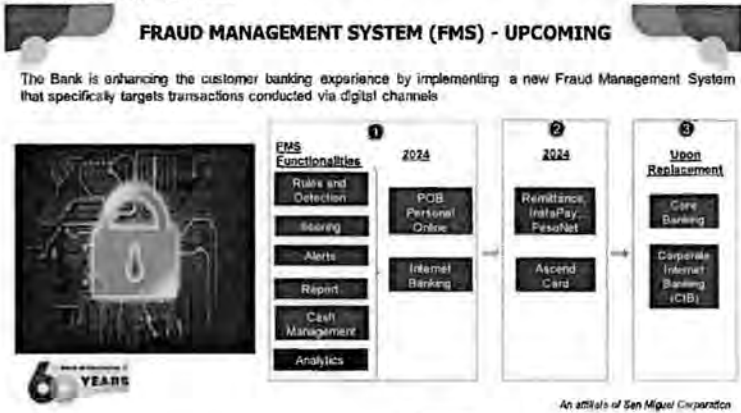

The completion of this Project reaffirms our commitment to providing convenient and secure banking solutions that continuously strive to exceed our customers' expectations and enhance their overall banking experience.

As the Bank considers large corporates, middle market, and SMEs key segments, the Bank has placed a priority on upgrading its BankCom [Business] channel to meet corporate clients' basic need to digitally manage their business accounts, fund transfers, and payments securely and conveniently.

This Project, aptly dubbed Cash Management version 2.0, employs a phased approach in the development and rollout of functionalities.

Features that support the business banking profile of SMC ecosystem clients are well thought out in the upgraded BankCom [Business]. The Project will be completed by November 2025.

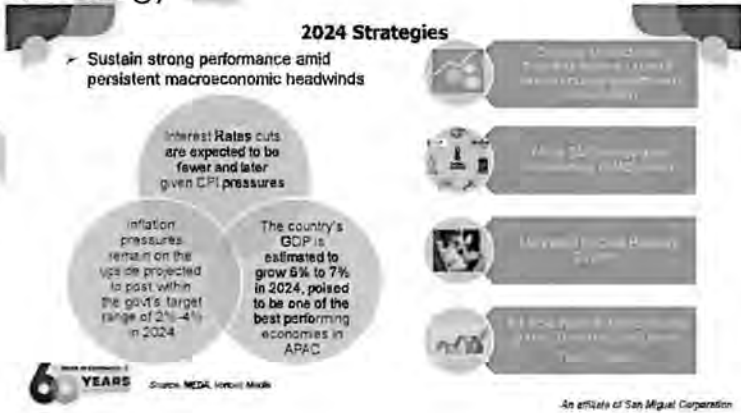

The fourth Project aims to enhance our customers' banking experience by ensuring that BankCom's capability for transactional security meets global standards as financial consumers in general continue to be the target of nefarious activities in the digital space.

The enhanced Fraud Management System is designed to systematically run the complex algorithms that detect fraud, enforce rules, manage scoring, send alerts and reports, and perform analytics for six digital channels and host systems.

after a long and extensive discussion of BankCom's operational performance highlights and project updates, President Aguilar presented Management's fair outlook of how 2024 can turn out and what the Bank's strategy is to maximize its upsides.

2024 Outlook and Strategy

Management believes that monetary policy, GDP and inflation will continue to influence the economy, characterized by expectedly fewer interest rate cuts, GDP growth between 6% to 7%, and inflation leveling to within the government's target range of 2% to 4% in 2024.

Despite persistent macroeconomic headwinds, management maintains the view that the country is poised to be one of the best-performing economies in the Asia-Pacific region.

Such view deserves a commitment and response that is built on strong fundamentals:

1. Continue to build the core business to assure income streams from asset and NIM growth amplified with cross-selling;
2. On-board more SMC Ecosystem clients beyond deposits, i.e., SME loans;
3. Execute the IT upgrades as planned, i.e., Core Banking System Modernization completed by April 2025;
4. Accentuate sources of Non-Interest Income from foreign exchange flows, fixed income sales, trust services fees, investment banking deals, and trade finance.

To end his report, President Aguilar gave a glimpse of how all these strategies will come together in terms of how customers bank in the "Branch of Tomorrow."

Mr. Aguilar showed the Bank's C-5 Pasig Branch, which was opened on April 29. The branch stands proudly showing the Bank's affiliation with San Miguel Corporation. It is located right at the frontage of the SMC compound where certain SMC business units are headquartered.

The Branch of Tomorrow design is apt for the customer who desires efficiency, function, clarity of boundaries, cosmopolitan taste, and a bias towards the practical and sustainable. It is a balance of the structure expected of an institution of trust and fiduciary accountability, and the friendliness of having meaningful conversations with your trusted professional.

After the presentation, Chairman Chua inquired from the Corporate Secretary if there are questions received from the shareholders. Atty. Caballa reported that two questions were picked to be answered from those that were submitted ahead of the meeting via e-mail as provided in the Information Statement and the Bank's website.

The first question was *"Why the slowdown in the Bank's loan growth from 2022-2023 vs. 2021-2022: 4.14% growth in 2023 vs. 47.69% in 2022?"*

President Aguilar answered that the Bank's loan growth seems to show a slowdown in 2023 when looking at the as-of/ending figures. The lower ending figure in year-end 2023 was primarily due to pay-offs of some big-ticket corporate clients. However, at a closer look, in terms of average daily balance (ADB), the growth is more comparable at 23% (2023 vs 2022) versus 30% (2022 vs 2021).

The more comparable growth rates are further supported by the Bank's Interest Income growth on Loans of P2.8 Billion compared to 2022's P1.3 Billion.

The second question was *"What other non-interest income businesses are growing other than Investment Banking?"*

President Aguilar answered that in 2023, the Bank registered growth in its Non-Interest Income business. In addition to investment Banking, growth is mainly attributable to Credit & Debit cards as well as Consumer loans.

After the questions were answered, Atty. Caballa stated for the benefit of the stockholders that all other questions and comments sent, whether via e-mail or through the chat box available during the livestream, have been duly noted, and shall be answered accordingly by the Bank through e-mail.

Thereafter, upon motion duly made and seconded, the stockholders resolved:

Resolution No. 24-02

"RESOLVED, AS IT IS HEREBY RESOLVED, to approve the Annual Report of the President, as presented."

5. RATIFICATION OF CORPORATE ACTS

The Corporate Secretary, Atty. Evita C. Caballa reported to the stockholders that all acts of the Board of Directors, the Executive Committee and other committees and officers of the Bank are on file, to which each and every stockholder is entitled to access. Atty. Caballa further reported that these acts were performed in the year 2023 taking into consideration the appropriate authorities granted and the relevant provisions of the articles of incorporation and by-laws of the Bank and existing laws and regulations.

Considering the above report, upon motion duly made and seconded, the stockholders resolved:

Resolution No. 24-03

"RESOLVED, AS IT IS HEREBY RESOLVED, to approve, confirm, and ratify all acts of the Board of Directors, the Executive Committee and other committees and officers of the Bank performed in the year 2023."

6. CONFIRMATION OF BANK'S SIGNIFICANT TRANSACTIONS WITH ITS DOSRI AND RELATED PARTIES

The next item on the agenda was the confirmation of the bank's significant transactions with its DOSRI and related parties.

Pursuant to the provisions of BSP Circular No. 895 series of 2015 Guidelines on Related Party transactions, Director Ricardo D. Fernandez, Chairman of the Related Party Transactions Committee, moved to confirm and approve all significant transactions of the Bank with its DOSRI and related parties in 2023.

These transactions are reflected in pages 106 to 110 of the Notes to the Bank's Audited Financial Statements as of December 31, 2023, copies of which have been made available to the stockholders-of-record prior to the meeting through the Information Statement uploaded in the Bank's Website and the PSE EDGE.

The motion having been moved and seconded; the stockholders of the Bank resolved:

Resolution No. 24-04

"RESOLVED, AS IT IS HEREBY RESOLVED, to approve, confirm, and ratify all significant transactions of the Bank with its Directors, Officers, Shareholders, and their Related Interests (DOSRI) and Related Parties in 2023, as reflected in pages 106 to 110 of the Notes to the Bank's Audited Financial Statements as of December 31, 2023."

7. APPROVAL OF 2023 PERFORMANCE BONUS OF DIRECTORS

The next item on the agenda was the approval of the 2023 Performance Bonus of Directors/

Ms. Marie Kristin Mayo, HRMDDD Head, reported that the Bank's Nomination Compensation and Remuneration Committee (NCRC) endorses to the stockholders for approval the 2023 performance bonus of the directors in the total amount of P13,867,500.00 (tax exclusive). The bonus is calculated based on the Bank's 2023 profit, the directors' terms in office, and their roles in the Board and the Board Committees.

For 2023, there were a total of fourteen (14) board meetings and one hundred twenty-four (124) board committee meetings attended by the members of the Board. Such attendance and participation in these meetings are

recognized to have contributed to the good performance of the Bank resulting in a 56% increase in profit.

Upon motion duly made and seconded, the stockholders of the Bank resolved:

Resolution No. 24-05

“RESOLVED, AS IT IS HEREBY RESOLVED, to approve the 2023 performance bonus of the directors in the total amount of P13,867,500.00 (tax exclusive), as presented.”

8. APPROVAL OF AMENDMENTS TO SECTION 2 OF ARTICLE II, SECTION 5 OF ARTICLE III, SECTION 2 OF ARTICLE VII, SECTION 1 OF ARTICLE VIII AND SECTION 1 OF ARTICLE XI OF THE BANK'S BY-LAWS

The next item on the agenda was the approval of the amendments to the By-laws of the Bank.

Atty. Caballa reported that on February 27, 2024, the Board of Directors approved to amend Section 2 of Article II, Section 5 of Article III, Section 2 of Article VII, Section 1 of Article VIII and Section 1 of Article XI of the Bank's By-laws, as follows:

(*AS AMENDED ON 30 APRIL 2024)

9. APPROVAL TO DELEGATE TO THE BOARD OF DIRECTORS THE POWER TO AMEND OR REPEAL THE BY-LAWS, OR ADOPT NEW BY-LAWS OF THE BANK

Chairman Chua proceeded to the next item on the agenda, which is the approval to delegate to the Board of Directors the power to amend or repeal the By-laws or adopt new By-laws of the Bank.

Atty. Caballa reported that on February 27, 2024, the Board of Directors approved to endorse to the stockholders for approval the delegation to the Board of Directors the power to amend or repeal the By-laws, or adopt new By-laws; provided, that any such power delegated to the Board of Directors to amend or repeal the By-laws, or adopt new By-laws shall be considered as revoked whenever stockholders owning or representing a majority of the outstanding capital stock shall so vote at a regular or special meeting.

This is in accordance with Section 47 of the Revised Corporation Code, as follows:

SEC. 47. Amendment to Bylaws. – A majority of the board of directors or trustees, and the owners of at least a majority of the outstanding capital stock, or at least a majority of the members of a nonstock corporation, at a regular or special meeting duly called for the purpose, may amend or repeal the bylaws or adopt new bylaws. The owners of two-thirds (2/3) of the outstanding capital stock or two-thirds (2/3) of the members in a nonstock corporation may delegate to the board of directors or trustees the power to amend or repeal the bylaws or adopt new bylaws: Provided, That any power delegated to the board of directors or trustees to amend or repeal the bylaws or adopt new bylaws shall be considered as

revoked whenever stockholders owning or representing a majority of the outstanding capital stock or majority of the members shall so vote at a regular or special meeting.

Whenever the bylaws are amended or new bylaws are adopted, the corporation shall file with the Commission such amended or new bylaws and, if applicable, the stockholders' or members' resolution authorizing the delegation of the power to amend and/or adopt new bylaws, duly certified under oath by the corporate secretary and a majority of the directors or trustees.

Electronic copy of the Information Statement stipulating the proposed delegation of authority was posted in the Bank's website and PSE Edge prior to this meeting for information and consideration of the stockholders.

Upon motion duly made and seconded, the stockholders resolved:

Resolution No. 24-07

"RESOLVED, AS IT IS HEREBY RESOLVED, to approve the delegation to the Board of Directors the power to amend or repeal the By-laws, or adopt new By-laws; provided, that any such power delegated to the Board of Directors to amend or repeal the By-laws or adopt new By-laws shall be considered as revoked whenever stockholders owning or representing a majority of the outstanding capital stock shall so vote at a regular or special meeting.

10. ELECTION OF BOARD OF DIRECTORS

Chairman Chua then proceeded to the next item on the agenda, which is the election of the Board of Directors. Atty. Caballa informed the stockholders that pursuant to the amended By-laws of the Bank, the Nomination Compensation and Remuneration Committee duly conducted the required screening procedure of all nominees.

The following were duly qualified and recommended for nomination to the Board of Directors:

1. FRANCIS C. CHUA, *Chairman*
2. BENEDICTA A. DU-BALADAD, *Vice Chairperson*
3. MICHELANGELO R. AGUILAR
4. ROBERTO C. BENARES
5. MARITO L. PLATON

13. DANIEL GABRIEL M. MONTECILLO, *as Independent Director*
14. SIMON R. PATERNO, *as Independent Director*
15. LEONARDO J. MATIGNAS, JR., *as Independent Director*

Atty. Caballa advised the newly elected members of the Board of Directors that their election will be submitted to the Monetary Board of the *Bangko Sentral ng Pilipinas* for its approval and confirmation.

Thereafter, Atty. Caballa also reported the appointment of the following as advisers to the Board of Directors of the Bank for the ensuing year 2024:

1. JOSE T. PARDO, Chairman
2. AURORA T. CALDERON
3. FERDINAND K. CONSTANTINO
4. CECILE L. ANG, and

5. ANTONIO M. CAILAO

Upon motion duly made and seconded, the stockholders resolved:

Resolution No. 24-08-A

"RESOLVED, AS IT IS HEREBY RESOLVED, to note appointment of the following as advisers to the Board of Directors of the Bank for the ensuing year 2024:

1. JOSE T. PARDO, Chairman
2. AURORA T. CALDERON
3. FERDINAND K. CONSTANTINO
4. CECILE L. ANG, and
5. ANTONIO M. CAILAO

11. APPOINTMENT OF EXTERNAL AUDITOR

The last item on the agenda is the appointment of the Bank's external auditor. There was a motion to appoint R.G. Manabat & Co. as the external auditor of the Bank of Commerce for the year 2024. The motion was duly seconded.

There being no objections to the motion as raised, the stockholders resolved:

Resolution No. 24-09

"RESOLVED, AS IT IS HEREBY RESOLVED, to approve the appointment of KPMG-R.G. MANABAT & CO. as the external auditor of Bank of Commerce for the year 2024."

12. OTHER MATTERS

Chairman Chua then asked the Corporate Secretary Atty. Caballa if there are other matters to be discussed. Atty. Caballa declared that there are no other matters for discussion.

13. ADJOURNMENT

There being no other matter to be discussed, upon motion duly made and seconded, the Chairman of the Meeting adjourned the meeting and thanked the stockholders for attending.

A copy of the voting results is attached as Annex "B".
